Sir,

I am very much obliged for your sending me the 'Contemporary Review' for April 1 for drawing my attention to the article on the Egyptian Campaign.

I do not think that the writer of the article is remarkable for his accuracy, but it is out of the question that I should reply to some of his statements. If Captain Fisher shall be
on help pay the cost militarily and militarily.

I reply to the critics, if there is no one in the Navy who could do it more forcibly — and he had the advantage of being an actor (2 a very prominent one) in the scenes described —

But I may state that no heavy guns were brought aboard the squadron under my command. The guns which were damaged could have been used with dangerfor a very long period — No Krupp guns were mounted in the Egyptian Battalions. The heavy guns used by them against us were Krupp howitzers rifled guns of English construction precisely similar to those of similar calibre amongst Her Majesty's ships, and Smoothbore guns of English, French and American casting —

I cannot imagine that it means by the statement that the Egyptian forts had the appearance in some parts of having suffered like wise from the fire of the batteries behind them.

With respect to the firing of guns I did not intend to think a chance away, and when it became advisable to use the spiked guns
the spikes were drawn in an average of 23 minutes each for
Three of these guns - seven in all - were used against the enemy
the Mahala junction
from Ramleh afterwards —
It is easy to argue from an ex
just facts point of view —
There was powder enough up in
the Alexandria batteries, after
than in the main magazine at
the index was destroyed, at the request of the Khedive, & after
half a dozen actions —

Dear Sir,

I observe in the Contemporary Review, in the last two months, two interesting articles by Professor Helmbold, in which he writes on many contemporary phases of thought in Germany, and amongst them on materialism.

I presume you perhaps know that that is a subject which has engaged a good deal of my attention, and I write to ask if upon it a...

Dear Sir,

Mrs Spence Watson has kindly forwarded the Contemporary for March 4th and your cheque for £14. I have much pleasure in acknowledging with thanks the receipt of both. I have just finished A Story of University Tests.
I hope that it also may suit the contemporary. It might be made into two articles, like The Old Missionary some time ago. If this cannot be, I will leave it to you to curtail as you choose, with the understanding that in either case I shall be free to reproduce it as part of a book at some future time.

The MS goes by this mail to Gateshead, as I should like Mr. & Mrs. Watson to see it unabridged. If unfortunately it should not suit you at all, I shall be greatly obliged by its being returned to their care.

I am very glad Church Rates suited you. Among the good things of New Zealand is its freedom.

Dear Mr. Hunting,

I have now a

hand a series of articles

on the origin of religion,

originally intended

for the Fortnightly, and

following up the papers

on "Sacred Stones" and

"Practical Religion," and

recently printed there.
I give the series the general title of the "Evolution of God." Dr. Darby, however, will not undertake to leave them for the Continent.

(2) Might I retain the right of republication?

(3) And of simultaneous print—then continuous serial publication in America?

Yours very sincerely,

Grant Allen.

Dear Mr. Bentley,

I should like very much to do the article on Wesleyan Baptism. I propose the Centenary Celebration. But I fear that I cannot.

The case is this - about five or six weeks ago, I suddenly collapsed through an unconscious waste of nervous energy brought on by overwork. My collapse took the form of an acute attack of insomnia - my medical man & florist took

My Dear Sir,

You must please pardon me for not replying to yours of the 3d ult. before. But my time has been so fully taken up by late. Will you please say if you want me to write the feelings and views of the Laborers on the Franchise Bill and if you want to publish it and in what paper. I shall do my best to educate my Bros. Laborers on the principles of True Radicalism.

With kind regards,
I am, faithfully yours,
