

Research Help in Canvas

The Library provides research guides that highlight key resources in a discipline or subject. Turn on the tool in Canvas to guide students in their research.

To provide research help in Canvas...

1 Add 'University of Chicago Library' to your course navigation

From the **Navigation** tab in your courses' **Settings**, drag the **University of Chicago Library** from the lower section, and drop it in the upper section.

2 Save your changes.

3 Tell your students!

In this tab, your students will be able to **learn** about library resources, **chat** with a librarian, or **schedule** a research consultation with a subject specialist from their course site.
