A CENTURY OF PROGRESS

air competition for experimental, high-speed, laboratory aircraft for which $35,000 in cash prizes and valuable trophies will be awarded. Many sensational speed planes will engage in gruelling competition with challenging entries of several foreign nations. One of the feature events of the meet will be the International Free-For-All race on Labor Day, September 4. This and other scheduled races will concentrate the nation's foremost speed pilots and the fastest ships human ingenuity can build.

A Galaxy of Champions will Compete

In addition to the nation's premier racing pilots, the foremost acrobatic aces of America and Europe will be seen. Major Ernst Udet, Germany's greatest living war ace, will thrill with his inimitable flying. Lieut. Tito Falconi, champion stunt pilot of the Royal Italian Air Force, will hold you spellbound with his daring maneuvers. A galaxy of champions, all notable for their fearless and nerve-gripping performances, will entertain with colorful exhibitions of flying skill. Stunt flying—sky writing—autogiro competitions—parachute jumping contests and other phases of aviation will make complete each daily performance.

the setting for this spectacle.
I
a pretentious setting, the International Air Races and Gordon Bennett Balloon Race offers an inspiring, ever changing panorama of intriguing events unfolding the glory and romance of the sky where roaring planes faster than bullets and mighty balloons careening through the sky may be seen.

This gorgeous spectacle will take its rightful place and serve as a tribute to the portrayal of world progress sponsored by “A Century of Progress.” Under its auspices the National Aeronautical Association, this project will present the most complete and dazzling array of both lighter and heavier-than-air craft known to aviation.

The 1933 Gordon Bennett Balloon Race
The United States is privileged by tradition to act this year as host to this international classic by virtue of Lieutenant-Commander T. G. W. Settle, U. S. N., having won the 1932 Gordon Bennett competition at Basle, Switzerland. Official representatives of several foreign nations will descend as they compete for the coveted Trophy against an army, navy and civilian entry of the United States.

Intense Heavier-than-Air Competition
The project also embraces an intense heavier-than-air competition for experimental, high-speed, laboratory aircraft for which $25,000 in cash prizes and valuable trophies will be awarded. Many sensational speed planes will engage in grueling competition with challenging entries of several foreign nations. One of the feature events of the meet will be the International Free-For-All race on Labor Day, September 4. This and other scheduled races will concentrate the nation’s foremost speed pilots and the fastest ships human ingenuity can build.

A Galaxy of Champions will Compete
In addition to the nation’s premier racing pilots, the foremost acrobatic aces of America and Europe will be soon. Major Ernst Udet, Germany’s greatest living war ace, will thrill with his imitable flying. Lieut. Tito Falconi, champion stunt pilot of the Royal Italian Air Force, will hold you spellbound with his daring maneuvers. A galaxy of champions, all notable for their fearless and nerve-gripping performances, will entertain with colorful exhibitions of skill. Stunt flying—sky writing—autogiro competitions—parachute jumping contests and other phases of aviation will make complete each daily performance.

U.S. Air Services
Uncle Sam’s most skilled pilots of the Army and Navy will thrill with difficult combat maneuvers and colorful formation flying. Nothing is more stirring—more commanding—more surpassingly beautiful than these fighters of the sky in review.

Curtiss-Wright-Reynolds Airport
The setting for this aerial exposition of “A Century of Progress” will be the Curtiss-Wright-Reynolds Airport, September 1, 2, 3, 4. Excellent transportation facilities will add to your enjoyment of the Races. Each daily program will be brought to a close in the late afternoon, permitting return to the loop district in ample time to enjoy the nightly spectacular features of “A Century of Progress.”

Excellent Accommodations
Grandstands are so arranged as to give an unobstructed view of the entire turfed racing area. Restaurants, adequate free parking areas and other facilities are arranged to care for every personal convenience.

Because of the tremendous interest in this project and the already large demand for choice seats, it is recommended that tickets be purchased in advance, as a result of which an average saving of approximately 25% can be effected. Field admission is free with each seat purchased before August 30.

A Century of Progress, recognizing that within the past century no phase of commerce or sport has shown such progress as aviation, presents this colorful spectacle as a tribute to aeronautics.

The Chicago Daily News, with other civic and national industrial leaders, lending their sponsorship and support to the successful presentation of this project, assures a spectacle long to be remembered.

TENTATIVE DAY-BY-DAY PROGRAM
This condensed program comprises feature events. Numerous other nerve-gripping experiences are scheduled for each daily performance.

FRIDAY—SEPTEMBER 1
Official Inaugural Ceremony, Airport—Arrival Army Air Corps—Money in loop autogiro—Maj. Ernst Udet, famous German acrobatic ace—Free-for-All 200 cubic inch race—"Spud" Manning in death-defying delayed parachute jump—Free-for-All 375 cubic inch race—Lt. Tito Falconi, Italy’s champion acrobatic flyer—Free-for-All 550 cubic inch race—Hollywood’s dare-devil movie stunt trio—Parachute group jump—Attempts to launch new 300 m.p.h. world’s land plane speed record—Featured Free-for-All 1000 cubic inch race.
