Chicago, September 21, 1907.

Board of Trustees,
The University of Chicago,

Gentlemen:

In March 1907 the house at 5865 Kimbark Avenue was rented for the Educational Department of the School of Education for a student’s residence, for which they thought they should be able to pay $60 per month. For last year the rent received was $60. They are now able to pay $60. They are in agreement with the idea that they are bears that the use of this building for a Club House is a part to keep the fraternity out of all the High Schools. The University, that is, rent free, but on condition that they make all necessary repairs and changes which are not of a structural kind.

Respectfully submitted,
(Signed) Wallace Huyckman.

The action of the Committee was approved for the current year, the use of the house for the purpose to be renewable by year at the pleasure of the Board.
the minutes of the last meeting were presented and approved.

The financial reports of the Auditor for the first three months of the year were submitted and ordered filed.

The Auditor added the formal report containing the following explanation and recommendations:

"You will notice from statement 5 that there is an apparent decrease in net on budget balance of $4106.65, as compared with last year, but as explained in the note, this decrease is only apparent, because of the different method and dates at which the income is received. In fact, if proper adjustments are made, there is a gain in net of approximately $8000. The Common Account shows a decrease in net of $489.70, due chiefly to the decrease in the Women's Common stock. The balance to the University Press is $105376.23, or $763.23 in excess of the limit. This was considerably more than had been recorded, and the fact that it was paid on July 31st, may account for the decrease in the Women's Common stock.

I also send you herewith a statement of the extra vacation credits which have been granted to the Institute of Extra Vacation Credit in the March department for the year ending June 30, 1909. This amount is $11747 on July 1, 1909, or an increase of $62 over the previous year. In other words, during the year just past the University pressed for and obtained the deferred liability. In this connection, I would like to recommend to the Board the advisability of adopting the following plan in regard to handling extra vacation credits:

1. Charge to the budget account of the year in which the work was done, the cost at full rate for all an account on the general ledger such as 'Extra Vacation Credit' and credit it to the account on the general ledger. The amount charged to the account on the general ledger shall be charged to the account on the general ledger for the year in which the account was made.

2. To provide for the liability for the present outstanding extra vacation credits, a charge shall be made in the account on the general ledger such as 'Extra Vacation Credit outstanding', and in order to prevent the net balance, make appropriations each year from the budget, and from any surplus account which may arise from this charge.

This plan, it is hoped, will go a long way towards clearing up the account on the general ledger.

At the request of the President I submit a statement of the names of the following persons who have taught for quarter in succession, the quarter indicated after the name being the fourth quarter, in order to the work done for the fourth quarter for credit might be approved by the Board, in accordance with the regulation relating thereto.

The Secretary submitted the following from the Business Manager:

The accompanying survey by the Greely-Howard Company shows the space occupied by the present buildings of the University located at Lake and Market Streets. So far as we are able to learn there is room for a dock at this point. Ordinances were passed for a ten feet dock along property in the City, but the ordnance stated that at points such dock should be left of this width. Inasmuch this property was not bound in such fashion. Some amount of dock space seems proper, first, for the protection of the building, second, in event of accidents on the river.

The Greely-Howard Company have prepared a survey and recommendation of this property divided into two lots, one of them constituting the lot which could be occupied by the building, and the other consisting of a foot strip the entire length of this property.

I would like to recommend that this subdivision be made by the University and reported, conditioned upon its approval by the Federal Harbor Engineer, second, by the City. In rebuilding however, I would like to recommend that the present building exactly follow the lines of the present building, simply straightening out the notch in the west side of the south structure.

Respectfully submitted,
(Hجنل) William Nolmam.

After examination of the accompanying plans the recommendations were approved.

The recommendations of the Committee were approved and adopted.

The reports of the Auditor for the first nine months of the year were submitted and ordered placed on file.

The Auditor added to the reports the following statement:

"You will note from Statement number 5 that the decrease in net earnings on the budget accounts amounts to $763.39, but as explained in the note, after making adjustments which place the two years on a comparative basis, the net receipts are approximately $26300 less than last year. The actual surplus on March 31 on the budget account was $20309.43, but this large amount was due to the fact that the spring quarter opened on March 28 and a greater portion of this surplus was due to fees for the spring quarter being paid in the month of March. The increases in net on the Common account was $4073.27 but the same explanation should be made in connection with this figure, the greater part being due to collections for the spring quarter on Women's College. The debit to the University Press on March 31 was $161144.99. It will be remembered that in the meeting of Sept. 11 on my suggestion credit was given to the Press for an amount not to exceed $400 extra six months from date. The University Press has paid back this sum with the exception of $120 and the capital in excess of $44000. The payment of bills on University Press account was withheld in the month of April until remittances had been received sufficient to cover the amount.

I also submit the copies of the complete budget for the year 1910-11."

The following report from the Auditor was also submitted:

Chicago, April 10, 1910.

The budget for the year beginning July 1, 1910 in its final and complete form, submitted by the auditor, was adopted.
Submit the following:

Board of Trustees,
The University of Chicago,
Chicago, Illinois.

The Business Manager submitted the following:

March 29, 1910.

Greenwood Are.

The special assessment suit for the surfacing, grading and paving of Greenwood Avenue from 46th to 48th Street has been dismissed. This resulted from defects in the earlier steps in the proceedings to which objections were made.

Respectfully submitted,
(Signed) W. Heiman.

The Business Manager submitted a full report from the Superintendent of Buildings & Grounds on the explosion which took place in the tunnel in front of Kent Laboratory on March 22, and it was ordered placed on file.

The Business Manager submitted the following:

April 14, 1910.

Walter Irvin

Mr. Walter Irvin, who was injured by the explosion in front of Kent Laboratory, will accept the sum of $50, in full of loss of time and expenses incident to his injury. I recommend that this amount be paid.

Respectfully submitted,
(Signed) Wallace Heiman.

The recommendation was approved and the payment authorized.

The Business Manager submitted the following:

April 14, 1910.

Yorke Ch. Grounds.

We have no fund provided for the care of the roads and grounds at the Yorke Observatory. If the oval lawn is to be kept in condition, it ought to be mowed with a hose water mower. Also, the public area be kept clear of weeds in order to protect lawn. About $500 would be the expense until the end of the year. I should like to have your instructions in the matter.

Very truly yours,
(Signed) Wallace Heiman.

The matter was referred to the Committee on Buildings and Grounds with power.

The Business Manager submitted the following:

April 8, 1910.

Schmidt Loan.

On the request of the borrower, I have arranged that the William A. Schmidt loan due April 8, 1910, might stand over as past due paper. The borrower expects to take it up on October 1st.

Morse Loan.

The W. J. Morse loan of $4,000 has been extended for one year on payment of $100.

Hildreth Loan.

The E. H. Hildreth loan of $4,000 due April 1st has been renewed for five years.

Stumberg Loan.

The Stumberg loan of $4,000, due March 15th, has been permitted to run as past due paper, the balance of the borrower paying the interest at $60.00 per month. The death of the borrower made it impracticable, owing to the existence of minor heirs, to renew the paper. As the loan is in all allowed, I should like to recommend that it likewise be permitted to continue to run as past due paper for the present, the interest being promptly met.

Respectfully submitted,
(Signed) Wallace Heiman.

The Board adjourned.

The regular monthly meeting of the Board of Trustees was held in the Board room at 8 P.M. There were present:

A. Macleish in the chair, and Howard Judson, Gray, W. A. Smith, Dickerson, Parker, Talbott, Baldwin, Y. A. Smith, Donnelly, Barton, and Goodspeed; also H. H. Hookman and Arnett.

Word was received from Mr. McCormick of his inability to be present.

Prayer was offered by Mr. Goodspeed.

The minutes of the last meeting were presented and approved.

Auditor's financial reports of the auditor for the period the ten months of the year were submitted. They were ordered placed on file.

The Auditor submitted the following explanatory statement:

You will note from Statement number 5 that the decrease in net earnings on budget accounts amounts to $12,000.94, but as explained in the note after making adjustments which place the two years on a comparative basis the net receipts are approximately $6,000 less than last year. The increase in the net earnings on the Common amounts to $1,001.54 due to the fact that there were no losses in the figures on Greenwood common for last year which would leave the increase in net earnings about $600 in reality. The deficit to the University Press for April 30 was $12,924.94 or within the limit of its capital, $16,000.

Budget Variations.

The Auditor also submitted in detail probable variations from budget expenditures as follows up to June 30, 1910, the following being a summary:

FEBRUARY 1910

Estimated variations from original estimates to June 30, 1910, based on actual figures for first ten months, and estimates for the last two months.

The Business Manager submitted the following communication with reference to Morgan Hall at Morgen Park:

June 29, 1910.

Board of Trustees,

The University of Chicago,

Gentlemen:

Morgan Hall at Morgen Park, occupied by the Scandinavian Seminaries, carries a somewhat serious hazard in lack of proper fire escapes. The upper floors of fire would be the main danger and would, in the opinion of the insurance people, cut off all access, the stairs too, being in quite close proximity to the boiler. It would be necessary to have adequate protection against the fire escapes. Considerable repairs ought also be made to this building if it is to be permanently occupied by these schools.

Respectfully submitted,

(Signed) Wallace Heckman.

It was voted that the Business Manager be asked to communicate with the Board of Trustees and request that the conditions noted be remedied.

Board of Trustees.

Morgue Hall.

S. Park Imp. Aero.

It was voted that the contract with the South Park Improvement Association be renewed for the renewal of rubber, etc., at the same price. Signed: July 23, 1910.

The following communication was received from Mr. Byrson:

July 26, 1910.

To the Board of Trustees of The University of Chicago,

Gentlemen:

Mr. Byrson, Physical Laboratory.

On account of the progress of the science of Physics, some changes in the plan and equipment of the Byrson Physical Laboratory have become very desirable. Furthermore, it is evident that the demand upon the Laboratory space will soon exceed its capacity. Therefore, I propose to make certain improvements in the capacity of the Laboratory by erecting and equipping an addition which have been prepared by Messrs. Shepard, Butler & Co., in accordance with plans which have been prepared by Messrs. Shepard, Butler & Co., in accordance with plans.

Awaiting your action on this proposal, I remain,

Very sincerely yours,

(Signed) Martin A. Byrson.

Northern Baptist Convention.

The Acting-Secretary presented a letter from Dr. W. C. Birting, Corresponding Secretary of the Northern Baptist Convention, containing resolutions of appreciation and gratitude for the provision made for the recent meeting of the Northern Baptist Convention.

The letter was read and ordered placed on file.

Attendance.

President Judson reported the attendance at the University during the Summer Quarter, showing a net increase of 25 with a smaller number of unclassified students than usual but a larger number of graduates. The total number in attendance during the first term of the Summer Quarter was 2387 as compared with 2262 in 1909. There were present 292 graduate students as against 261 in 1909. In the College of Education the attendance was 661 as against 475 in 1909.

Auditor's Report.

The Auditor reported a gain of receipts from the beginning of the Summer Quarter of $22,704.77, the total for the quarter being $212,949.75.

Mr. H. E. Maclean was appointed Superintendent of Buildings and Grounds at a salary of $4600.00 from July 1, 1910.

Foster Hall.

It was voted that the work of repairing Foster Hall shall go forward and that during the time required for these repairs the dormitory be withdrawn from use.

Mrs. C. N. Morse.

Upon the recommendation of President Judson it was voted that $1014 be appropriated for Mrs. Charles R. Morse for the coming year for retiring allowance and same to be charged to the gift fund for that purpose.

The Auditor submitted financial reports for the year ending

June 30, 1910, as follows:

Auditor's
Report
The Board of Trustees,
The University of Chicago.

Gentlemen:

Herewith I submit financial reports for the year ending
June 30, 1910, consisting of-
1. Investments: Endowment and Special Funds.
2. Condensed Balance Sheet.
   a. General Account.
   b. Other Accounts.
5. Budget Expenditures in detail.
6. Credit Balances to be re-appropriated.
7. The University Press Division Balance Sheet and Departmental
   Reports.
8. Comparative Statement of the University Budget Receipts
   and Expenditures, and the Commonwealth Accounts for the years
   ending June 30, 1909, and June 30, 1910.

The total receipts on the University Budget were

1487208.19
1475397.69
134684.97

For the former year they were
an increase of
11830.50

The increase is due to the following-
1. First installment of Mr. Rockefeller's gift to the School of Education
   $20000
2. Increased fees from students of which about $20000 is due in placing
   scholarships on both sides of the budget
3. From invested funds and miscellaneous items
   37629.79
38565.15
4. From items re-appropriated from the surplus of last year
   22194.58

The expenditures on the University Budget were

1477337.49
133043.26
140406.65

For the former year they were
an increase of

This increase is accounted for as follows-
1. Instruction
   62397.59
2. Books, Equipment, and Departmental Expense
   18854.38
3. Scholarships (See note on receipts)
   26072.12
4. Fire Expenditures
   14942.80
5. Buildings and Grounds
   7034.79
6. General and Miscellaneous Items
   10617.49

The surplus for the year is
32269.74
32667.96

The surplus for last year was
an increase of
4980.12
4661.95

Before arriving at the surplus for this year the following items were charged to the budget-
1. Fire Expenditures
   14942.80
2. Northwestern Baptist Convention Expense
   4215.33
3. Tunnel Escalator Repairs
   2452.26

Total
22506.33

which if net expended would have made the surplus that much
greater. In my report to the Board of May 17, showing the
estimated surplus on June 30, 1910, the amount was
placed at
9049.
against which was to be charged as much as possible of the
three special items just above mentioned. As a matter of fact there
was sufficient surplus to take care of all the above items and
also $2866.66 of extra vacation credit and then leave a
balance of
9800.72
or a net gain in surplus as compared with that estimate of
8236.50

There have, however, been increases in certain items of
expenditures and decreases in others as shown by the budget
expenditures in detail. But as indicated above the net result is a gain, and I would ask your approval for the
auditing of expenditures varying from that estimate.

Under date of Jan. 19, 1909, Mr. Rockefeller made a gift of
income bearing securities as of July 1, 1908, to provide for
the commonwealth deficit of the University of Chicago for
the year 1909-10 and for permanent increase of endowment, the net
income of which in round figures was $40000 a year. The
securities comprising this gift were Series C 3% Bonds and United States Steel 5% Bonds, the income on the former being due in April and October and on the latter in
May and November each year. When the gift was turned over to the
University as of July 1, 1909, the income which had accrued
at that date
7910.41
was charged to the University. Consequently at the close of the
year June 30, 1910, in order to get the full $40000 of income
in the budget it has been necessary to make an entry charging
income accrued and crediting the budget receipts with a similar
amount. It is our custom to include in the income of the year
only such amount as is actually paid in, and from the surplus of
last year the sum of $2841.65 was appropriated to place all items of
a similar kind which had been formerly received from Mr.
Rockefeller account on same basis as the other budget items of
the University. If similar action should be taken this year, it will
of course reduce the surplus by the amount of $7910.41.

The receipts from the Commons of the University, namely
Men's, Women's, and Lexington, and the School of Education Lunch Room were
156789.26
154745.18

For the year before they were
a decrease of
704.93

The expenditures were
156543.28
153204.47

making a decrease in net of
3338.81

Before arriving at the surplus for the year $1000 has been charged
to the Women's Commons and $444.79 to the School of Education
Lunch Room and credited to balances reappropriated to provide for
additional equipment which is now being put in. If these charges
had not been made, there would have been an increase in net
as compared with the former year of
640.04

The net receipts were
3266.94
32269.74

a decrease as indicated above of
602.80
978.55

The net receipts were realized from the various Commons as follows-

Women's Commons
166.30

School of Education Lunch Room
800.00

Lexington Commons
38.64

Total
1091.94

Less loss on Men's Commons
396.03

Net receipts as above
695.91

Making net receipts as above
395.03

During the past year Greenwood Hall has been open for
occupancy for women students and the operations of the Commons
resulted as follows-

Receipts
3342.32
Expenditures
7367.95
Net Receipts
-4025.63

so that the gross receipts and expenditures on all the Commons
including Greenwood Hall are practically what they were the
year before without Greenwood Hall.

The receipts of the University College were
9777.94
For the former year they were
9641.60
an increase of
136.34

The expenditures were
9582.11
12131.94

The deficit for the year was $167.13.

The surplus of last year leaving a balance unexpended from that appropriation was $566.78.

The operations of the University Press for the year resulted in a surplus of $683.79, as compared with the surplus of the former year of $566.78, a gain of $117.01. The surplus represented a return of 3.49% on the average capital used.

The total receipts of the Press for the year were $364826.63, a gain of $8035.69. The expenditures were $356861.88, a decrease of $7944.76. The increase in net as above indicated was $10.92.

The plan for the publication of the University Journals, by granting a lump sum of $25000 a year for the subsidy, in addition to the receipts continues to work well, and all the Journals show a surplus which, subject to certain conditions, goes to a sinking fund for the benefit of the particular Journal. Surpluses are as follows:

The receipts from fees, rents, etc., collected in the Registrar's Office for the past year amounted to $4015.00.

The amount unclaimed on June 30, 1910, was $5547.70, and the amount paid out $5249.26. The excess of $298.44 is due the Lecture Study Department, $97.90, University items, $151.50, elementary school items, and $3.36, and school items, of the amount due the Lecture Study Department $146.10, for the lectures delivered in June.

The amount of money received for the Student Deposit account during the year was $5249.26, and the amount paid out $4138.01. The balance on June 30 to the credit of the account was $1110.25.

In accordance with the custom of former years I would ask that the credit balances for the year ending June 30, 1910, amounting to $30307.90 be reapprropriated.

The Business Manager submitted a report from the Committee on Press and Extension. After consideration of said report and the recommendation contained therein, it was voted that the following books be published, as recommended by the Director of the Press, viz:

1. A volume entitled, "The Rural Church," by President Kenyon L. Butterfield, of the Massachusetts Agricultural College, as a property book. This work is a sociological study and will form a companion piece to "Chapters to Rural Progress," by the same author. Of the latter we have sold 125 copies, and it is probable that there will be a demand for the book for several years to come.

3. A volume entitled, "Current Educational Problems," by Dr. Ellis Young, Superintendent of Schools of Chicago, as a property volume. This book will be a collection of papers by Mr. Young and will undoubtedly be in considerable demand among educators connected with the public schools of the country.

4. A syllabus of Political Economy Courses, edited by members of the Department of Political Economy, for use mainly in the classes of the University, by W. G. Harwell, managing editor, as a property book.

After consideration it was also voted that the matter of entering into contracts for Binding should be referred to the Press Committee with power to act. 7. Truth the Supreme Claim (Latin or English)
8. The Truth Shall Make You Free (Latin or English)
9. Zeal Daily Lithuanian
10. This maxim of liberty as the fundamental basis of liberty in opposition to superstition. It is one of the educational institutions of the republic.
11. General Press Instruct
12. Print Lux

On motion the meeting adjourned.

W. R. Liebherr
Secretary 1910 term

"Tuesday, September 30, 1910.

The regular monthly meeting of the Board of Trustees of the University of Chicago was held at 2 P.M. in the Board Room. Those present were W. M. Ryerson in the chair, and Messrs. John, Marion, Parker, A. A. Smith, W. A. Smith, DeHaven, Donnelly, Hutchinson and Goodspeed; also Mr. Newcomb.

Word was received from Messrs. Dickerson, McCormick and Baldwin of their inability to be present.

Prayer was offered by Mr. Goodspeed.

The minutes of the meetings of August 16 and August 30 were presented and approved.

The Auditor's Report that the financial reports for the fiscal period of 1909-10 were submitted and ordered placed on file.

The Auditor added the following explanation:

You will note from statement No that there is a decrease in net earnings on budget account of $24,536.53 of which $10,719.41 is due to decreased receipts and $594.40 to increased expenditures. Reasons for these decreases are as explained in the following note in that statement:

"In the Budget Receipts of last year was included $244,536.53 of items reappropriated from the surplus account. Allowing for that, the decrease in receipts from the regular items is $3705.32. The receipts from students are $2619.92 more than last year, so that the decrease of $10,719.41 is composed of decreases from different accounts, due to the vacancy of Lake and Market Street property and the variation in the date of receipt of income. Of the items in last year's budget which were provided for the appropriation of $2394.56 from surplus account comparable items amounting to $2380.00 are not included in the budget expenditures of this year. After making allowances for the above variations the net receipts are about $300, less than for the corresponding period of last year."

An analysis of the actual budget receipts and expenditures for last year gives further information for the budget of the current year.

The actual receipts last year were $147,770.75 but from that figure should be deducted $2394.56 of items provided for from the surplus account. On the other hand there should be added the $7910.41 being income accrued on Mr. Rockefeller's gift which was deducted as last year's budget but which will be included in this year and also $960.00 for increased earnings on New York Central Stock if the present rate continues. On this basis the income for the current year should be $156,024.42. The actual budget expenditures for last year were $147,770.75 but the following items were excluded which will not appear in the current year's budget:

- Fire Expenditures: $1490.30
- Baptist Convention: $493.80
- Tunnel Expenses: $248.50
- Retiring Allowance: $500.00
- Special Appropriation for Books and Equipment: $700.00
- Total: $2600.82

which would leave the budget expenditures $146081.88 or $27836.87 less than the receipts. In other words if the receipts for the current year remain on the
same basis as those of last year they will exceed the
budget estimate $143082, by $3398, and if the
expenditures remain on the same basis as last year
with the elimination of those special items they
will exceed the budget estimate by $6656, leaving
the net gain $77586.67 so that there is a deficiency
of diminished receipts or increased expenditure to
that extent if all the other items remain stationary.
At the present time, however, no demands is being
received from the Market & Lake Street Property
from which $2691 was received last year, and there is
about $5000 more depreciation to other buildings to
be charged this year.

The Common Accounts show an increase in net of
$1288.40.

The debt to the University Press on August 31
is $55394.64 or $1058.94 in excess of the capital
allowed. I have withheld the payment of vouchers
except in case of those where there was a discount
for prompt payment and in case of the payroll, until
a sufficient amount of receipts is taken in in the
month of September to cover it. The debt to the
University Press on August 31st, 1919, was
$52075.61 so that there is an increase this year,
that the heavy purchases of the Press are made between the months of
September and April, the debt at the corresponding
meeting last year granted the Press an additional
capital of $15000 until April 1, 1919. The loan
was repaid on that date. At the meeting held
August 30th the Board authorized the loan of $5000
to the Press capital or $10000 less than was allowed
at the same period last year. It will be seen
from the above figures that the Press account this
year is in need of a line equal to that which was
granted to it last year.

I am enclosing herewith statement of extra
vacation credit showing a total of $79402. In
accordance with the new plan this has been entered
credit to an account called "Extra Vacation Credit,
"which is at the discretion of Instruction, given
in any particular case at the discretion of the
department of instruction, to be used for anything
of that sort by the student, so far as was possible.

I am sending herewith copies of my annual

Board of Trustees,
The University of Chicago,

Gentlemen:

In view of the change of plan to a six-story building at Market Street, a new party wall agreement with Mr. Howard Blair, the owner of the property at the north, has become advisable. I should like to recommend that the entire matter of the plan of the building, including the mingling of the contracts, and the making of a party wall agreement involving that property, be referred to the Committee on Finance & Investment with power.

Respectfully submitted,
(Signed) Wallace Beckman.

The report was approved and the recommendations adopted.

The Business Manager submitted the following:

October 14, 1910.

Board of Trustees,
The University of Chicago,

Gentlemen:

It is interesting to note at the present moment there is no vacancy in University property held for rent. The total number of tenants is 399. Lake and Market streets is, of course, vacant for purposes of rebuilding.

The Business Manager submitted the following:

October 16, 1910.

Board of Trustees,
The University of Chicago,

Gentlemen:

The University Press at this time of year requires for the transaction of its present volume of business a greater capital than $4,000. July 1st of this year the capital of the Press was $14,000. 36½% greater than at the beginning of last year. Even the limit of $14,000. For the capital was established the branch bookstores in the School of Education was not in operation. This carries a stock of between $2500. and $4000. The profit on this work last year amounted to $1200., so that the requirements made will not add to the overextension which caused the surplus of the year not in the recommendation. The University advanced last year $12,500. for six months. The return of these advances commences about January 1st. I should like to recommend that the matter be referred to the Committee on Press and Extension with power to increase this year’s advances to $20,000. including the $12,500. already advanced to the Press.

It would seem that proper accounting would require that at least so much of the capital of the Press as shall be invested in the $14,000. on interest. I should like to recommend that this feature of interest on university capital be likewise referred to the Committee on Press and Extension with power.

Respectfully submitted,
(Signed) Wallace Beckman.

The report was approved and the recommendations were adopted.

I also submit a report from the Committee on Audit & Securities, presenting for your information the report and present accounts for the year 1909-10.

The Committee also submitted the following recommendation:

"As to the few appropriations for purposes outside the budget, your Committee recommends that all such appropriations shall, until the appropriation has been expended or the object accomplished and that such appropriations shall not lapse at the close of the fiscal year unless it specifically be stated when the appropriation is made." The report of the Committee was received and ordered placed on file and the recommendation submitted by the Committee was adopted.

The Board adjourned.

T. W. Goddard,
Secretary.

Mr. Pearson, for the Committee that took the budget to New York, reported, that the New York trustees, instead of tables to the budget and the special requests presented to the Committee, for submission to the Board of Trustees, the following letter from the Founder of the University:

LETTER OF GIFT

To the
President and Trustees of
THE UNIVERSITY OF CHICAGO.

Dear Sire:

I have this day caused to be set aside for the University of Chicago from the funds of the General Education Board: any sum of $100,000,000 in payment of my dispositions, income-bearing securities of the present market value. The sum is approximately Twenty millions ($10,000,000), the same to be delivered to the University in two annual installments beginning January 1, 1931, each installment to be delivered to the University at the date of each delivery only. A list of these securities and the appraised hereinafter is herewith enclosed. In a separate letter of greater date my wishes regarding the investment of the same are more specifically expressed.

It is far better that the University be supported and enlarged by gifts from those of a single donor. This I have recognized from the beginning, and, accordingly, have sought to keep you in enlisting the interest and securing the contributions of many other donors. I desire to express my appreciation also of the extraordinary wisdom and fidelity which you, as President and Trustees, have shown in conducting the affairs of the University.

Chapel.

With this similar view, I have been guided in the allotting of the funds and the use of the same.

In order to state my ideas more clearly, I must proceed to your conditions.

In a single and final gift, distributing its payments over a period of many years to come, such further contributions as I have purposed to make to the University, in case I now give in intended to make provision, or such gifts as may reasonably be expected from others, for each added buildings, equipment and endowment as the departments thus far established will need. This gift completes the plan which I have set before myself. The founding and support of new departments or the development of the varied and alluring fields of applied science, including medicine, I leave to the wisdom of the Trustees as funds may be furnished for these purposes by other friends of the University.

In making an end to my gifts to the University, as I now do, and in withdrawing from the Board of Trustees my personal representatives, whose resignations I tender, I am acting on an early and permanent opinion that this great institution being the property of the people should be controlled, operated, supported and directed by the people, in whose generous efforts for it I have participated and likely still participate, and I could wish to continue now to the greatest extent of my education the funds which I have given, if that was possible, to present the institution a second time, in so far as I have aided in founding it, to the people of Chicago and the West; and to express my hope that under their management and with their generous support the University may be an increasing blessing to them, to their children and to future generations.

Very truly yours,
(Signed) John D. Rockefeller.

To the President and Trustees of the University of Chicago, Chicago, Illinois.

Dear Sirs:

Referring to my letter of gift of even date, I set down here more specifically my wishes respecting the fund therein contributed.

Regarding the delivery of the securities, the General Education Board is to have the right from time to time to change the investments, using the several means and having the same discretion as in the case of its own securities. As nearly as is practicable, the delivery of each year is to be made from the various classes of securities in the ratio which the securities of each class bear to the total.

It is my desire that at least the sum of One Million Five Hundred Thousand Dollars ($1,500,000) be housed in the erection and furnishing of a University Chapel. As the spirit of religion should permeate and centralize the University, as that building which represents religion ought to be the central and dominant feature of the University group. The Chapel may appropriately embody these architectural ideas, and the gift of money, how beautifully harmonious, have taken their spirit, so that all the other buildings of the campus will seem to have caught their inspiration from the Chapel and in turn will seem to be contributing to the personality of the Chapel. In this way the group of University buildings, with the Chapel centrally located and dominant in its architecture, may be dominated by the spirit of the University, in its ideal, is dominated by the spirit of religious feeling, and all its works is directed to the highest end.

Whether the Chapel can be so planned as to admit of housing the Young Men's Christian Association, if the University, by any means this will permit a separate building, in a matter which we must be decided in connection with the plans of the architects, I ask you kindly to submit the plan before their final adoption, in the hope, who will be able to finally regard my wishes.
Apart from what may be required for the Chapel, the remainder of the fund may be used, in the discretion of the Trustees, for land, buildings or endowment, but not as part of the principal sum, nor for current expenses. No doubt other donors will offer the University many of all its needed buildings. Factions now written in wills, or to be written, will become available from time to time for those and other purposes. I hope therefore that this final gift from us may be used for endowment as far as practicable.

Any change which the future may make advisable in the disposition of these funds may be made by mutual consent. For such purpose I now appoint my son as my representative, and in case of my own death and of his death, he is to be succeeded by my executrix.

Very truly yours,
(Signed) J. D. Rockefeller.

The reading of these letters drew out a general expression of regret on the part of the Trustees of professorial and of deep satisfaction and of deep gratitude to Mr. Rockefeller for his unparalleled benefactions to the University.

The following minute was unanimously adopted:

Acceptance of Mr. Rockefeller's gift.

The Board of Trustees of the University of Chicago accepts the gift made by Mr. Rockefeller in his letter of December 19, 1910 and pledges itself to carry out the spirit as well as the letter of the conditions accompanying it.

It is now twenty-one years since in May 1899, Mr. Rockefeller made his first gift to the University of Chicago. The present gift marks, therefore, the completion of a significant period in the history of the University throughout which he has cooperated with other friends of the Institution, in laying its foundation.

The following minute was unanimously adopted:

We have no parallel in the history of education upon a single institution of learning. But unique, as they are in amount, they are still more remarkable for the spirit in which they have been bestowed. Mr. Rockefeller has never permitted the University to bear his name, and so long as is called its founder only at the urgent request of the Board of Trustees. He has never suggested the appointment of the president or the renewal of any professor. Whatever voice he has never indicated either direct or indirect, with the same breadth of a university, but has adhered without exception to the principle that while it is important to make that university a living, it is more important that in their teaching, such an institution be maintained even in his attitude toward the teaching of a subject, or intimate, or religious, wherein the mind is largely sensitive to difference of opinion. Although at times discussions have been voiced in the University which touches those the foundation is known to hold, he has never shown a desire to restrain that freedom which is a just as precious in theology as in other fields of thought.

Such a relationship between a great benefactor and the institution which he has founded affords a model for educational benefaction through all time.

In concluding the assurance of this long desired fulfillment, by so many acts of personal courtesy, the Trustees are enabled to express their appreciation of munificence as vast exercised in a spirit so fine.

It is the conviction of the act and the spirit of the act which has made it possible to create and through the act to save the University of Chicago by training youth in character and in grasp learning. For it is in the field of human knowledge, may

The committee beg leave to report as follows:

With the growth of the University it became increasingly important that the system of organization should be so designed as to make it possible the securing and retaining of as many men of ability in the field actually and the resources of the University permit; and that each member of the Department in the kind of work for which he is best fitted. The statutes of the University, according to section 35 of the Register for 1909-10, do not formally recognize that the maximum salary is paid to the professor in each of the Department, it is to be understood that all within and without the University to whom a real service in any of other

The present system would seem to be based on two principles. (1) The larger salary of the faculty is paid to men of high ability and recognized in recognition of exceptional merit. In this case the assignment of administrative duties to the head would seem to proceed on the presumption that the most eminent man is the proper person to administer the department. But (2) the most eminent man may not be well adapted to administrative work, and (b) even if he is capable in this direction, it may be useless for the University to pump it in this direction rather than in research. (c) The larger salary may be attached to the administrative duties required. This appears to place an undue valuation upon departmental administration as compared with research and teaching.

In view of these considerations your committee proposes the following resolutions:

1. RESOLVED: That the trustees of the University be requested to provide that the salaries paid or rank given to members of a department shall be determined without reference to the method of administration, and that, whenever the interest of the University seems to make it desirable, more than one person in the same department may be given a custom rank and salary.

2. RESOLVED: That the trustees of the University be requested to amend the University Government Statute in the following particulars:

A. By omitting the word "and" before "acting" and inserting after the word "heads", the words and chairs of departments in Article VI, Sec. 4, par. c, so that the words will read:

"acting heads and chairs of departments in the Colleges of Arts, Literature and Science."

B. By omitting the word "and" before "acting" and inserting after the word "heads", the words and chairs of departments in Article VI, Sec. 1, par. a, so that the words will read:

"acting heads and chairs of departments in the Schools of Arts, Literature and Sciences."

C. By omitting the word "and" before "acting" and inserting after the word "heads", the words and chairs of departments in Article XII, Sec. 1, par. e, so that the words will read:

"acting heads and chairs of departments in the School of Education."

D. By omitting the word "and" before "acting" and inserting after the word "heads", the words and chairs of departments in Article XI, Sec. 1, par. c, so that the words will read:

"acting heads and chairs of departments in the School of Education."

E. By changing the number of Article XII to Article XIII.

F. By inserting the following new article, to be described as Article XIV, as follows:

ARTICLE XII

A department shall consist of members of any faculty as defined in Section 3 of regularly appointed to give instruction or carry on research in one of the well recognized divisions of study and investigation.
