Dear Sir,

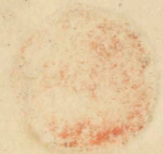

Rec^d. College Hill
29. July

I have rec^d. your circular as
to the cause of missions. It is impossible
for me to give you any information
relative to the land alluded to in
yours - as some land is good & some
bad no man can speak of land
in that quarter without he knew
the particular tract. I do not know
the provisions of the Law respecting
forfeiture for want of cultivation
but will enquire. the money rec^d. by
my Brother & mentioned by you
