Dear Sir,

I have some reason to think that the character of the Exchequer is looking into the relations of Greenchurch with the Bank.

Considering the question in all its bearings, it would be out of order...

My dear Sir,

I do not, I fear, remember to have read the paper in the Contemporary Review to which you refer. And if I were well enough to undertake the work which you are so good as to suggest, I should doubt the

you are mistaken.

I have reason to believe that the accounts sent to us by Mr. [Name] are correct about the
change in the bond. There are reasons of a

personal character which, in the present state of

matters, would make it impossible for me to do so.
And I fear that it is

My dear Sir,

Did you wish to write for your August number?

If so, what is the latest day by which you would have it be ready?

I should not think of entering into any details
but simply use as fact of data. As a test for some means or to steps which ought to be taken to improve the tone of public opinion, I believe a matter of great importance.
