

Prof. Joseph Lovering

My Dear Sir,

Don't you want
very much to go to Paris this
autumn? I propose to go
with my family about the
first of October and we should
be very happy to escort you
to Paris. We are going abroad
to live for some time and if
you know a good tenant for
my house, send him along.
I don't like the idea of business
and mean to stick to Chemistry

I hear no Cambridge news
at all, and hope you have
had as quiet and lazy a
time as we have enjoyed here

Please give my regards to
Mrs Lovering and ask her to
second the motion that you
go to Europe with us.

Very sincerely Yours
