My dear Greene,

I am glad to have  
the beginning of your valu-  
able work, especially with  
the beginning manual of friend-  
ship. Had expected  
much; but you have  
given more even than I  
had expected.

I have already read  
the first book. It is  
beautiful in style &  
concept, & shows that

your work when finished  
must pass into the per-  
manent literature of the  
county. Though you Genl.  
Greene is enjoying a new  
fame, making his name  
great & glorious. His fam-  
ily must be happy in  
this splendid revival. I  
trust that they are only  
grateful to the pen which  
has done so much.

I had the opportunity  
of calling the attention of  
Genl. Sherman & Sheridan

Your work, meeting them at Drive Road  
then that they must take it with them  
as they pointed their parts. That  
they might know the stop of the  
great production of Greene as well  
is a style worthy of his name.  
Good luck to you young! Behave,  
my dear Genl. Greene  
Ever sincerely yours,  
Charles Sumner

P.S. I must again that  
Micrographic plates with errors  
of Sumner in the letter of Greene.
