ENDLESS CHAIN OF CARS

MOVING IN A TOWER OF GLASS

This is the famous "Nash Tower of Value" at the World's Fair in Chicago. A building of plate glass with a high glass tower in which Nash Sixes and Eights keep moving up and down, up and down, day and night. A dazzling spectacle.

Nash cars are built to *stay* built. That's why Nash owners are such loyal boosters for Nash—and why so many friends of Nash owners today are saying "*Nash next for me.*"
