Mr Genl. Rawlings -

msk

I have nothing to report
 this morning, beyond the
 fact observed last night again
 of the constant running of
 trains on the South side R.R.^d
 reported as before, as apparently
 going both ways & stopping
 in the presumed vicinity
 of the new lines - I am
 unable to make any judgment
 from this report as to whether
 the new way, is re-improving
 his right, or sending away
 troops - I detect reports of
 movements, but say in this

Quickly unclustered. Early 3
troops were all coming back.
