

THE UNIVERSITY OF CHICAGO LIBRARY
Checklist of Slavic, East European
and Central Eurasian Newspapers

October 2009

NOTES:

- the list is not yet complete and there are some repetitions of titles in our online catalog because of multiple bibliographic records in the online catalog, which reflect holdings for the same title in multiple formats [print, microfilm, microfiche, digital]
- because names of countries and cities may have changed repeatedly over the decades, the most currently appropriate names are used [Czech Republic & Slovakia rather than Czechoslovakia; Russia rather than Soviet Union; Bosnia, Croatia, Serbia, etc., rather than Yugoslavia]
- the category "Dates of Publication" does not reflect library holdings, which may be complete or widely scattered. **To see an accurate record of our holdings, search titles in the online catalog.**
- titles marked "yes" in the category "Full Text" can be accessed (1) through the bibliographic record of the title in the online catalog or for many current Russian titles, through the Database Finder's link to the Universal Database of Russian Newspapers link
- questions can be addressed to:

and Central Eurasian Studies
