Chicago March 13, 1858

Hon. S. A. Douglas, Sir,

Stand up to the position you have taken, and all the power of earth cannot prevail against you, for the heart of every true patriot is with you and will reward you for it, notwithstanding the mean and contemptible and hypocritical course of John Wentworth towards you. He may try his best for personal reasons to prevent the people of this State from supporting you but it will avail nothing. For they see in your course the evidence of the purity of your motives as well as the correctness of the principles you are so nobly defending and in spite of him will acknowledge it. The administration may succeed in their swindle but it will be the death knell of the
the part party as a natural party and nothing can save it. I am well posted in the northern part of this state and we all look to you as our guide, and are ready to answer it and stand by you through thick and thin. I am sorry and I would speak him the nail in the head, and Low John has missed it awfully in not publishing them, and his reading will not excuse him for it. I excuse this from your truly,

Your truly,

We would call your favorable attention to a petition for a "Bankrupt Law" just presented. We refer to the one that includes individuals as well as corporations.

We are confident the 'petition in such a law would overbalance any profit or evil, and its speedy passage would meet the approval of the majority.

Very respectfully,

Hope we an excuseable for trouble you with what among other questions now pending may have a minor matter.

Honor: Stephen A. Douglas

Will you please to send to me your speech on Kansas Affairs, and other speeches that you have delivered in the Senate during the session of Congress. Senator Hamlin is sending to the press short of the Republican speeches that have been made in Congress this session, and I want you to send to me the latest Office Report and such other documents as you may please to send to me. Excuse me for this writing to you, if you should not think it worth your attention. I hope there is no harm in sending this to you.

Your truly,

Dear Sir,

Is there a strong probability that a General Bankrupt Law will pass the Congress? Your opinion on this point will be of value to me. I venture to ask it on the score of a slight acquaintance with you on board the "Arctic."

Yours truly,

My Dear Sir,

Will you be so kind as to send me a copy of Mr. Emmory's Report as you have it and the last two of Dr. Ellis's. I shall take the liberty of making this request because your practice in the House is much accorded with my republican views. Many thanks for the 200 copies you sent me. They were sent out in the Whig campaign to 50,000 homes. May we have many warm friends in the State. The New Hampshire State ought to be the eye of the Democratic party.

My dear Sir,

There is a strong feeling in our little community favorable to your views on the Leopont [Lecompton] Constitution question, but as yet, we have had better as "domino reading" on the subject. If you will transmit me a copy of your late speech, and such other papers as you may conveniently send, touching upon that subject, I will make good use of them among the conservative democracy of old Kentucky. I have reviewed a copy of Mr. W. S. [unreadable] as Philad. but that is only a statement of facts and I want a little logic from you. We have determined
to hold a singlap or Anti Lincoln meeting in this city next week, and it is necessary that we should be well posted on the subject.

I have heard that Uncle Ned and Mr. Wise will make some appointments to speak in Kentucky, but I am not authorized by either of them to say so. If they do, however, it will be of great service to the cause. All the honest, upright, free-thinking Democrats have already declared for you, and in a short time one will be able to muster a large force. The Know Nothing, or American party is a relic on that question, and if they are not sent back they shall clear the stage; and he who will do it before he is done.

with him. Some of our Administration democrats in this city are in constant correspondence with the Democratic delegation, and I have read several of their letters. They all with one voice, declare you to be "true to the South, and beyond all doubt, the standard spirit in Congress," but they think you are wrong in giving the Republicans aid and comfort, by asserting the fraud and injustice of the Lincoln Constitution. It is a bad argument for sound men to use. They admit the President has done wrong, and shown his firmness, and they expected such treatment; and as for Kentuckians, they would support it simply because it needs support they will only
as to when it deserves the credit I trust you will not find it inconvenient to send me the papers referred to 1
