The electronic texts reproduce the contents of the early volumes of *Dostoevsky Studies*, which are no longer available. Additional volumes will be added, until at least the first nine volumes are placed on line. The texts have not been altered, aside from the correction of a few obvious typographical errors. In the originals footnotes were sometimes indicated by superscripts, sometimes by numerals in parentheses; these formats have been preserved in the electronic texts. Page numbers of the originals are indicated so that they may be cited. This is a project

of *Toronto Slavic Quarterly* (<http://www.utoronto.ca/tsq>). If you have comments or questions please contact Prof. Kenneth Lantz (k.lantz@utoronto.ca).
