Rock Island-American Express Two to Six Day Independent Tours In Chicago

POPULAR demand makes possible another season of the World's Fair at Chicago. This outstanding exposition will reopen May 26th and continue until October 31, 1934.

And what a Fair it will be this year! Greater transportation, agricultural, industrial, and scientific exhibits. Broader and more interesting programs of musical and dramatic offerings. Enlarged and improved restaurant and lunch room facilities. Added conveniences for the comfort of visitors.

For general entertainment a completely new and diversified plan is assured. The Enchanted Island will contain many spectacular features for the children. The new Midway will offer thrills galore, with a great array of novelties from all parts of the world.

To make it possible to comfortably and economically see and enjoy this mammoth spectacle the Rock Island Lines offers its patrons a choice of two- to six-day inclusive packages in Chicago at attractively low prices—less than if individually arranged.

In taking advantage of this plan you not only save time and money but are assured of desirable hotel accommodations, convenient to quick and direct transportation to the Fair.
