The Gas Industry marks a century of progress by recommending to you the new Air-Cooled Electrolux, the Servel Gas Refrigerator.
To win the unqualified endorsement of a billion dollar industry, as Electrolux has done, can mean only one thing—that Electrolux really does offer more. More economy, more lasting satisfaction, more modern features that every woman wants.

It is a refrigerator you will be proud to have in your home. Its distinctive beauty meets the critical standards of modern kitchens. Its lustrous finish is durable and easy to keep spotless. It provides generous space for food storage. It gives you all the benefits of automatic refrigeration you have always wanted—full protection for food, plenty of ice cubes at all times, delicious frozen desserts and salads.

And, in addition to all these advantages, your gas company and your local Electrolux dealer stand behind everyone they sell. The whole gas industry, with its century-long record of dependability, endorses Electrolux.

Besides its fundamental and exclusive advantages of silence, low-cost operation, and freedom from costly repairs, Electrolux gives you such modern features as these, if you choose to have them . . .
21 more reasons why
the gas industry recommends ELECTROLUX

1. A tiny gas flame does all the work
   This simple little gas burner gives you dependable, trouble-free refrigeration and takes the place of all moving parts.

2. Convenient defrosting
   Defrosting is extremely simple. When frost on the chilling unit is about one half inch thick, merely turn the regulator conveniently located above the ice trays.

3. Inexpensive to operate
   Costs but a few pennies a day at most. Savings in food bills usually more than pay for the operating cost of Electrolux.

4. Uses no water
   Electrolux is air cooled. Installation requires only one simple connection—to the gas line in your kitchen. And the Electrolux is ready for a long life of service.

5. Long life
   Sturdily constructed of the very finest materials and not a single moving part to wear.

6. No vibration, no noise
   With no moving parts, there is nothing to cause vibration or noise. Electrolux is permanently silent.

7. Harmless refrigerant
   The refrigerant—perfectly harmless—is hermetically sealed in steel.

8. Porcelain interior
   The easy-to-clean quality of stainless white porcelain is known to every woman. Rounded corners and the absence of any seams add to the ease of cleaning.

9. A two-temperature chilling unit
   Automatically increases cooling action to keep food compartment at uniform low, no matter how quickly room temperature may rise.

10. Trigger tray release
    Simply lift the handy trigger and the most solidly frozen tray releases instantly without effort. No more sore knuckles or broken finger nails.

11. Split shelf
    Gives added capacity and convenience to the spacious, well-planned Electrolux interiors. Accommodates extra bottles, large roasts, chickens, etc.

12. Soundly constructed
    Nothing but the very finest of materials, the most skilled workmanship go into the construction of an Electrolux. Those unusually high standards of quality are reflected in the dependability and long life of Electrolux.

13. Temperature regulator
    If occasion demands extra fast freezing for ice cubes or frozen desserts, this temperature regulator provides it.

14. Simple freezing principle
    The Electrolux freezing method is almost as simple and dependable as nature's own. A tiny gas flame circulates the refrigerant, ordinary air cools it. That is all there is to it, and time has proved its worth.

15. Constant, steady cold
    An Electrolux affords unequalled protection for foods, because its operation is constant. Cold remains uniform twenty-four hours a day.

16. Automatic gas shut-off
    Gas instantly shuts off if, for any reason, the flame should be extinguished.

17. Nontipping shelves
    All containers stand firmly on Electrolux flat, ribbon-like shelves. Shelves are arranged for easy accessibility, too.

18. Individually tested
    Each Electrolux must pass many tests in construction. Each unit is individually tested before it leaves the factory.

19. Recommended by the gas industry
    Electrolux is endorsed and recommended by the entire gas industry whose century of faithful service has won the confidence of 15,000,000 families.

20. Plenty of large ice cubes
    Always, day or night, there is a plentiful supply of pure ice cubes. The steady cold of an Electrolux promotes fast freezing—a convenience every housewife will appreciate. The large trays are convenient for chilling salads or desserts.

21. Convenient flat top
    Provides additional shelf room. Convenient, also, as a resting place for food to be stored in refrigerator or being removed.

Why ELECTROLUX gives you more

Electrolux is not just another refrigerator—not simply a refrigerator differing in minor details from others. The engineering principle behind Electrolux represents the greatest advancement ever made in automatic refrigeration. This advanced, simpler freezing principle of Electrolux gives it many exclusive features. To you, these features represent greater economy of operation, longer life, freedom from costly repairs, more efficient refrigeration, lasting satisfaction.

Some of these claims may seem almost unbelievable at first. If true, however, they afford conclusive reason for choosing Electrolux. You can easily satisfy yourself that they are true. Ask your gas company or your local Electrolux dealer why they recommend Electrolux.

Ask how the entire gas industry satisfied itself about the superiority of Electrolux. Then judge for yourself how much more Electrolux gives you than any other refrigerator.

Then judge for yourself how much more Electrolux gives you than any other refrigerator.

The Gas Industry marks
A CENTURY
OF PROGRESS
by recommending to you the
NEW Air-Cooled ELECTROLUX
THE SERVEL GAS REFRIGERATOR

Here are the three outstanding reasons why the gas industry recommends ELECTROLUX

1834

Silent, and it stays silent
Electrolux is not merely quiet—it is silent. And, because it has no moving parts, this modern gas refrigerator can never be anything but silent.

1934

Low operating cost
A tiny gas flame operates Electrolux at a cost of only a few pennies a day. Better protection of food usually saves more than cost of operation.

To win the unqualified endorsement of a billion dollar industry, as Electrolux has done, can mean only one thing—that Electrolux really does offer more. More economy, more lasting satisfaction, more modern features that every woman wants.

It is a refrigerator you will be proud to have in your home. Its distinctive beauty meets the critical standards of modern kitchens. Its finish is durable and easy to keep spotless. It provides generous space for food storage. It gives you all the benefits of automatic refrigeration you have always wanted—full protection for food, plenty of ice cubes at all times, delicious frozen desserts and salads.

And, in addition to all these advantages, your gas company and your local Electrolux dealer stand behind every one they sell. The whole gas industry, with its century-long record of dependability, endorses Electrolux. Besides its fundamental and exclusive advantages of silence, low-cost operation, and freedom from costly repairs, Electrolux gives you each modern feature as these, if you choose to have them . . . .
