1840–chiefly history of emancipation of all classes, races, in civilised world, Western Europe & U.S.

1830 = turning point to some extent. Before 18" held back by cent. too whole tendency backward. To 1815 rep. fall French influence. of war place not to free instit. but to what became Holy Alliance.

In U.S. 1815 = end of war. U.S. could not rely on them—aliens, though the position to move forward, the cloud removed in 1815—treaty of Ghent = independence & union by rise of Mexican Question.

1815 not decisive date in U.S.; yet Mexican Compromise + serious change of future—good game more 7 years, but yet little resulted. In 1828 attitude of S. Carolina, the multiplication, formation of S. Conf. considered.

all since after 1815 = portents, other foundation of just not secure. Internal unity not actual; although vindicated had been yet in 1816.

1830 domain in France only by Holy Alliance shaken; revolution removed obstacle in way of two main progress arms in France alone. In U.S., debate in U.S. Senate but Webster, Hayne (Cathm).

1830 = memorable year. A flow of tide begins now. Can trace progress now.

England takes lead. England had been mainting cause of freedom. Run down hard cent. — the span of Europe — vs. the Holy Alliance. She emancipated middle classes in 1832—

Ohio in 1833 — vs. the most insubordinate obstinacy, vs. her own old prejudice.

U.S. not able to tell lead — held back the instigation of slavery — after 1832 had run up to any other cause.

To no section. N. W. S. But allows slavery to rail — argued in Virginia with others. Reasoning — after that no public sentiment body ever discern its abolition. Path that it’s prohibited in public & private.

Change is unrequited until after 1832.

When the issue entered a circus slavery. It was certain that before it could be reversed it would be 25 years or 26 years before.
Slavery aggressive since 1835.

took new ground.

1. At got hold on wealth. Jackson sent message to Congress calling attention to incendiary doc. = (hand added) Sk. / Jack = fav. slavery.

In case Sk. prof. addressed that petition vs Sl. laid in table. = summary of right of petition sub. by Const. U.S.

This 21" rule opposed by J. D. Adams. author. Fear that practice of petition for aupts. slavery = lead to mass in Congress vs Sl.

Ritual = abol of Sl in Dist. Columbia. number lives of U.S. to brook to come in Sl state rep. raised in U.S. 7 sl in Alabama not interfere with Sl in Sl holding states.

2. In people. Nature of trade. If South aband, then industry = harmed. no market for many. threat that would want trade then or all are ruined.

3. Social relations. Leaders of South small that = submiss class. Birth buddy, spirit, and spirit could not be found in North = nobler, higher. In North, North = still slaves - Cratic society. Rich Soil, cities, voluntiral & industrious
of people acknowledged. In college here
Southern claimed of us a homage in those
days. Strong pressure of private
men and others in public it would
result.
