New Marlboro Lights 100’s

Lighter in taste. Lower in tar. And still offers up the same quality that has made Marlboro famous.

The spirit of Marlboro in a low tar cigarette.

Kings: 32 mg "tar", 0.7 mg nicotine av. per cigarette, FTC Report Aug 77
100’s: 12 mg "tar", 0.8 mg nicotine av. per cigarette by FTC Method.
Only Real
the natural cigarette
can taste so rich
yet be low tar.

Follow your taste to Real.

Your cigarette enhances its flavor artificially. All major brands do. Real does not. We use only the finest tobacco blend and add nothing artificial. Nothing.

Of course, the menthol in Real Menthol is fresh, natural. Not synthetic. You get a rich and round and deep taste. A total taste that satisfies. Yet it’s low tar.

Only 9mg. tar.

Dear Elsa & Marty: By now you are all safely home after your trip. We heard you had a marvelous time. Did you find this lady clinging to dear left to the cathedral in Freiburg? We decided she looks so wonderful because of the beads with long beads! An urban Franz Bleifeld was in the neighborhood. We found the Schlosswald most beautiful & enchanting. See you again & we catch our best this week in Bremen. Love from all to all. Gary

We had hoped that the Pope might come to the Bibfeldt Fest-day, however the invitation was thwarted on the Archdiocesan level.

The letter has been censored and we have deleted the name of its author to protect the innocent; it came from the Office of the Chancellor but was not written by the Chancellor.
This is the fable which Franz Bibfeldt has spent all his life taking to heart—without, as yet, much effect. (q.v., the lecture).

We do not know the provenance of this review; no doubt it is a hoax. It is unfortunate that exploiters like to exploit situations such as this.

The second note is a sign of his frustration—hardly worthy of the Bibfeldtian tradition.
