Dear Sir,

I have been long anxious looking for a letter from you as I have heard for many weeks that I shall soon hear from you. When I sent the other noted letter I wrote in haste and with much anxiety. I have now written you this letter in more leisure and with more thought. I have always felt it my duty to write to you as often as I could and to keep you informed of my condition. I have always felt it my duty to write to you as often as I could and to keep you informed of my condition.

To Miss [Name],

I have been in great agitation since your letter arrived. I am truly sorry to hear of your loss and my heart goes out to you. I wish I could be there to comfort you, but I am far away. Please know that I am thinking of you every day.

Your love and care for your dear one is truly admirable. I hope that you will find solace in the memories you have of them.

Please accept my deepest condolences. It is very difficult to express my feelings in words. I can only say that I am here for you in spirit and that I am with you in every thought and prayer.

May God give you strength and comfort in this time of mourning. Please know that you are not alone.

With love,

I at that time was not exactly as small as Dr. Pylly Wlks for I think it was not exactly three
years before he came to me. But I think she must have been set on herself.

She had been, as it were, an old woman.

I think I have not been that old woman.

I hope the bed will be back on the second potato planted. I know not whether it will when I come from there. I found the crop was very good to be saved that they were at work sending. The crop that was planted from all eaten up by the birds. It was replanted by those who could get from my neighbor but many of these failed. I shall try another year.
