Have you, ever been tired? Yes? then you surely know why we exhibited this line of goods at the WORLD'S FAIR; to show the world what real comfort is.

The hum and buzz of machinery and the tension of fast living wears down our nervous system. We need not only keep from getting tired, but must overcome weariness as quickly as possible. Because of the perfection and construction of K & W Products, they satisfy such requirements, by bringing on RELAXATION.

At work, a cushion will help you keep from tiring before the day is done; at home, it will aid you in recuperating from weariness. Remember, it is not a luxury to refresh ones body in order to attain a higher goal in life, progress, and happiness.
