My dear Mr Dayton.

I see the press and the community are distributing you around in a manner which must be very pleasant, and, I hope, whatever the result, it will be satisfactory, beneficial and joyful to you and yours.

After seeing you for the few seconds on Thursday, I spent some time, with interesting

with business, with Mr Moran
familiarly myself with
some of the details & routine
of duties of his office and of
others about him. From all
I saw, I judge everything
is admirably systematic
& simple as can be. While
throwing more labor on
the clerks by the change
in the mode of payment
semi-monthly & in cash,
a great benefit has been
bestowed upon the employees,
which is warmly appre-

ciated by all - and I learn cause saving
of money. and the purchase of liquor by the atten-
dance by saloons to get checks cashed.

Overall, occasionally, before the subject is most
renew my visits, but at such times as not to interrupt
business & take up important time from the routine
duties of employees. Your time is so much occupied &
I trust you would be glad to get away from me -
I am from subscribers! I agree with you.
