
Dear Professor Henderson:

Could I by your kindness attend the Prison Congress and take part in the prison visiting tour with you? I would consider it a rare opportunity and would very happily be of any service to you then, if you would let me. I would take leave for that time and could perhaps save you the trouble and expenses of a private secretary.

Hoping that you will not consider me immodest on this account I am very respectfully yours

I thank you for your esteemed favor of August 24. It would be a very great pleasure to have you with us on the trip, but I believe that the places are all filled and there would be no way of meeting the expense, — about $100. for the tour. If you have any time during the period from September 30 to October 2 I should be very glad to have you help in the Congress if there were a position.

I thank you for your esteemed letter of October 27, 1910. I was very glad to have you with us on the trip, but I believe that the pleasure was all on my side. I have no object in writing you at the present time, as there would be no way of meeting the expenses of your trip to the United States if you came here. However, I should be very glad to have you here September 30 to October 3, and I would be very grateful for your help in the matter. Dear Sir:

I have your letter of May 28th and scarcely know what to reply. I shall be so extremely busy next fall that I cught not to take time for other things. I have just seen Mr. Towne and he urges me to do it, however. I have been thinking much along these lines of late and shall be very glad indeed to see the papers and come in contact with men who are thinking along this line.

I will therefore undertake to do the best I can in acting as one of the "co-rapporteurs". I shall welcome any further instructions as to my duties and will be pleased to get copies of the papers as soon as they are available. I presume that you have some representative from England who will sum up the experience of the English institutions. I hope so.

My dear Sir:

I am very glad to have your letter of June 4 accepting the position of "co-rapporteur" in the third Section dealing with the problem of inebriates. I have already this day sent you two of the "rapports", which will give you a start. Others will be coming along later. One of the papers is from England, as you suggest. It will be well to make a brief summary of each paper as it comes, and then frame a resolution or resolutions, which will probably be acceptable to the Congress.

It would be well to look over the Acts of the congresses of previous years dealing with this subject.

As President of the National Conference of Charities and Correction I hope you will regard it your privilege and duty to be present through the whole Congress at Washington. You are a representative man in many ways and your participation in the fourth section and in the third is very important.

I am sending you a copy of a letter just written to Mr. Burritt, who had agreed to act as one of the "Reviewers". Please confer with him and let me know your decision. The Federal Congress has invited these guests and I am sure you will fully sympathize with me in my desire to meet your expectations to the fullest extent. It is the first time they have come to us in forty years, and it will probably be a half century before the Congress meets in this country again, and I hope you will be there every day.

I am pleased to hear from you. I have just received your letter of September 7th and am glad to hear that you are well and that your health is improving. I am anxious to hear more about your activities and hope that you will write me soon.

I am enclosing a check for $50.00 in payment for your book. I understand that it is now in press and I look forward to receiving it soon.

I am also enclosing a copy of my letter to the Committee on Hospitals. I hope that you will be able to use it in any way that you see fit.

am scheduled to attend the Conference of the American Hospital Association which is meeting in St. Louis, September 20-23rd, and am preparing a paper to read at that conference. Mr. Veiller's present absence and my absence at St. Louis and for a week at Washington, will, as you can readily see, interfere quite seriously in the early organization of this new work which is really very important. I had no intention of shirking responsibility. I had not realized, however, that the program of the conference was so indefinite and that my constant presence would be necessary. I anticipate much personal benefit from the conference.

Could you readily let me have another set of the papers I am dealing with my question, that is the fourth question of the third section? I have a friend who reads French somewhat more fluently that I do, who is willing to give me some assistance and it would be a very great convenience if I could have two sets. I have already made a little start on the translation of the papers but find that I have not kept up my French sufficiently well to read them fluently.

Dear Sir:

I have your esteemed favor of November 23. Some two years ago the Municipal Court of Chicago made studies of a plan for their court building and worked out some important ideas. Address, Chief Justice Harry Olson, Chicago.

A year ago I was asked by the City Council of Milwaukee to prepare plans for their police court and lock-up. I had associated with me two architects, Mr. W. Zimmerman and Mr. Pond, both in Steinway Hall, Ashland Boulevard, Chicago. We agreed upon the principles of a plan and under our direction a competitive choice was made of prize plans. I would advise you to correspond with the Mayor of Milwaukee, Mr. Seidel, who is an intelligent man, and who has studied the plans with us. Owing to some changes in their civic center it is not likely that they will build at once, but the committee of the Council seemed to be in hearty sympathy with our ideas, which were quite radical. The architects with me are men of high character and insight. Mr. Zimmerman is the State Architect of Illinois. I do not know of

RE: Court Plans.

Mr. Chas. R. Henderson,

My dear Mr. Henderson:

Our Committee on Criminal Courts is studying the problem of a model court building for inferior criminal courts. New York City is about to build a new court building tentative plans for which have already been drawn. It is very important that this should be as nearly as possible a model building, as we are in the midst of an entire reorganization of the Inferior Courts of the city which will doubtless involve the building of several other such court buildings within the next few years. You can readily see, therefore, the importance of having the first one of these thoroughly studied, and so planned as to give a maximum of administrative efficiency.

We are writing you to ascertain whether there have been any court buildings recently constructed in your vicinity for either civil or criminal inferior courts which might be advantageously studied by our committee. It is quite possible, also, that it would be well worth our while to study any recent buildings planned for the work of the higher courts, as we could undoubtedly get valuable suggestions from them. Our Committee on Criminal Courts is investigating
the propriety of a model court building for inferior criminal
courts in New York City to meet the growing need for
a new court building.

It is very important that the plans be adopted as early as possible. A model
court building in the city will give promise of a well-organized program of
the prevention of crime and a great reduction in the number of offenders within
the city. You may want to consider the importance of this program when
considering the plans of the committee.

The court system is the backbone of the administration of the city. If we
want to maintain a good system of administration, we must have
an efficient and effective court system. If we want to
maintain the system, we must have
an efficient and effective court system.

Your attention is invited to the above matters, and we will be glad to

such buildings which you think would repay study by us, we
would appreciate it very greatly if you would inform us about
them. If you could also conveniently send us the names of the
architects of such buildings it would be an additional help.
Perhaps you may know of reports or other material bearing on
the subject which could be sent to us temporarily or otherwise.
If so we would be very glad if you could arrange to have it
sent to us at our expense.

We are laboring under the necessity of doing whatever
we can do in the matter within the next two or three weeks at
the outside. It is quite possible that we might want to send
men to visit personally a few of the best buildings in the
country. Any information which you can give our committee,
which will facilitate their work in this particular, will be
greatly appreciated, and we shall be only too glad to reciprocate the favor at any time or in any way within our power.

We are looking forward to the necessary of your assistance.

I am very grateful to you for your kind letter of September 7. I had no idea of administering punishment and our Congress has outgrown the old concept of retributive justice. My specialty is prevention. I never let a man commit a crime if I can help it by timely indications of my good wishes, so there, we understand each other.

I send you a duplicate set of the "rapports" of the Fourth Question of the Third Section, as you request.

I am much easier in my mind for your letter. I shall be at the Herald-Square Hotel after noon Thursday, September 15, and would be glad to confer with you at your convenience. I have a nice letter from Mr. Folks, which I am also answering.

Dear Mr. Bratt:

I am very grateful to you for your kind letter of September 7. I had no idea of administering punishment any other Congress has encountered in my experience of testing the justice of preventive detention. I have not seen any case as far as I can recall if by timely intervention of my own wisdom or that of my associates, so there is no opportunity for me to assist you in your efforts. I understand you are able to set the "apparatus" of the Tenth Section, as you interpret, as much easier than to your benefit.

I am much easier as the Health-warden Hotel after September 15. I am ready to fly to conference with you at your convenience. I have a letter from Mr. Kolle, which I am enclosing.

It may be wise to limit the course simply to the work of charitable relief and problems of punishment and correction; I could wish, however, to make the work a little broader than this. Concerning the work of preparation for a degree in
