CHICAGO, ILL., U.S.A.
POPULARITY PRODUCES PROFITS

Artistically arranged surroundings invariably create a sense of repose and well being which can not fail to contribute largely to the enjoyment of periods of recreation and relaxation.

The Dining Saloon, Cafe, Cabaret or Refreshment Garden, whether they be indoors or out, which provides these refinements soon acquires a reputation for itself as a place with an atmosphere which is a real pleasure to absorb, and it’s there the crowds go.

We ask you to devote serious thought to the idea of how very much improved your place would be by the installation in your premises of one or more of the beautifully executed subjects, illustrations of several of which we take pleasure in handing you herewith.

One of our fountains with colored lights playing on the trickling, falling water would be a delightful magnet to the eyes.

Anyone of the many sculptured reproductions would prove an attraction.

We offer you our services entirely free of obligation in the capacity of consultants and advisors, in the hope of aiding you in beautifying your establishment and assure you of surprisingly reasonable costs on any commissions you may decide to entrust to our care.

We are one of the oldest Plastic and Concrete and Metal Statuary Studios in America and are associated with several of the outstanding houses in our line in Italy.

May we serve you?

Very truly yours,

CHICAGO STATUARY CO.
Ralph M. Groppi, President.

General Information

When Ordering—Order by number, and mention subjects and price. (Do not mutilate catalogue, as no illustrations are necessary).

How to Ship—State whether goods are to be shipped by freight or express. If not so stated, we will use our own discretion in shipping same. All goods are sold f.o.b. Chicago. No charge for packing.

Safe Delivery and Workmanship Guaranteed—We guarantee satisfaction and safe delivery of all goods purched from us.
For Home Owners

Through application of our artistry we have been instrumental for many years in transforming innumerable "eye-sores", back yards, etc., into places of living beauty. These have proven real "joys forever" to those fortunate enough to avail themselves of our counsel and experience in designing and executing, at a comparatively small outlay. Cement, stone, marble and metal fountains, statues, settees, benches and many other pieces give individuality and enhance the beauty of lawns where the joy of home sparkles.

Ralph M. Groppi
Just in fancy, hearken to the song of the birds, attracted by a bird-bath placed among the shrubs and flowers at the rear or alongside of your home; or the musical trinkle, trinkle of dripping water in your fountain and the shimmer of the varicolored goldfish as they playfully frisk to and fro in the bowl of the fountain.

Then too, just consider how, by a small investment you can enhance the value of your property if perchance you decide to offer it for sale.

METALBRONZE

Metalbronze statuary is cast from French process zinc and bronze plated so as to give it the appearance of genuine bronze, and in reality they last as long. They can be treated either in an oxidized green or statuary bronze.

"In sculpture did anyone ever call the Apollo a fancy piece; or say of the Laocoön how it might be made different?—A master piece of Art has, to the mind, a fixed place in the claim of being as much as a plant or a crystal."—Emerson.
No. 775. This model is very richly ornated and suitable for hotel lobbies, roof gardens, or general indoor or outdoor use. Water pours from four sides of Satyr’s mouth at the vase, then to the bowl, falling by gravity through the four Dolphin heads to bottom reservoir. The vase at the top can be used for flowers or equipped for electric illumination.

Size: 78 in.; bowl 36 in.
Price: Cement, $200.00.

No. 1121. The above fountain is extensively used for lawns and gardens. The bowl is designed shallow for the benefit of the birds, and it is also sold separately for that purpose. There is a water connection at the side of the base to which a water hose may be easily attached, unless a permanent water supply is desired.

Size: 45 in. high, 28 in. diameter.
