My dear Sir:

I have your letter and the interesting clipping about your penitentiary, and I am glad with you, and for you. I have just received also some descriptions and pictures of your new Alleghany County Workhouse. It is no doubt an improvement on the older place, but I regret that they have kept the traditional arrangements which contradict the best modern hygienic arrangements for light and air. I sincerely hope that your Board will make a study of the best recent German prisons, and set a better example for future institutions in this country.

If I can be of any service at any time, I shall be glad. My address after this week, and for several months, will be 7 Rue Scribe, care of Monroe & Co., Paris, France.

Yours cordially,

Dear Mr. Henderson:

I am pleased to announce the appointment of Mr. John Doe as the new director of the state park system. Mr. Doe brings with him a wealth of experience in park management and a deep commitment to the preservation of natural resources.

I look forward to working closely with him as we move forward with our efforts to enhance the quality of life for all Illinois residents.

My dear Mr. Diehl:

I have your note and the clippings about the new penitentiary, and thank you for the information. I do hope that your Board will send an architect and the warden at least, to Europe this summer, to see some of the new prisons. I expect to go to Western Germany to inspect the institutions which have been built the last five or six years by the most scientific men in this business in the world. They have been constructed by prisoners, they are very simple and inexpensive, but thoroughly modern and wholesome buildings. I do not wish to urge this matter in an unseemly way, but I believe you would save a great deal of money, and get very much better results. The general style of buildings in this country is not in accordance with the present demands of sanitary science, and the Germans lead the world in this direction. Col. Rogers, the engineer of the British Commission, has some good buildings in England also, which ought to be seen, and I can prepare the way for any of your representatives who wish to go there.

I sail March 28. After that my address will be 7 Rue Scribe, care of Monroe & Co., Bankers, Paris, France.

Yours cordially,
Mr. W. J. Dyer

Western Penitentiary,  

Dear Mr. Diehl:

I have your kind favor of January 19th.
I had hoped by this time to make some definite statement
but with very few exceptions, all the wardens have said
that they could not be gone from their post of duty long
enough to take the trip this summer. Those who wish to
go, and they will not be more than three or four, I shall
have to help in some other way when the time approaches.

You can always get at me by addressing me
at the University of Chicago. After April 1st my
address will be care of Monroe & Co., Bankers, 7 Rue Scribe,
Paris, France. It is impossible to offer a definite
program with such letters as I have from the wardens.

Yours sincerely,
Dear Dr. Jones,

I have your kind letter of January 10th. I have been occupied this time to make some general statements and with many few exceptions all the statements have been true. Since they cannot not be done from Spain at this point I am going to take this trip forthwith. Those who wish to go by may send their letters to some other person. When the time approaches you can always rest me about an interview.

You can always rest me about an interview.

After April 1st at the University of Chicago, after January 1st at Paris. If it is impossible to offer a gallon of produce after many letters as I have from the government.

Yours sincerely,
Dr. Chas. R. Henderson,

My Dear Mr. Henderson:-

I am in receipt of your esteemed favor of the 17th inst., and am pleased to learn that you were glad to get the detail information as to Warden Francis' management of the Western Penitentiary, for he is certainly worthy of all the commendation that can be bestowed upon him for his splendid work.

I well remember your suggestion that he accompany you to Europe, as a representative of our institution, at some period this year. Will you kindly advise me definitely as to the proposed trip to Europe this Summer, and I will then take the matter up with our Board, and if we can possibly arrange to have Mr. Francis go, I will further the proposition to that end, although I have some doubts as to our being able to get the gentleman to leave his post of duty for the length of time that a trip to Europe would entail, notwithstanding his great affection for yourself.

Dear Sir:

I thank you for sending me the interesting items about reduction of cost under Mr. Francies' administration. I am very glad to get such detailed information as this.

You will remember that I spoke to you about your Board being represented and also sending Mr. Francies next summer to Europe to study the best and newest prisons in Central and Western Europe. I wonder what the outlook is at present. Nearly all the wardens have written me that they could not go. I presume many reasons are responsible, and occasional political changes, have narrowed the list to a very few persons, but if any one wants to go I propose to look after them as I had promised, to the best of my ability.

Dear Mr. H.

I am very glad to get your favorable information.

I am sure you are aware of my interest in the development of your company's business and your interest in the construction industry in general.

You will remember that I wrote to you about the possibility of establishing a new plant in the area. I am writing to update you on the progress of these plans.

As you are aware, the construction industry is experiencing a growth in demand due to the increased interest in new building projects. This presents an opportunity for your company to expand its operations and capitalize on the growing market.

I have been in contact with several potential investors who are interested in participating in this project. We are in the process of finalizing the details of the investment agreement and anticipating a positive response from them.

I would appreciate your feedback on any additional information you may have that could assist us in making a decision on this matter.

I look forward to hearing from you soon.

Dear Sir:

We were very much pleased to receive your favor of the 2nd inst. and note with interest what you say regarding the impracticability of your taking the people to visit prisons as you suggested. We are sorry that your own plans have not gone through as you hoped but naturally will be very glad to take care of any of your people if they desire to go with Prof. Woolston. I cannot say at the present time just how much prison work Prof. Woolston wishes to include but have sent your letter on to him and either he or I will write you in regard to it in a few days.

The itinerary and circular for the Social Workers Pilgrimage is now in the printer's hands and in a few days I shall be able to send you some copies. The price of the tour as at present arranged is to be $540. It is barely possible that we may have to change this figure slightly owing to steamship accommodations which are not yet definitely settled. According to present plans we expect to sail from Philadelphia July 1 on the Friesland and return from Liverpool Sept. 2 on the Merion to Philadelphia. Roughly the itinerary is as follows: Liverpool, Birmingham, Oxford, London, Antwerp, Mersplas, Ghent, Antwerp, Brussels, Delft, Leiden, Amsterdam, Essen, Dusseldorf, Elberfeld, Bielefeld, Hamburg, Berlin, Dresden, Nuremberg, Munich, Zurich, Lucerne, Interlaken, Berne, Witzwyl, Tannenhof, Berne, Lausanne, Geneva, Paris, Liverpool.

Dear Sir:

We were very much pleased to receive your letter of the 3rd and note with interest that you are considering the important matter of your taking the examination to qualify for your degree. We are sorry that your papers have not been returned as yet, and we hope that you can learn your papers and prepare for the examination. We are anxious to hear from you and to have your papers returned as soon as possible.

We are also interested in hearing about your work at the University of Chicago, and we hope that you will soon write to us to let us know of your progress.

Yours very truly,

Gentlemen:

I have your favor of January 14th. As Professor H. B. Woolston was one of my students whom I deeply respect, I am interested in your proposition, and indeed have already answered a letter from him giving such facts as came to my mind and promising more if I learned anything to his advantage. I shall be abroad the Spring and Autumn Quarters of this year myself. My address will be care of Monroe & Co., 7 Rue Scribe, Paris after the 1st of April.

I had thought to take some prison officers to see some prisons about the same time in France, Western Germany, Switzerland, The Netherlands, and England, but unexpected difficulties have arisen and it may be that I shall correspond with Dr. Woolson to have him assist me in taking care of the few persons who want to make that trip. When I have more information, I will write you again.

Yours truly,
Gentlemen:

I have now taken the liberty to forward a copy of my translation of a letter from your friend Mr. George, who is about to go to Russia, for your information and guidance. I hope you have already received a letter from him giving me an overview of his recent trip to Russia and the intentions he has of visiting your country. I feel it is important to inform you about this trip and to express my concerns.

I have been in correspondence with your Honorable Secretary of State, and I am pleased to report that I have received a letter from him expressing his continued support for your cause.

I have also included a copy of a letter from Mr. George, who is about to leave for Russia. He has requested that you remain in contact with him during his trip.

I am looking forward to hearing from you.

Yours faithfully,

Dear Sir:

We are planning a summer tour to Europe for social workers.

Our purpose is to arrange a pilgrimage to the most interesting centers of philanthropic, industrial and civic enterprise in England and on the Continent. We believe that a visit to important charitable institutions abroad, inspection of advanced methods of economic betterment and personal conference with leaders of social uplift in other countries, would be of immense suggestion and inspiration to those engaged in such work here. Wider acquaintance with social conditions and reform movements in Europe would doubtless be of great value to all who come into touch with our immigrant population.

We propose to get together a group of people who are interested in such matters, and to make all appointments for a tour sailing July 1st. and returning the first week in September. The party will be personally conducted by Professor Howard B. Woolston of The College of the City of New York.

Dr. Woolston has lived in Europe as a student of social questions and was formerly a settlement worker in Boston, New York and Cleveland. His experience as a teacher of sociology has equipped him with the information essential to interpret the background and significance of the points to be observed.

We earnestly hope that you will lend your cooperation toward making this expedition helpful to American students and social workers. Could you not join us? Failing that, would you suggest the names of other persons who might be able to do so? We should be very glad to send a detailed program of the tour to anyone who may be interested. If you have any suggestions as to particular places or institutions that should be included in order to meet the needs of your friends or associates, you will greatly oblige us by indicating them.

Trusting we may have the benefit of your response concerning the usefulness of such a project, we remain

Very truly yours,

H. W. Dunning & Co.
Dear Sir,

We are planning a summer tour to Europe for social workers.

Our purpose is to arrange a participation in the most interesting centers of social work in England and on the Continent and to observe the functions of socio-economic and political organizations and the social welfare of European countries. We will see social work in operation and to study the methods and organization of social work. The tour will be of much interest to students of social work.

We propose to leave London at the end of June and to make stops at all the points of interest for a few days. The tour will be personal.

If you have any suggestions as to points to be visited, please let me know.

Yours truly,

Gentlemen:

I have your favor of January 30th about Professor Woolston's Social Workers' Pilgrimage and thank you. Within a few weeks I shall send you some addresses with a suggestion as to writing them. I had promised to guide some prison men to see certain reformatory institutions in the territory covered by your itinerary. The plan that I had is not practicable and yet a few of my friends think they may go. If it is possible I should like to have them take tickets with Professor Woolston and I will go with them as far as I can. My address after April 1st will be 6 Rue Scribe, Paris, France, c/o Monroe & Co.

If any of your party wish to see prisons I can help them on account of my official relations to our Federal Government. It would be wise for you, therefore, to let me know if any of them are particularly interested in this subject as officers of prisons or boards of control. Thus we can work to each other's advantage, but I beg you at once to let me know something about the cost of this itinerary in order that I may answer inquiries more definitely.

Yours respectfully,
Dear Messrs. H. W. Jimmie & Co.,

To Messrs. H. W. Jimmie & Co.,

Gentlemen:

I have your favor of January 30th. Subsequently wrote you and one day or two ago received a letter from you some week ago and thank you for the same.

Your letter of February 11th I have been unable to write to you, the plan which I had to propose above and yet for a few of my feelings being the best not to propose I was able to promise I should like to have them take ticket with Professor Woodson and I will go with them as far as I can, My address after April last will be 2394 Hovey St., Boston, Mass., O'Gara, Taffe, Pierce, & Co., Monte of Co.

If any of your party wish to see what I can send them a copy or send a copy to any certificate details of my official relations to my government. It would also be for your interest to have the same.

I regard this matter as of great importance, as the point in my favor the party is interested in that I can work as office of plowman or public of concern. The point I am able to have and you should to let me know to some extent a sympathy, but I beg you at once to look at the same and sometime send the cost of these thirty at any time that may occur into these more and may

Dear Sir:

We were very much pleased to receive your recent favor regarding the Social Workers Pilgrimage and thank you for the interest you have shown in it. We sent the letter to Prof. Woolston and he has probably written you. Prof. Woolston suggests that I send you copy of our tentative itinerary in the hope that you may give us some points in regard to it. The first draft that Prof. Woolston submitted to us included also Basel, Wesel and Milan. We were forced to cut these out in order to bring the tour within the time limit and also to sacrifice some time in other places. Any suggestions or criticisms that you may make will be most thankfully received.

Yours very truly,

H. W. Dunning & Co.

Dear Sir:

We were very much pleased to receive your letter requesting the Social Work Department and to thank you for the interest you have shown in it. We sent the letter of your request as well as a copy, that I may know of your tentative plans. In the hope that you may give us some points in order to make the work within the time limit and also to save time in you can make with us work that way.

Yours very truly,

E. H. Dunning & Co.
