Upon the recommendation of the Royal Bank of Canada in England, the letter signed to the Agent in England to ensure the Project to C. L. & Co. to be removed to Paris. The shareholders shall be compensated for their investment, as well as other points in the letter.

The accompanying letter is signed by the President, and to carry the Project forward before any steps are taken. It is to introduce the letter to the Public with the Board's decision to be a director.

A legal agreement to be entered into with the Director, in whose capacity as far as possible, we have signed the above document.

Count L Agrippina, Minister of Commerce and Public Works to Colonel The
German Mission (E.K.).

Sir,

I hereby consent to grant you
the concession for the formation of the
Aino
Stock Banking Company for which you
applied on the 9th of March last, and to
which application was annexed a draft of
the Statute.

This concession I give you, with the
reservation however, that the Company limits
its activity to the carrying on of what is
called "Banking Business" and that, this
object be distinctly stated in the Statute.

Before however the final delivery
of the said to you on the above named stipulation,
the Stock Capital should be subscribed for,
and it will be necessary that the Statute
be drawn up in legal form, and from all
ambiguity and imprecision of which the
prospectus (returned to you) are not free.

In drawing up the said code, I
recommend to you to see as a basis of form
the statutes of any Joint Stock Company
incorporated in Britain.

For the present, I have only
to direct your attention to some important
points.
Points which should not be overlooked in drawing up the new statute:

The following is a lengthy enumeration of 10 articles now enacted, which lack the following:
- Repeal only terminated in September last,
- When the Statute was finally approved by the Government.

The Statutes must be drawn up by the Notary or in presence of a Judge.

In conclusion I confide to you the adoption of the requisite measures; the draft statute, which you presented, you will find included.

When presenting the new statute, you are requested to give the other which are now appended to you.

Dear Sir,

Gentleman,

I am informed by Mr. John Smith, a respectable citizen, that you are desirous of procuring the appointment of a new Governor for this province. The regulations for the same are so severe and exacting that few can feel secure in the expectation of success.

Therefore, I request your serious consideration of the following: The present Governor is unable to carry out the duties of his office, and it is necessary to appoint a successor immediately. I therefore recommend the appointment of Mr. John Doe, who has shown great ability and integrity in his previous positions.

Yours truly,

John Smith

P.S. I have enclosed a letter of recommendation from Mr. Smith.

Authorized to give me third interest
in the person undertaking it for more
if necessary, but this is between our
delves. As for the other matters of
business, I must defer them until
I can get the necessary specifications
drawings or models. We are all
well, but the fine weather has changed
to a blow without rain. I told you that
Mr. George Fitzjames Russell would
you at some body Powers in Derby,
Watlingford or some other happy corner
of the green Isle requested me to remember
him to your Lordship. Do you remember
him? He is in name a youth, of a little more
age than yourself. He & I have
invented a Water Valvum and tried it in
the Channel two days ago. The trial was
very successful and a little strength to be
added to the motion. We all send
our love to you. I hope that you are all right,
just as us.
My Dear Colonel,

Mr. Jamieson has called on me today and has submitted documents dated May 29 and July 3rd signed by Mr. Yeberns which I think are satisfactory so far as they go. There appears to be no doubt about your obtaining the concession with the modifications suggested by me, if this be accomplished I shall have much pleasure in taking up the business on behalf of my new firm.

Mr. Jamieson has not shown me your letter but he has intimated to me that you are annoyed at expressions used in my letter of the 23rd of May and I am therefore anxious that you should understand that no ill feeling of any kind is intended in the matter. I had not the slightest intention of giving you any offence, indeed I think you ought to know me sufficiently well as to render anything I have said incapable of such a construction if you will compare your strong language with mine.
Thus you will see good reason to try "quiet"
If you still desire me to undertake the
business I am most willing to do so and when
you have the official documents duly signed I
will communicate with Mr. Jameson in taking the
most energetic steps for accomplishing the object
involved.

It is most important to have the documents
within the next fortnight otherwise our London
people will have left town - Parliament prorogued
and the excitement of an approaching election will
divert public attention from all business matters
still after Christmas.

I presume the official answer of both peoples
which you are expecting will include everything
necessary to prove the grant of the Concession

Mr. Jameson concurs with me that when the
documents are received it is important that you
should spend some time in London during the
preliminary arrangements, therefore be good
enough to advise me when you may expect to
see you.

Yours truly

The O'Gorman Mahon

191 Große Friedrich Str.apache Berlin Prefere
Memorandum and proposal of agreement
Between Colonel the O’Gorman Mahon of
the first part

and the undersigned

of the second part

Whereas after a considerable sacrifice of time, money and
labour Colonel the O’Gorman Mahon has succeeded in
the acquisition of the Royal Anglo Russian Bank Concession
thereby becoming enabled to render service under certain
contingencies to a limited number of persons and is disposed
to effect that object in their behalf.

And whereas it is deemed right and necessary in order to
exclude the possibility of any misunderstanding or difficulty
arising between the O’Gorman Mahon and the undersigned
or the representatives of either of either party respectively that a
clear understanding should be arrived at as to the precise nature
and extent of such service and the conditions in which it is to be
rendered.

Under these circumstances the present memorandum is drawn
up assuming the character of a formal proposition and agreement
entered into with the Colonel the O’Gorman Mahon by the
undersigned to the following effect.

Each of the undersigned whose name the Colonel may cause
to be inscribed as associate manager concessionnaire of foundation
with himself of the said Royal Anglo Russian Bank
(The Colon being willing to admit certain friends to a participation
in the permanent benefits derivable periodically under the several
articles of Chapter II of the Bank Statutes. But to confer or extend
to none of such friends any other advantage right or privilege
whatever, regarding said Banks or said Commission.) The first party
and agree to adopt in the fullest sense and restriction above
mentioned, and entirely放弃了 therein. Recognizing it as
a fair and equitable condition of admission to such association
with the Colon, therefore hereby renounces and abandons
all pretension to interference with the negotiations arrangements
present or future made or to be made relating to said Commission
or Banks and also renounces and abandons all rights power,
claims interest privileges or benefits whatsoever relating to or
connected with the management of the transaction of said Banks or
Commission with the institution of contractors, bankers, agents,
or management thereof (other than those advantages specified
in the said and 3rd Articles of the
II of the Bank Statutes) which this act of disinterested friendship
on the part of the Colon be without such positive
restriction, understanding and agreement foregoing, or be continued
to exist.

Each of the undersigned pledges his honours to adhere to,
repeat and confirm in any other form deemed requisite, the
substance and purport of this voluntary proposal and
agreement, if at any time required to be so by Colon the
Dyman Mr. Mahan or his legitimate representative...

In witness whereof the said parties have hereunto set
their hands this Eights day of January 1868

On this sunny summer morning,
When we hear the music chime!
St. Isaac's bell tolls!

My dear O'Garman,
I can only give you the
Jesuits' account. What you are pleased
to call your "basis teachings" amount to
the silliest affair (how ugly that sounds!) is that
all means are justified that gain the
end— if you have refined the pre-
inquisitive judge mind all down to you
if any you turn trustee every day of your
life— remember teachery was your
mind— seriously speaking you both
make too much of it— this is a
metaphor I see in it. I have seen
often robed and deceived byージュリ
people that it is foolish to try if the
able to have any one who I feel
influences to the mightly deserve sympathy and respect.
I shall put this meditate in my envelope.
I send it to your Embassy at Berlin for
friend Madame, or else you may
Look out for a letter with the
enclosure in the shape of a bill on Oct 8.
With which I shall join the fellow
a day ahead with the 2D tickets. Before
your proposition, my dear friend, I am sorry
to say it is untenable. The idea was mine
and if I break out of it on the strength of
your generous promise to bear me through
however that happens, our Federalist
character? I am no more in the affair
only trouble and delay - should be
known by any claim the bills remain unpaid then
as a friend. I might perhaps let you know
in the letter that only in the
hope of doing a good investment in
the other world according to the promise
held out to those who lend to the Lord!
Hope the interest will be counted as
compound! I am sorry to hear you have
to battle with so much delay and
hesitation - but the law with all offices
particularly Freeman's - I can say
something feelingly on the subject for
I have lost nearly 12 months by the clumsy
delay the thieves set up against the
Minister's will. From December to
May 30th time was lost until it went
a sharp letter offering to throw up the
whole affair - and then in ten days, it was
settled but alas too late. For your King
Billy pitched into the business e., you
know - and stopped everything. We are
beating old men (harking one's a
 Scotchman it has a peculiar taste for the
occupation) I only mention this to show you
that I can enter into your feelings of
disappointment with you. Many many thanks,
for your kind offer of making me a co-en-
commissioner on your affair, but I cannot
find you in your present or one respect, being
thanks if you remain along with you. should
be expected to invest much capita in
shares? I send not do it - and should not
like to dispense your recommendation
by an arrival of poverty. The advantage you
name of being allowed almost as fully
sufficient for an outsider - I did not seriously
mean to spend your good taste on anything
if it were your intention to remain in Eng.
Since my crossing the last page I was too long to get another sheet of paper - and only add this to you not to flatter me so much in your need - I like oranges in my salad - the French & Germans take sugar! If you will pitch into one now and then to say as you used to do now and then when you were here.

"The devil take why do you, why don't you do so too!"

I should be grateful to you - as for the pen being my weapon may be so - but I'm a very peaceful creature I shall never dream it against my neighbors for I should go fearfully to the wall.

I just write what I think as whatever comes uppermost.
if not and then anything offers opportunity perhaps it be true. I am somewhat fearful of Philip Sydney's advice—"Look in your heart and write"—at any rate I have heartily persuaded myself I cannot find you a moment's relaxation or amusement in truth! I often wish you were here! That thought of setting up on International Bank line (Anglo-Russian) I in fact was assured last yr. that the thing was settled even. The London couple for the officers couldn't you get into that I have a reason for staying here some time? that would be as the young ladies of the present day find it "aloofly, jolly!"
