See the miniature ship model exhibit in the Travel and Transportation Building. This illustrates the development of water transportation from 6000 B.C. to the modern ships of to-day.

Kits for most of these models will be available in the **CASSON-CRAFT** line soon.

Miniature modeling is the art of building up from simple materials, cut into simple shapes, tiny replicas of the original.

One of the **OLDEST ARTS** becomes the **NEWEST NATIONAL PASTIME**
