To Hon O. A. Douglas

Sir,

I wish you would put my name on your list, of those to whom you distribute Public Documents.

If there are any Geological reports or reports of Survey, which I should be pleased to receive, I should hope that you will transmit in the cause you are advocating.

Hon. S. A. Douglas - U. S. I.

Dear Sir -

Would you have the kindness to send me a copy of the Pacific R. R. Reports. Having, in vain, a design to form a company to settle on the Colorado of the West, or some good location in New Mexico between the Rocky Mtns. & California, I know of no better way of arriving at a correct description of the soil, climate, geological & commercial advantages of the country alluded to than by applying to yourself. Hoping, sincerely, the triumphant success of your side of the important question at issue, I must ask pardon for this interference.

Sir,

Your attendance is respectfully requested, at a meeting of the Committee on Public Buildings and Grounds to be held on Monday next (February 16th) at 10½ o'clock A.M.

By order of the Chairman,

O.H. Barrett, Clerk.

Hon: Mr. Douglass.

Honor A. Safford, Esq.

It is with great reluctance that I intrude upon your leisure at this busy season, to ask you to shelve me, the Placede Nebraska act, with your other acts on the occasion of its passage. I want to use it for a particular purpose, the making of an argument on the merits of popular sovereignty in the organization of new states. Please send it at your earliest convenience, if it costs you anything. I will immediately remit your loss.

Yours most obediently,

My dear Mr. Douglas,

I am extremely anxious to become the recipient of favors in the State of Congressional Matters (newspapers, speeches, reports and the like) from some other than yourself. I am not of your constituency. Neither am I personally acquainted with you, but I hope in 1860 to be one to support the "Little Giant" for the Administrative Chair. Always provided he stands firm in opposition of any minority aggression, whether it comes from chivalric South or even "Old New England." I am a stranger also to it, which acts of his constituency. Therefore both and all being strangers I ask my first choice. Request said favors of you. If they do not meet your approval, please refer this to H. W. Meigh as my second choice - Respectfully,

My Dear Sir,

You are right, "Go ahead."
The Democracy in Michigan
think you are nobly earnestly
contending for the very life
of their most vital principle.
The Abolition Republicans are
trying to make you one of them.
But doubt you even consent
to be one of them. The Democrats
can't. Mean you how can one
go with you to them, the Black
Republicans. The people must
be allowed by their Majority
to govern and the Federal Pro-
even can never succeed in
long depriving them of their
right and power at home.
I believe the cotton and sugar colonies can be cultivated by the Africans and that the best interests of the White family (the African and included) calls for the expansion of the African Slave trade again. If it is for the benefit of the Slaves under human regulation, the White, Social and Commercial world needs a larger supply of labor to fill the field. Can you direct the Government of England and France evidently see the fact and will some day fill the only remedy. Can Southern States need more labor? It is the only labor that can irrigate them. If they will be content and just to themselves, and the Union the Democracy of the North will support their application to rejoin the African Slave trade, and that the Free States Nebraska bill should have and man with or you won't explain and defend it. You're an awful lot like the South have the means to tell their soul.

I think the Democracy of the North (and the North is very much farther) will call you to administrate the Government. The whole time your truly

Relative to sustaining his German paper.

Dear Sir,

Some twenty five hundred dollars invested in the purchase of a good German paper, which is for sale, and in strengthening and extending it, would suffice, to in a short time, to carry the large majority of the German vote of this city to the side of oppo- nents to the reconstruction friends. The consequences of the crisis appear to surprise heavily upon all my friends here that have found it impossible to raise funds to form a balance among them. You of course receive more suggestions of this kind than you can grant to, but should you think proper to make inquiries in this instance, I should be satisfied.
