ENCHANTED ISLAND

ENCHANTED ISLAND

Boys and Girls! ● Come under the giant umbrella that will guard the "Enchanted Island", and enter into "Wonderland" where everything you have ever dreamed about will come true. ● And so important is this fascinating Island, that the people at the World's Fair are reserving it just for you. ● Can you wait until May 1st, 1933, to see it? ●

There will be so many interesting things for you to see and do that we cannot keep all of them to ourselves any longer, so here goes! ● Behold! ● The Magic Mountain, it's to be surrounded by water, and you can cross either on a bridge or, if you are a sailor, by a boat. ● You will want to go up the Mountain by the winding path. ● At the top you will find a "Fairy Castle", with perhaps a beautiful princess looking out at you from one of the windows. ● Anyone who enters this Castle will shoot down a mysterious spiral slide—Plunk! ●

Don't miss the Toy Shop with all kinds of toys for sale; and farther on, a whole house built of marbles where you may see how they are made. ● Then perhaps you will wander to the corral where there will

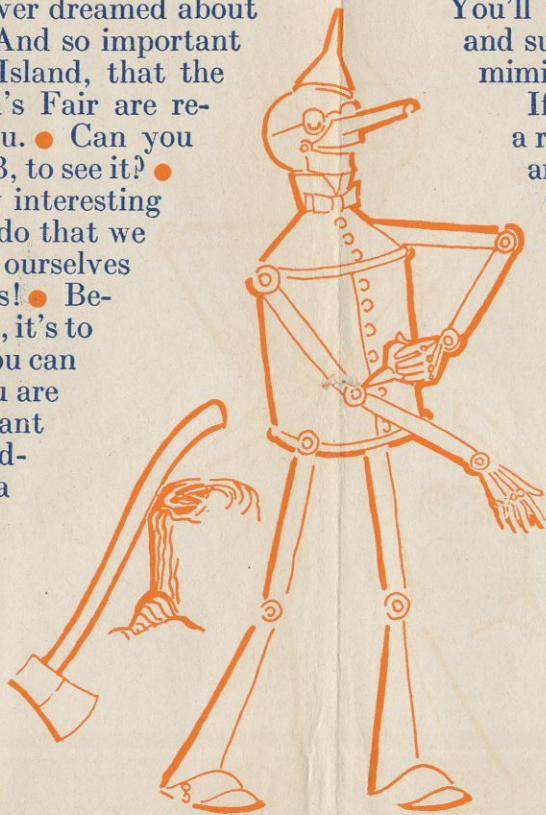

be real ponies to ride, and you'll surely want to see the Model Farm with only baby animals in it! ● We all like monkeys, don't we? ●

You'll see a Monkey Island too, and such squeaking, chattering and mimicking you've never heard. ●

If you like to travel, there will be a real little train waiting to take you around the Island. ● Stop at the Children's Bazaar which you'll love to visit because you'll see what children just your age from all over the world have made. ● Perhaps something you have done will be shown here, too. ● There, on the right, as you ride along, is your own Theater where the Junior League and others will give plays. ● On the left is the beautiful restaurant with all good things to eat. ●

A nursery and kindergarten will be waiting for your very young brothers and sisters. ● You may tell your Mothers and Fathers and Aunts and Uncles that, no matter what age you are, in the "Enchanted Island" you will have a perfect time in perfect safety. ●

But come, come under the Big Umbrella and see for yourself! ●
