Welcome to Library News: Psychology

I am experimenting with a new "Library News" format. I'd be very interested to hear your critiques. As always, I am here to support the research, teaching and learning needs of the University community. Please email me at plb4@uchicago.edu with any questions about the library's collections and services, or with any comments and suggestions about the content and design of this newsletter.

Journal Alerts

Most library databases have the option of setting up email alerts or RSS feeds that notify you of new journal issues, results from a subject or author search, or even when an article you have written has been cited. If you have any questions about this or need help setting it up I am able to assist you.

New Journal Titles
