Dear Prof. Henderson:

I am sending you herewith my paper for the International Prison Congress, entitled:

"Results of the Indeterminate Sentence Law".

You will recall that at Columbus I told you I would be delayed both on this paper and the one for the Souvenir Volume; also I afterwards wrote you to know how much time you could possibly give me on these papers. Conditions were such that several things have arisen to hinder me. I shall hope to have the paper for the Souvenir Volume completed soon and shall send it to you promptly thereafter.

At the meeting of our executive committee of the National Conference of Charities and Correction, at St. Louis, the other day, both Alexander Johnson and Mr. Boyle urged strongly that we should visit Michigan City even if we had to eliminate Jeffersonville. Their thought was that it would be one of the most helpful institutions that our foreign visitors could
Dorothy Henderson: I am sending you herewith my report

for the International Prison Congress, entitled

"Reality of the Indeterminate Sentence Law."

You will recall that at Colorado I told you I wanted to

revise your draft on this subject and the one for the Somerville
gard gave you my views on the latter. I was unable to give

you my views on the former, since I did not have time to

work on this. I have now written a note to the Somerville

authorities asking if you would be willing to visit me.

Your company would give me a chance to present the

subject of indeterminate sentence in a manner I believe

would be of value.

As the meeting of our executive committee

of the National Conference of Charities and Corrections

is to be held in the near future, I thought it might interest you to

know that many of our members strongly feel that we ought not to

remain silent on this subject.

They point out that it would be one of the most

important investigations that can be made of any penal system.

see; that the reformatory system is there applied in the State Prison in letter and in spirit perhaps to a greater extent than in any other. Both of them, as you know, are well informed on this subject.

I should not want to give this opinion until I had consulted our Board, which meets on Tuesday.

Prof. Brown and I have taken the matter up with the Commercial Club of this city of entertaining our foreign friends here and the general arrangement has been made, the details of which are to be worked out later.

Very truly yours,

A.W. Butler.

Dear Sir:—

I have just returned from St. Louis where I had hoped to meet you and talk with you. I have your card this morning acknowledging receipt of my last letter. You do not state in that whether the Guide is correct in announcing the trip to Michigan City on the way from Mansfield to Chicago, or the letter that I have received to the effect that the schedule provides for going from Mansfield to Chicago direct, omitting Michigan City. I only want to know because it is necessary that I should have the information in order that we shall begin certain plans that we have in mind, or that we shall not attempt to go further, as the case may be.

Very truly yours,

Dear Sir:

I have just returned from St. Paul where I had hoped to meet you and talk with you. I have now contacted the medical society and have been told that I have interest. You do not state in what manner the report is to be corrected. I presume the trip to Washington and on the way from Washington to Chicago, of the letter, that I have attached to the secretary that the report is returned to you.

I only wrote to know whether it is necessary that I report the information on the return of my way. I am fully aware that we must not attempt to be accurate as the case may be.

Very truly yours,

Mr. A. W. Butler,

My dear Sir:

I have your esteemed favor of January 26th. It was impossible for me to go to St. Louis.

The last form of the "Guide" provides distinctly that the party is to come directly from Mansfield to Chicago, where the Pullman cars will be surrendered and the party will go to Michigan City, Joliet, Geneva and Pontiac in divisions, according to an arrangement yet to be made. Michigan City will be treated precisely as the other places are treated.

I had requested the printers in New York to send me the final galley proofs, in which your suggested corrections should be introduced. Mr. Mills now writes me that he will have the revisions made in New York, and distribute the "Guide" by sea steamer this week, as it has been long since are. If there are any further corrections for the Guide I shall have to do it by letter. Therefore, it is probable that two or three of the points in your last letter did not appear in the French edition of the "Guide". The chief difficulty was that I did not have the whole matter attended to here in Chicago where I could keep my hand on it, but as Mr. Mills was in touch with prison men, and had all the information about prisons and railroads in his

I have just received the following communication from Hon. Charles F. Libby, president of the American Bar Association. I give the information to you in the hope that it may not be too late to get it into the Guide.

"There was no meeting of the executive committee until last week in Washington, when I was authorized to appoint the following committee of the American Bar Association to co-operate with the Committee of the International Prison Congress, which meets in Washington in October, 1910, namely:

I have just received the following communication:

"I am writing to inform you of the American Psychological Association, which was organized in Chicago in October, 1900. It is now a large and influential organization, and I hope you will consider its plans for the future."

I was a member of the first meeting of the Association and was present at the election of the Executive Council. I have been a strong supporter of the Association ever since, and I believe that it is doing great work in furthering the study of psychology.

I am enclosing a copy of the Report of the Executive Council for the past year, which I think you will find interesting.

Do you wish to unite with me in writing a letter to each Governor in our country, calling attention to the International Prison Congress and to the meeting of the American Prison Association and giving information in regard to the appointment of representatives of each state and the conditions of membership in both congresses, or do you prefer to have us write separately? Dear Sir:

I just have a letter from Mr. Byers in which he encloses me a copy of a letter written to you under date of January 11th. I have replied to his letter and enclose a copy of the same.

It seems to me that he is in error when he says in his letter to me "I am not in favor of holding more sessions of the American Prison Association than we absolutely require to cover the work of the five committees". You will recall that we also have the following auxiliary associations and will observe from my letter to him my views concerning that matter:

National Wardens' Association
National Prison Physicians' Association
National Chaplains' Association
Association of Governing Boards

I also enclose a letter from Mr. Mills in which he refers to the proposed publication which we have been calling the Guide as a "circular" and you will observe that he says he has not used any of the pictures that were talked about. Do I understand that
then following this circular there will be a Guide
issued such as that of which we talked?

My dear Friend:

I have your letter with copy of yours to Mr. Byers, and Mr. Mills' letter to you with copy of your reply, and have considered them carefully. The program for the American Prison Association I must leave entirely with you and the committee of the A.P.A.

The French "Guide de poche" has been long delayed, and will not be perfect when it is done, but I must send it forward as soon as I can get it through the press. The composition and proof reading were simply awful, and I have been very much disturbed about it, but I hope to get it through within two weeks and send it off. On account of the delay I have sent to the Commissioners abroad circular letters to explain the delay, and to give information which was urgently needed for their plans. Everything is in good shape up to date.

I did not use the pictures after all simply because I found I should exceed my budget if I did, and I am determined to keep within the limits fixed at the start. Indeed, the Department of State requires this.

As soon as I can get the material ready, probably
Dear Letterman,

I am very pleased to receive your letter. I understand your concern about the English material. I will send the English material of the book that I mentioned in my previous letter. I hope it will be of great interest to you and the American Prison Association.

My dear Mr. Butler:

I thank you for sending me a corrected list of the committee of the American Prison Association. I will see that the correction is made, as I still have the proofs. The correction of the French text goes very slowly in this country.

I do not understand that Mr. Mills has eliminated the Indiana State Prison at Michigan City from the itinerary any more than Pontiac, or St. Charles, Geneva or Joliet. He simply makes Chicago the center for visiting our institutions on the ground that he wishes to give up the sleepers for two or three nights to save the heavy expense of keeping them.

The date of the Congress, of course, is October 2-8. Several mistakes were made on the copy of the outline map, which Mr. Mills and I observed and corrected. You have the first proof.

I do not understand that Mr. Tillie was stimulated

by the Indian State Union to write anything from the initiative.

He may more fairly point out of St. Carolee, Gower or Justice,

two or three minutes to save the Indian experience of keeping form

the fate of the Congress. Of course, I propose

Dear Sir:—

I have your letter of January 3rd. The offer by Dr. Peyton was made after I had spoken to him following your letter. I am sure you will understand that the intent was only to be helpful. It would also save perhaps $150.00. I am sending you a copy of the last report of the Reformatory printing in its own printing office. The same instructor is in charge and as good a job can be done. It would mean something to say to our visitors that the work was done by the printing school in a Reformatory, would it not? Let me know what you desire.

If you will be kind enough to send manuscript and cuts to me I shall be glad to take the matter up with him. What is the latest date you can allow him to get it out?

Can you send me the itinerary as finally agreed upon? I should like to take the matter up with some of our people here to see what can be done.

As I have said, I am entirely ready to do this, and to join with you in what is thought best for the American Prison Association. Mr. Byers and Mr. Mills seem to think that on the whole it would be better to have the Guide printed in a commercial house. It would cost more, but there is grave danger of error and we wish to have this Guide Book artistic and accurate as it is very important to put on a good appearance.

I have copy of proofs of American committees. On page 2 please read the dates for the Congress - October 2-8 - not "2-7". On page 7, change the address of F. H. Wines to Springfield, Illinois, and on the last line of page 7 omit the title M.D. from Miss Davis' name. She is a Ph.D., not M.D.

Democratic simplicity is impressive with foreigners. Most of these names need no title to give them distinction, and if you begin some of them would need two or three lines to carry their honorable appendix. I would omit all titles, even M.D., but follow your own judgment. That is my opinion. You have done the printing very nicely indeed.

Dr. Charles R. Henderson,

Dear Dr. Henderson:—

I have your letter of November 26th with accompanying itinerary. It is not just the way I had figured it out. My supposition was that Sunday and Monday would be spent in Chicago and at the institutions near there. That would give Tuesday for Indianapolis and Wednesday for Jeffersonville and Louisville.

I am sure Mr. Mills is mistaken about it costing $500.00 more to go to Chicago via Michigan City than direct. The station at which we would turn off the Pittsburg, Fort Wayne and Chicago Railroad, would be Plymouth, 33 miles out of Chicago. The fare would be $1.66. The distance from Plymouth to Michigan City is 43 miles and from Michigan City to Chicago 56 miles, total 99 miles, and the fare $1.98. The difference between the two would be 32¢ per passenger. With 150 or more passengers the extra expense would not be great.

As you know, I shall be very much disappointed if we cannot visit these institutions. In fact I consider they will see more at Michigan City, giving greater variety of construction, employment and the utilization of prisoners on State account, than in any other one State Prison they will visit. By
that time, too, the hospital for insane criminals, which will be the newest of its kind, will be well along towards completion.

The latter part of your itinerary it seems to me is in error. You would spend Thursday, September 29th, at Jeffersonville and Louisville, as I take it. You have it marked "night ride to Richmond". If you leave Louisville at 6:00 p.m. you would arrive at Richmond the next day at 2:45 p.m. and could probably make some arrangement to get to Washington sometime Friday night, but that will cut us out of a part of the American Prison Association's meeting which we plan to begin sometime Friday. What would we get at Buffalo except the visit to Niagara Falls? Is it worth the extra time? Why should you stop at Cleveland and not go direct to Mansfield?

You know how I feel about these things and you are the one who must decide it.

Regarding the English edition of the Guide, I have written Mr. Byers about it and have not yet had his reply. As soon as I do so I shall hope to be in position to advise you.

As to Mr. Lewis' request, I have no objection to your doing as he wishes. By the way, a letter today tells me he has been chosen Secretary of the New York Prison Association.

The American Prison Association's committee on the International Prison Congress is given herewith. There is no chairman. Mr. Collins was vice-chairman but he was not made chairman
This time, too, the hospital for these criminals, which will be
the nearest of the kind, will be well stocked for future occupation.
The letter dated of October 1st, 1839, is to be returned,

For your own good, I implore you not to use the
art of the patient, as I have no desire of ever being
partner with me in any of the American Prison Associa-
tion's work, and I am now at the end of my strength.

You know how I feel about these crimes, and you also the

one who make good.

Regarding the prosperity of the Union, I have never

Your selection of Major Mc Claughry and of Mr. Brockway to speak at the Sunday night meeting will command universal approval. My dear Friend:

I have now in hand the itinerary made out by Mr. Mills. It covers too much time, because we must limit the expense of the journey to ten days so as to be in Washington at least on September 29th, therefore something must be left out or shortened. Mr. Mills says that this itinerary, in order to take in Michigan City on the way to Chicago, will cost $500 more than if we go straight from Mansfield to Chicago. We must save that expense if possible. Please give me your suggestions at once as I am preparing the ms. for print.

When and where do you propose to print the English edition of the Guide? I shall have the ms. ready in a few days. The translator will prepare the French edition at once.

Mr. Lewis, Editor of the Delinquent Department of the Survey wants to use the papers furnished by our American contributors in advance of the Congress. I have told him that I could not give permission without your consent. Personally I think it would help very much to secure publicity and to get the ideas before the country, and I advise giving him this permission. Kindly give me your decision.

Will you kindly send me a correct list of the members of the committee of the American Prison Association of which Mr. Collins is chairman on preparation for the Congress?

If you wish my help in any way further I shall be very glad to render it.

Yours cordially,

Dear Sir:—

I note what you say in your letter of November 20th about the preliminary circular. I have the American General Committee almost completed — 94 persons have accepted. Mr. Mills writes and telegraphs that he is to be in Chicago tomorrow and asks for these lists. I am sending a copy of the General Committee and also co-operating committees so far as we have them. Perhaps he wants to use this in connection with the Guide. I think I will be able to supply complete list within a few days. Shall we give the present position, as Hon. John Burke, Governor, Bismarck, N.D.; Mrs. Maud Ballington Booth, Commander Volunteers of America, New York, N.Y.? Or shall we give former positions, as Hon. Alvah S. Adams, Ex-Governor, Pueblo, Colorado? Or shall we simply give the name and address, as John H. Converse, Philadelphia, Pa.?

As I recall, we decided to leave off titles as Honorable, Doctor, Reverend, etc., in the final revision. I suppose the exception would be D.D. and M.D. What do you say?

I should like to have copy of the itinerary from New York around to Washington as soon as you have it in form. I am

sure Governor Marshall will go to Michigan City to welcome the foreign visitors. I should like to know the amount of time they will have in Indianapolis so we can arrange definitely with our citizens and various organizations and see what they can do for them. I think in connection with the visit to Jeffersonville it will be policy to spend a part of the time in Louisville. As I suppose you have seen from the Louisville Times, they have just begun a campaign for the establishment of a reformatory and the indeterminate sentence and parole law, which promises much, and they have done some good things in Kentucky already. Besides, if you do not go to Atlanta, it and Richmond will probably be the only southern cities that you will visit, provided you go to Richmond, Virginia.

I have your letter of November 16th. I did not refer to the Guide Book but I understood you to say that you were going to be delayed in getting out the Guide Book and you thought you would get out a preliminary circular in advance and it occurred to me that you might want the list of the American Committee of One Hundred and co-operating committees to go out with that.

Dear Friend:

In reply to your esteemed favor of Nov. 18th: The "preliminary circular" which I have already sent, was simply a letter to each member of the Commission, giving them the information which had at once to be sent. I think it will be well for you when you are ready to send the list of the American Committee and co-operative committees in printed form by itself. I am obliged, of course, to write to all the members of the Commission whenever anything of importance must be communicated, and I wish to send them something at frequent intervals so as to keep them interested and informed. Your circular would be of great interest to them.

We are in receipt of your letter of the 13th inst. As soon as we get the itinerary so we can know when the excursion will reach Washington, we shall be able to figure out the time and number of sessions. I have been unable to get that from Mr. Mills. Are you informed concerning it?

In a general way the plan we outlined is what we want to follow,—sessions Friday and Saturday, Sunday night and Tuesday night; also the general character of the Sunday night program, viz., that we ask two or three of our most expert prison officials to speak briefly out of their experience and that we ask two or three of our foreign friends to do the same thing. I think the names you suggested were Sir Ruggles Bryce and Dr. Guillaume. If each will speak fifteen minutes, that will be all right. I should be very glad to have Dr. Guillaume's judgment on the program as soon as it is more definitely known, or you could write him stating it is tentative. But I do not see what other arrangement we can make that will do justice to both meetings. Do you? I will thank you to suggest European names for the program in case more

Dear friend:

In reply to your esteemed favor of Nov. 15th.
According to the itinerary the excursion will reach Washington on Thursday, the 29th of September, 1910.
I think your programme for the A.P.A. is good. When you are ready of course you will write the invitations to the European speakers, and then if you will send them to me I will accompany your official invitation with a personal word to show our full courtesy.

Your circular of the A.P.A. will be entirely independent of the Guide Book. The Guide Book will be about the same size as the bulletins of the I.P.C. and not far different from those of the A.P.A. and will have about fifty pages. I think that we can furnish cuts for the English edition. I should like to have the school furnish paper, print and bind in paper covers the English editions, but if it is necessary I will furnish the paper. As we shall need some copies for England and other English speaking countries, I think about 800 copies should be printed.

The prison of which I spoke in Canada is the new provincial jail at Montreal. The only state prison I can recall with windows opening outside is at Jefferson City, Missouri. Dear President Marshall:

I am writing to express my support for the establishment of a free press in our nation. I firmly believe in the importance of an independent and free press in maintaining a healthy democracy.

It is essential for the press to be able to operate without fear of retribution from the government. This will ensure that the truth can be reported and that the public is informed.

I understand that some may argue that a free press can be detrimental to certain interests, but I believe that the benefits of an independent press far outweigh the potential risks.

I urge you to consider taking steps to protect the press and to ensure that our nation upholds the fundamental principles of a free press.

Thank you for your attention to this important matter.

Dear Dr. Henderson:-

Replying to your letter, I have asked Mr. Glenn to ascertain whether the Outlook people will communicate with Mr. Roosevelt for us. As soon as I hear from him, will let you know.

Can you give me the itinerary as outlined in New York giving the days and the hours of the program? I am sure the understanding of all of our committee was that practically all the evenings of the week of the International Prison Congress, with perhaps one or two exceptions, would be free. Is not that your understanding? That there will be meetings on several evenings of that week which might be meetings of the American Prison Association? Will you kindly give me your tentative outline of the program of the International Prison Congress from the 2nd to the 8th so that we may work in harmony and there may be no conflict?

I suppose you have received the railroad schedule indicating that you can come to Columbus either by Seymour over the B. & O. My Dear Friend:

I have your favor of February 10th, in regard to Mr. Lebovitz and his paper. He wanted to speak before the Congress. I told him it was impossible but that any one could present a paper or publication to the Commission which would take it under consideration in making the program for the next International Congress. Mr. Lebovitz did what any one in the world could have done just as well. If he has made more of this than he should we are not to blame.

I had my name removed from the National Committee on Prison Labor because I found that they were committing me to policies about which I had not been consulted. I understand, however, that the committee has been reorganized as you say and I hope that they will get light on a difficult subject.

He would go to the house for the next Interstate Committee's meeting the question for the next Interstate Committee.

Mr. Leopold's and Mr. Bower's reports are more or less taken from the Interstate Committee on Interstate Tariff because I found that they were committing me to positions against which I had not been committed. Dear Dr. Henderson:

I am in receipt of a folder sent out by the National Committee on Prison Labor entitled "The Importance of the Prison Labor Problem", a syllabus and brief submitted to the International Prison Congress, by J. Lebovitz.

Is it true, as it states, that this paper was submitted to the International Prison Congress? I have no recollection of it. The fact that in the clippings collected for me during the tour preceding the International Prison Congress, there were a number of interviews with J. Lebovitz, who was one of the party, in which it was stated in substance that an important paper that would be presented at the International Prison Congress would be one on this subject by Mr. Lebovitz, a great deal of advertising being done which impressed me very unfavorably with Mr. Lebovitz and also with the National Committee on Prison Labor, which he claimed to represent as its official delegate.

I do not want to do any one an injustice and I may be wrong in this matter but I should be very glad to have your recollection of it. I learn that this National Committee on Prison Labor has been re-organized with an almost entire new set of men on the executive committee, including our friends, Lewis, Byers and Johnson.
Dear Professor...

I am in receipt of your letter sent on the 10th of October. The National Committee on Prison Reform has been notified of the importance of the Prison Reform movement and its activities, and the assistance and support of the International Prison Congress are in order.

It is time for assistance, not just for hope. I have no doubt that the International Prison Congress will make a report of its work to the International Peace Conference. On this point, if I may speak for the National Committee on Prison Reform, we are ready to take part in any effort to make the International Peace Congress a great opportunity to work on the problems of prison reform and to promote the interests of prisoners.

I am not now in a position to give you all the information you ask for, but I am afraid that I cannot do very well to send your last letter of the 8th of October. I am in receipt of it. I learn from it that the National Committee on Prison Reform has received a letter from the German government expressing its sympathy with the efforts of the American Committee on Prison Reform.
