J1-J500	2ND FLOOR	XXK-XXKZ	2ND FLOOR
J501-JZ	B LEVEL WEST	Z-ZA	B LEVEL WEST

*f – Oversized (folio) item. Folios in the bookstacks on floors 2, 3, 4, and 5 are shelved in a separate sequence at the north end of these floors. Folios on the B-level are shelved in a separate sequence near their class.

**xf – Extremely large (elephant folio) item. With the exception of materials in the East Asian collections, all elephant folios are shelved in a separate sequence in the 2nd floor bookstacks.

East Asian Collections – East Asian/CJK materials with Library of Congress call numbers are shelved in a separate sequence in the 5th floor bookstacks. Harvard-Yenching/CJK materials are in a separate sequence in the B Level West bookstacks.

READING LIBRARY OF CONGRESS CALL NUMBERS

The majority of the Library's collections are shelved by the Library of Congress Classification System. Each letter combination represents a subject area.

1. For items with the location "Regenstein, Bookstacks," the first letter(s) in the call number will guide you to the correct floor.

¹ PS	² 3551
³ .N257	U53
⁴ 1999	

2. Read this part as a whole number (PS3551 would come before PS3650).
3. Once you've found the correct section, search alphabetically on the shelves for this letter. The numbers should be read as decimals (.N257 U53 would come between .N257 U450 and .N257 U6).
4. Some call numbers may include the year of publication.

BOOK NOT ON SHELF?

1. Find the item in the Library Catalog.
2. Scroll to "Circulation Status."
3. Click on "Not on Shelf?" and fill in requested information.
