

11 Jan. 1793

Sir  
I have spoken to Mr. Watson on the subject of the two notes — he says he has a letter from Dr. Deblois on the subject of them & that the stock which was deposited for them went into Inrahams hands

It is certain that when Mr. Deblois note was paid Inrahams the money Inrahams was charged of Deblois credited for the amount — but whether this charge will be finally right or not depends on the mode in which they are finally settled with Dr. Deblois. If in Deblois settlement he charges those notes it is his business to take them up

that I don't see what more you have  
to do with it
