

PETRO·NOKOL

OIL BURNERS

Petro- $\&$ -Nokol Oil Burners are fully automatic and come in 8 types 16 models, and 66 sizes. There is a Petro- $\&$ -Nokol for every type and size of boiler, furnace, or heating problem.

PETROLEUM HEAT & POWER COMPANY

Stamford, Conn.

COMFORT, CONVENIENCE and CLEANLINESS with OIL HEAT

It Doesn't Cost a Penny More to Have Oil Heat

Comfort beyond anything you have known. . . . Convenience beyond your fondest fancies . . . and a new kind of Cleanliness . . . are all yours with Petro-G-Nokol Automatic Oil Heat. And, at a cost that is not a penny more than what you are paying now. In many homes the cost is a great deal less! Chief among the many advantages of automatic oil heat are: an even temperature all winter long; gallons of hot water at any hour of the day or night; absolute freedom from all care, worries, and thoughts of your furnace.

A Public Service Enterprise

As a public service enterprise, Petroleum Heat and Power Company makes good oil burners to operate on all grades of low priced fuel oil, and sells all grades of low priced fuel oil to operate in good oil burners. In this way this company divides its responsibility with no one. This double experience has given us a grasp of heating problems unique in this industry.

Small Homes as Well as Large Buildings

It makes no difference what the size of your home is, or what your requirements are. There is a Petro-G-Nokol Oil Burner for your particular needs. Some of the largest, best known buildings in the world, including the Ritz-Carlton Hotel—The Riverside Memorial Church—New York Hospital—Cornell Medical Center—Metropolitan Life Insurance Building—are users of Petro-G-Nokol Oil Burners and have been for years.

In the Ritz-Carlton Hotel alone, the savings by use of Petro-G-Nokol Oil Burners amounted to \$25,000 the first six months. You, too, can save a comparable amount whether your requirements are for a small home or a large building.

A Representative Grouping of Buildings Heated with Petroleum Heat & Power Company Equipment

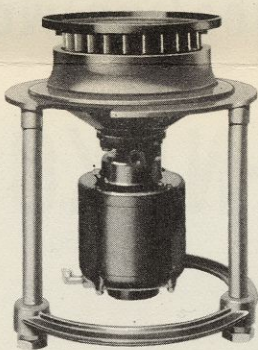

THE ARCO-PETRO AUTOMATIC BOILER

A Joint Production of the American Radiator Company and Petroleum Heat and Power Company

It is hard to imagine a better home-heating device than the Arco-Petro Automatic Boiler. It provides the last degree of convenience, and supplies you with a perfect heating service, and unlimited hot water without your ever having to think about it. And, best of all, the Arco-Petro cuts your fuel bill $\frac{1}{3}$ to $\frac{1}{2}$. These savings have been demonstrated in hundreds of homes in all parts of the country.

The Arco-Petro Automatic Boiler is a joint production of the two leaders in the heating industry—the American Radiator Company, which has been supplying home owners in all parts of the world with entire heating systems for fifty years; and the Petroleum Heat and Power Company, which is the recognized pioneer in the oil heating industry, with a background of more than thirty years.

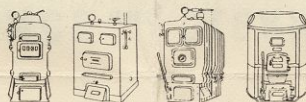

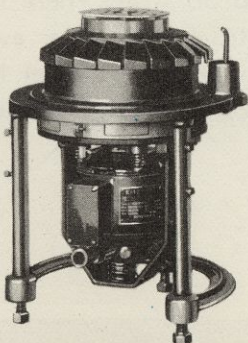

**Model K, Domestic Type,
Up to 850 Ft. of Steam
Wall-Wiping Flame**

A larger size rotary burner for round or square boilers of sufficient size to use a rotary flame. Fully automatic. Its mechanical simplicity reduces noise to a minimum.

**Model T, Domestic Type,
Up to 700 Ft. of Steam**

Remarkably low oil consumption, wall-wiping, radiant flame; reliable, rugged and simple. Two moving parts—a Motor and Rotary Atomizing Head.

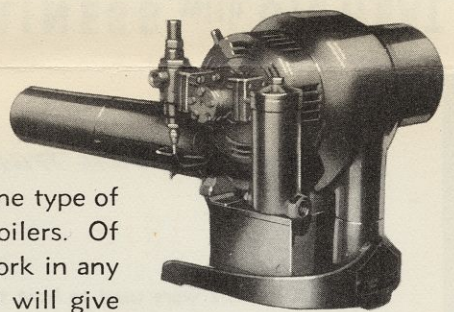

Think About This

You can plainly see right here that one type of oil burner will not fit all of these boilers. Of course, almost any oil burner will work in any boiler . . . it will burn oil . . . it will give heat . . . it will eliminate the necessity of handling coal and ashes . . . BUT . . . unless the right burner is installed in YOUR boiler—efficiency will be sacrificed—Complete satisfaction will not be enjoyed.

Petro- $\&$ -Nokol found out these things years and years ago . . . that is why, today, the Petroleum Heat and Power Company is the ONLY manufacturer who produces an EFFICIENT oil burner for every type, kind, and size of boiler.

When a Petro- $\&$ -Nokol salesman tells you that you need a "Pressure Burner" or a "Rotary Cup Burner" or a "Wall-Wiping Flame Burner" . . . it is not an opinion, it is not a guess . . . it is the unbiased recommendation of a company whose only purpose is to serve you with what you should have. His recommendation is the result of a very careful survey of your whole heating system and is based on engineering knowledge! The burner you want makes no difference to HIM. The burner he sells you will make a tremendous difference to YOU.

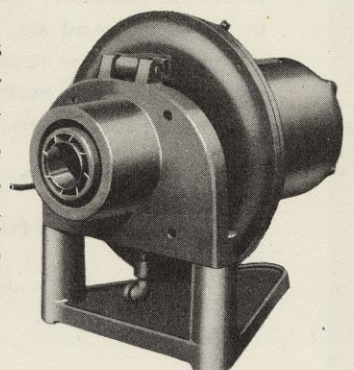

**Model P-1 $\frac{1}{2}$, Domestic Type,
Up to 1750 Ft. of Steam
Pressure Atomizing**

Here's the finest low-cost all-electric pressure burner ever developed! Motor, Fan, and Oil Pump are the only moving parts. Simple in construction, reliable in operation.

**Model W-1, Domestic Type,
Up to 1000 Ft. of Steam**

This is the giant reduced to junior size. It's a small model of the giant burners used in the largest buildings in the world. It has a special place in the Petro- $\&$ -Nokol line.

COMFORT, CONVENIENCE and CLEANLINESS with OIL HEAT

Gold Medal, San Francisco

1915

Petro oil burners were used to heat two of the buildings at the Pan-American Exposition in San Francisco in 1915 . . . and at the same Exposition, these Petro oil burners were awarded a Gold Medal for engineering achievement.

Chosen for Century of Progress

1933

The appointment of Petroleum Heat and Power Company to portray the progress of the use of oil as a fuel at A Century Of Progress was, perhaps, an obvious procedure. All exhibitors appointed by the management are, with few exceptions, the leaders of their respective industries, and believed to be best qualified to represent the progress in their respective businesses.
