## The SCOTT FIFTEEN . . . a Laboratory Built Radio Receiver Guaranteed to Give World-Wide Reception . . . Regularly

Now you can set your watch by the chimes of Big Ben in London, hear marvelous opera from Rome, listen to a great symphony orchestra in Berlin, dance to the fascinating Spanish music from Madrid, or listen to the call of the Kookaburra bird from far away Australia. Here is romance indeed . . . brought to you daily with the new SCOTT ALLWAVE FIFTEEN. And domestic programs are reproduced in a manner that will astound you for quality and tone.

The SCOTT FIFTEEN is strictly a Custom-built receiver . . . built to most exacting standards in one of the most completely equipped radio laboratories in the country. Specially

trained technicians, highest quality parts and SCOTT precision standards combine to make the SCOTT FIFTEEN *The World's Finest Radio*.

The SCOTT FIFTEEN is a 15 tube super-heterodyne, with a wave length range of 13 to 550 meters. The tuning of all stations, both on the short waves and broadcast band, is accomplished with a single tuning knob. Absolute 10 KC selectivity is had on all wave lengths.

And the interesting part is that the SCOTT FIFTEEN costs no more than many of the ordinary mass production receivers. Fill in and mail the attached post card for full technical details, performance proofs, reasonable prices, etc.

**"THE FINE THINGS ARE ALWAYS HAND-MADE"**

## SCOTT Custom-Built RADIO CONSOLES

Created exclusively for SCOTT Receivers by a master designer of fine furniture, SCOTT Custom-Built CONSOLES are distinctive in appearance and possess that fine quality of workmanship that only master craftsmen can build into a radio cabinet.

SCOTT CONSOLES are Custom-built from the very finest selected woods and veneers. Thorough seasoning of the woods, and painstaking finishing methods, result in a luster and charm that will last for many years.

SCOTT CONSOLES are designed to meet every individual taste and are priced accordingly. A handsome brochure illustrating the complete line of SCOTT Custom-built CONSOLES will be sent on request.

## SCOTT PERFORMANCE . . . as told by SCOTT Owners

THE UNITED STATES NAVY BAND  
Washington, D. C.  
My dear Mr. Scott:

It is impossible for me, with my poor, limited vocabulary, to fully express to you my intense delight with my beautiful radio obtained from your Laboratories.

Ever since the radio came to bless mankind with the gifts of the best in music and general entertainment, I have purchased the best obtainable from year to year, watching progress, and hoping to hear certain tonal qualities contained in the voices of the singers, and in the timbre of band and orchestra instruments.

At last my search has ended. Having tried your grand and perfect instrument, I need not look further. Can you not understand why I am so profoundly touched? It is an ideal realized. It is a vision materialized.

This marvelous instrument brings me the voices of my favorite artists with absolute sincerity and exactitude. Likewise, the most interesting band and orchestra programs come to me with their full effectiveness; and by that miracle of progress, short-wave, European programs now come through with striking vividness.

Sincerely yours,  
(Signed) LT. CHAS. BENTER, Leader

WENDALL HALL RADIO PRODUCTIONS  
Dear Mr. Scott:

"I want to tell you how happy Mrs. Hall and I are over our SCOTT ALLWAVE RECEIVER.

"There are a number of my friends whom I am sure will drop in from time to time to look over the SCOTT."

Sincerely yours,  
(Signed) WENDALL HALL

THE PHILHARMONIC SYMPHONY SOCIETY OF NEW YORK  
Steinway Building, 113 West Fifty-Seventh St.  
Dear Mr. Scott:

Last year I had the pleasure of listening to one of your receivers in the home of my friend, Mr. Canpanari, in Genoa and could not help noticing the superb tone of his instrument.

Since installing your latest instrument in my suite here at the Hotel Astor, I would like you to know I have had many hours of pleasure from it. Never would I have believed that it was possible to attain such a marvelous reproduction and to you assuredly belongs the credit of having produced a miracle of perfection. What satisfies me really very much is the quality of the tone which is mellow, clear, beautiful and not confused as in other receivers which I have had before yours.

Wishing you the success which you deserve, I am  
Yours very truly,  
(Signed) ARTURO TOSCANINI

YOUNGSTOWN SHEET AND TUBE COMPANY  
Dear Mr. Scott:

I have been operating the SCOTT ALLWAVE FIFTEEN RECEIVER for about two weeks and I have had very satisfactory results. I appreciate the letters which have been coming from you for I find much of interest in them.

So far I find that I can get Germany, Venezuela and England without any trouble. While the reception some nights is better than others, nevertheless, the results are quite satisfactory.

Yours truly,  
(Signed) W. E. WATSON, Vice-President

Dear friend Scott:

I thought it was humanly impossible for anyone to improve the tone quality and the performance of the Scott Radio I purchased a year ago.

However, your new model was just uncerated and set up and it is the wonder of wonders. I just can't stop raving over the tone quality and reception I am getting out here.

You have certainly made world-wide reception easy with your new dial markings.

Continued success and many thanks for a new thrill in radio which you have made possible.

Sincerely,  
(Signed) GUY LOMBARDO

COLUMBIA BROADCASTING SYSTEM  
Dear Mr. Scott:—

My new installation with the new 15, the new speaker, the new console and the record changing device is short of sensational. There is no noise, there's good receptivity, the phonograph works divinely, and the foreign reception has improved. . . . I think it is grand.

The dials, the switches and the oscillator beat button all work well, and I'm very happy about everything. Naturally, I'll be more than curious to see the new amplifier and the new speaker console. I fear greatly for my sanity when these remarkable instruments are all completely installed.

I'm sorry your factory is busy—in fact I regret you have to work at all, merely because you grieve me in not getting sleep, BUT TRULY, I own up to hoping you are always forty sets behind a day—in my impression you deserve a little of such good fortune for the work you have been doing.

You've got a great set—and here's more power to you.

Cordially and sincerely,  
(Signed) TED HUSING
