Cambridge 18 Oct. 1849.

Dear Sir,

Allow me to thank you for the column containing your Report on the subject of Canal & Rail Road Route from the Atlantic to the Pacific, which reached me this day by mail. I shall at my first leisure, acquaint myself with its Contents. If it so happens that you have another Span copy, I should be grateful to have it in my power to forward it to a scientific friend in England.

I remain, Dear Sir, with great respect,
faithfully yours,

Edward Everett

Hon. J.R. Rockwell.
