

TO THE YOUNG MEN WHO WANT TO GO TO FRANCE

France wants unskilled laborers, masons and carpenters to help rebuild her waste places. She will pay a minimum wage of eight francs or \$1.60 per day, with extra pay for overtime and all expenses for food, housing, laundry, medical care and recreation, and pay transportation back after two years if desired. Masons and carpenters will be paid from 12 to 16 francs per day.

All who desire to go and can furnish affidavits from two persons who know their parents, the place they were born and when, must pay their own railway fare to New York City and must secure their own passports. Apply to the State Department at once for passports if you can fulfill all other requirements, and if they are refused insist on knowing why this is done. Then notify Wm. Monroe Trotter, 2152 Fifth Ave., New York City, N. Y., that you have been refused passports, and the reason why.

As soon as you get your passports and notify Mr. Trotter, the date of sailing will be arranged at once.

Please note these directions and follow them carefully.
