Dr. William R. Harper,

The University of Chicago.

Dear Dr. Harper:—

Here is a proposed program for the approaching University Extension Conference. I have thought it best to print it with such modifications as have been suggested by others to whom I have referred it, without waiting for your return, but I have put it out as a provisional program with the understanding that it may be modified if you desire. I have assumed that we might have the arrival and registration at Cobb Hall, with lunch at one of the dormitories; that the reception might be held possibly at Beecher House, since the number to be received will not probably be so large as to require the Chapel. I have thought that our regular sessions would better be held in the theatre of Kent Laboratory. The exercise set down for Tuesday afternoon was an afterthought, and perhaps on the whole, you may think it best not to carry it out. It seemed to us that it might be a good plan to carry out our original purpose of a University Extension Club meeting, and that we might invite to it whomsoever we might induce to come up from different Colleges, and have an address by Mr. Finley of Knox College on the subject of University Extension in the neighboring Colleges. I hope that the general character of this program will please you, and that you will be kind enough to let me know at once what changes, if any, you would think it desirable to make.

Sincerely yours,

Dear William S. Harper,

The University of Chicago,

I have the pleasure of applying for the extension program of the University Extension Committee. I have been interested in the work of the Committee and have read many of the pamphlets and Bulletins issued by the Committee.

I have learned with the greatest delight of the extension work being conducted by the Committee. I have been one of the active members of the Extension Committee of the University of Chicago, and have been a member of the Extension Committee of the University of Illinois.

I have been impressed by the excellent work of the Extension Committee, and believe that it is essential for the welfare of the University to have such an organization.

I hope that the University Extension Committee will consider my application favorably.

Sincerely yours,

[Handwritten signature]
On July 1, 1894, the first Summer quarter of the University will begin. Students will be permitted to enter for either or both of the terms (six weeks each). All the departments of the University will be open. The Summer quarter will offer every advantage that can be enjoyed in any quarter of the University year.

A special "Calendar," giving detailed information, will be mailed upon application.

Prof. W. R. Harper, Ph.D., D.D.
Pres. of the University of Chicago

Sir,

Please find enclosed two letters, one from the President of the Bethany College, Kansas, and the President of the General Council (the United American, German and Scandinavian Lutheran Church of America), the other from the President of Luther Academy, Nebraska.

I also enclose a letter of testimony from the President of the Augustana College, Illinois, Ill.

Last time I had the honor to speak to you I could present to you testimonies only from political men only. I have therefore considered it important to call your attention to enclosed letters.

I am informed that your office hours is 8-9 every day, and I will call any day next week, if you kindly favor me with an audience. I remain

Dear Sir,

Your obedient servant

John A. Krandsen
55 Oak Place
Chicago, Ill.
CHICAGO May 4, 1900

My dear Mr. Shepardsön:

I inclose a letter from E. M. Lehnerd regarding advertising. The Committee on Expenditures has agreed with him that we will take $40 worth of advertising on terms indicated by him in his letter. Will you kindly make out the advertisement and send to him and greatly oblige?

Yours truly

Secretary

Mr. F. W. Shepardsön
Dr. Wm. R. Harper,
University of Chicago,
Chicago, Ill.

Dear Sir:

Replying to your kind inquiry of the 2nd inst. I will say that we will give you a two column reading notice of your summer course in the State Normal Messenger for only $10.00. The June number will probably be quite handsome as it is our commencement edition. If you desire space please send us your order as soon as convenient. A number of the larger Universities have been advertising with us each year. We insure a circulation of six thousand copies.

Yours truly,

C. L. Hayes

*Money has just been set apart for this purpose.*
Dr. W. R. Nye,
University of Chicago,
Chicago, Ill.

Dear Sir:

Referring to your kind anxiety of the end, I will now give you a few salient features of our summer course. In the State normal Messengers for only $10.00, the same number will be printed and mailed to you as the present edition, if you desire, to save postage. Also, for your own use, as soon as convenient, we have a table of the latest University and have a circulation of 500 copies.

Yours truly,

The
Thurston
Teachers' Agency

TENTH YEAR
1904

Anna M. Thurston
Manager
378 Wabash Avenue
CHICAGO, ILL.
THE
University of Chicago

By its Quarter System offers unrivalled opportunities for those who must retain teaching positions as a means of livelihood, and yet feel the need of further study in college.

The Summer Quarter of 1904

Will be divided into two terms as heretofore, and will be particularly attractive to TEACHERS, because of the magnificent equipment of the new SCHOOL OF EDUCATION in charge of Professor John Dewey.

WHY NOT SPEND YOUR SUMMER IN STUDY IN CHICAGO?

Send for a Summer Quarter Circular to
The UNIVERSITY of CHICAGO
CHICAGO, ILLINOIS.

The Thurston Teachers' Agency,

378 Wabash Avenue, CHICAGO.

OUR MOTTO FOR 1904:

"A place worthy of the teacher, and a teacher worthy of the place."

SALUTATION. For the tenth time the Thurston Teachers' Agency sends its annual greeting to old friends and patrons, and expresses a hope that many new ones may be added to its list during the year 1904.

The past year has been one of unprecedented prosperity for the Agency, the business done reaching a volume greater than that of any other two teachers' agencies in the west combined. We are unable to account for this prosperity unless it be because our patrons have confidence in us. We believe that they have confidence in us because of our constant adherence to the principle which has become well known everywhere as the motto of this agency, "a place worthy of the teacher and a teacher worthy of the place."

INDIVIDUAL SELECTION

has been the reason for our success. We have tried honestly to make individual study of each candidate, and equally thorough investigation of the con-
dition and needs of the schools and colleges which are accustomed to turn to us for teachers. There has been no desire to secure a large enrollment of candidates simply for the sake of registration fees, nor has there been miscellaneous endorsement of candidates of varying ability merely for the hope of getting a commission. We have aimed earnestly to satisfy the needs of school officials, knowing well that carelessness in endorsement or serious mistake in recommendation, while bringing temporary gain, would be disastrous in the end. The measure of success attained by these methods may perhaps best be indicated by extracts from two of the many hundred commendatory letters on file in the Agency:

"One cannot but notice that you are conducting your work in a thoroughly business-like way, which means that you keep constantly in view the best interests of your patrons, and spare no effort to bring about a proper adjustment of educational forces by putting the right teacher in the proper place. You do not ‘shelve’ your applicants, or send them on fruitless errands, but you make an effective effort to assist all who apply to you.

"Your service has been discriminating and effective, and was the means of bringing to my attention exactly the kind of position for which I was looking."

Is there not a practical business hint for YOU here? If you are a school official, patronize the Agency which has established its reputation on the principle of individual selection; if you are a teacher, join the agency which personally recommends.

WHICH AGENCY IS PREFERABLE

is very often a perplexing question. We do not feel that it is our place to advise, but we do know that some of the long-established Agencies have pursued their old methods until they have lost their reputation through careless work. They have been eager to reap a harvest regardless of results and in this way have lost the confidence of their patrons. It is much better to enroll in an Agency whose methods are known, whose reputation is established, and which is progressive and up to date. Join the Agency that PERSONALLY RECOMMENDS. Join the Agency that offers a choice in method of enrollment.

THE PLAN OF THE AGENCY

We make no effort to secure a large registration list. We believe that by doing personal work for only first-class candidates, we can give better satisfaction to teachers and to schools who favor us with their patronage than by trying to represent several thousand teachers. We are confident that no Agency can do justice to an indiscriminate list of candidates. Hence our efforts shall constantly be to keep in touch with the best teachers only.

When the members of the Thurston Teachers' Agency receive notice of vacancies, they are also recommended to the proper authorities as desirable candidates for the positions to be filled.

A teacher who has been registered in several Chicago Agencies writes:
“If you wish a position, join the Thurston Teachers' Agency. If you enjoy an extensive correspondence, join some other.”

HOW DO WE LEARN OF VACANCIES?

This is a question very often asked. The calls as a rule come to us directly from school and college authorities. We are requested to make the selection and recommend the teacher. During the past year in several instances we were asked to send as many as five teachers to one city. Superintendents wrote: “We do not care to see recommendations—use your own judgment. Have teachers report for duty the first Monday in September.” Each year we are in receipt of hundreds of letters requesting us to recommend teachers for various departments of work, in schools throughout the United States. The calls for teachers are so numerous during the spring and summer months that it necessitates the enlargement of the office staff by the employment of eight assistants. Our testimonials from teachers appointed and from school officers who have been assisted will show the results of our earnest efforts.

READ THESE FOUR FOR EXAMPLE:

“I am glad to express my appreciation for the interest Miss Thurston takes in each teacher and for the tireless activity she exerts in their behalf. My own experience is that she succeeds in securing positions when college and university faculties fail.

“From what I have heard from teachers and school men I believe that superintendents and school boards apply to your Agency and rely upon your judgment in filling positions more generally than they do upon other agencies. You have located me in a very pleasant school.”

“Am glad that you appreciate my writing to you of every vacancy that occurs here. I have corresponded with many agencies, but cannot find out what I want to know. Often they have no good ones on their list. I get the most satisfaction working through your Agency; in fact, I don’t write to any other now.”

“Accurate and essential information regarding vacancies is always given and only positions that the applicant is likely to get and for which he is well adapted, both by experience and education, are reported. Miss Thurston makes a strong personal effort to locate them.”

DIRECTIONS TO TEACHERS.

In order to do the work of the Agency intelligently it is necessary that we have a full knowledge concerning the qualifications of teachers, and for this reason it is desired that the registration blank be filled out as completely as possible. Write plainly with pen and ink, neatly and carefully, and return blank to us. We cannot adequately recommend without a photograph. Those the size of this page are most convenient, though any size is acceptable.

REGISTER EARLY

if you have any intention of registering with the Agency; do not wait until the best positions are filled. As a rule, the most desirable places are taken first; therefore, you ought to join the Agency promptly, if you expect it to render you
its greatest service. We have calls to fill vacancies, however, throughout the year.

PERSONAL INTERVIEWS.

When ever practicable we urge a personal interview, both with this office and with the authorities to whom applications are to be made.

We desire teachers who know whether or not they are fitted for the positions to which they aspire, and we are ready, after investigation, to represent them to our friends in authority and all known to us in educational work.

LETTERS OF APPLICATION.

The letters of application sent by a teacher are subjected to the closest examination and, therefore, should be prepared with great care. The writing should always be in ink, and a full and frank statement should be made showing the education and the experience of the candidate. A few copies of testimonials should be inclosed, and when possible a photograph should be included.

ARE YOU SATISFIED

with the salary you are now receiving? Perhaps you can earn more or even twice the sum. There are hundreds of positions vacant each year and many might fit your ambition. You do not know where they are and the persons needing teachers do not know where you are. We find both, and may be of valuable service to you.

BETTER SALARIES.

Teachers do not always join Agencies because they lack occupation. Many join because they are enterprising and wish to improve their positions. Teachers now employed, who desire higher salaries or change of location, enroll in order to be in line of promotion when suitable vacancies occur. We have also been especially helpful to young teachers—those who are not college graduates.

WHY BECOME A MEMBER?

You may not need a position now, but will it not pay you to have your application on file and be in line for a better place? Many leading superintendents and teachers are constantly registered in our Agency, in order to be ready for promotion when unexpected vacancies occur. They know the Agency usually learns of a vacancy before it becomes known to the public, hence they see the necessity of being constantly enrolled. Will it not pay you also?

STUDENTS ABOUT TO GRADUATE

or teachers holding minor positions, are also admitted. We do not exclude teachers lacking experience, if they have made careful preparation for their work. If you possess a teaching power, we can assist you. It is from the younger teachers that the ranks of the higher must be recruited. Everybody must begin. We have had unusual success in finding suitable appointments for those without experience.
TERMS OF ENROLLMENT.

Some persons hesitate to pay a fee.
1. Because they are not assured that a position will be secured for them.
2. Because they feel unable to afford the fee just at the time they wish to join.
3. Because they have paid registration fees to other Agencies and have not been benefited.

In order to meet the views of both of those who are ready to pay a fee and those who are not, we offer a choice of method of enrollment:
(1) Two Dollars at time of enrollment, with 5 per cent commission, if located, or,
(2) A small postage fee at time of enrollment, with 6 per cent commission, if located.

"Impressed by Our Sense of Responsibility to Those Who Enroll With Us."

"My acquaintance with your Agency has led me to place a high estimate on the character of your work and its value, both to the teacher and the school officers. I have been impressed by your honest and careful efforts to find the teacher fitted to the place to be filled, and by your sense of personal responsibility to those who enroll with you." ROSE C. SWART,
Supervisor of Training,
State Normal School, Oshkosh, Wis.

A SAMPLE TESTIMONIAL.

"I had heard a great deal about western 'hustle,' but never experienced it until I joined your Agency. I had been registered

with you just long enough for you to look up my references when I was suddenly transferred from Massachusetts to Idaho in answer to a telegram."

MISS EVA BUTTERFIELD,
Weiser, Idaho.

WHO ARE INTERESTED?

It is evident that there are three parties involved and interested in every arrangement by which a Teachers' Agency secures a position for one of its candidates:

(I) THE SCHOOL,
whose authorities feel the need of a teacher, and turn with confidence to a reliable Agency which makes it a business to keep thoroughly informed regarding the ability, the training, and the experience of many teachers in all parts of the country, believe that a selection made from a carefully prepared list of available candidates whose records have been thoroughly investigated will be much more likely to be a wise one than a choice made at random in the comparatively limited environment of the school itself.

(II) THE TEACHER,
who turns with confidence to the reliable Agency which makes it a business to seek superior candidates, and help them by bringing them into communication with school officials, thus widening the sphere of usefulness for them, furnishing greater opportunity for advance in character of work and amount of salary, and by the thoroughly organized system of an exten-
sive correspondence, giving them at small expense every advantage of wide acquaintance and business confidence.

(III) THE AGENCY,
which must win success by the “proper adjustment of educational forces by putting the right teacher in the right place,” and which understands perfectly that a continuance of patronage on the part of school officer or teacher will be entirely dependent on the measure of care used in such adjustment. The Thurston Teachers’ Agency seeks the patronage of schools and teachers, and is perfectly content to allow its many friends to speak for it in the way of endorsement. If there has been success, it has come from honest, faithful effort to satisfy the needs of its patrons.

How all Three Parties are Satisfied is Indicated by Such Letters as These:

R. G. YOUNG, SUPT. OF SCHOOLS,
BUTTE, MONT.

I take pleasure in stating that Miss Anna M. Thurston is well and favorably known to me as a lady of refinement, culture and business capacity. She has a very wide acquaintance among teachers, and is possessed of a discriminating judgment that eminently fits her for the business in which she is engaged. Superintendents and boards of education may safely apply to Miss Thurston when in need of teachers. She will recommend none but such as have had successful experience and are thoroughly fitted for the position to be filled.

F. W. COOLEY, SUPT. OF SCHOOLS,
EVANSVILLE, IND.

The energy and business tact displayed by Miss Anna M. Thurston, have resulted in placing this Agency among the best in the country. Few Agencies give so careful a study of the actual conditions surrounding vacancies, or are so painstaking in fitting applicants to these conditions, and this is the secret of Miss Thurston’s success. We count among our very strongest teachers those who have come to us through the Thurston Agency.

The SCHOOL is shown to have confidence, the TEACHER is ready to express gratitude, and the AGENCY is satisfied because the other two parties are pleased. By keeping constantly in mind the interrelation of these three elements, we have won the confidence of school officials and teachers, a Regular and Permanent Patronage and a Reputation for careful attention to the demand of our growing constituency.

A WORD TO SCHOOL OFFICIALS.

At one time the school officers and even teachers looked with disfavor upon Teachers’ Agencies. That time has passed. Both have learned to depend upon the reliable Agency as absolutely the simplest, most sensible, most businesslike, and at the same time pleasantest way of finding a teacher worthy of the place and a place worthy of the teacher.

This method is simple, because authorities have but to write one letter informing us of their needs, and with our best judgment we select the teacher most fitted for the position in question, submit testimonials and give our own estimate of the candidate. The method is sensible because with comparatively little correspondence, school officials can have the great advantage of a choice among many candidates. The method is businesslike, because we make a business of studying the records of our members; we do not form our im-
pressions from the testimonials which they furnish, but we are constantly writing to school boards and other teachers to inform ourselves correctly of their qualifications.

If you have any prospective vacancies, kindly permit us to serve you and prove our reliability.

We have thoroughly classified and catalogued our material and have installed a system of keeping our records which enables us to furnish quickly to our patrons among school officials complete information regarding our teachers. We can be reached by local and long distance telephone, Harrison 2588.

We have permanent patronage among school officials, many of whom often telegraph us for teachers, relying upon us for good judgment in selection. That we continue to retain the favor of such officials is perhaps the highest praise of the Agency. That we have given satisfaction in the past is best evidenced, not by our own words, but by the endorsement of our patrons.

"The Best Teachers in Our Faculty are those Recommended to us by the Thurston Agency."

We have selected teachers from those nominated by several different Agencies. The best teachers in our faculty are those recommended to us by the Thurston Agency. We have moreover always found that Agency prompt, courteous and reliable in all our dealings with them.

DR. J. W. HESTON,
Pres. State Ag'l College,
Brookings, S. D.

"GREAT TACT IN YOUR RECOMMENDATIONS."

My experience with your Agency covers a period of several years, and we are pleased to say to you what we have frequently said to others, that you give more personal attention to those who register with you than any other Agency with which I am acquainted. You, also, show great tact in your recommendations to school officers, and, as a result, you seldom have misfits. Then, too, you have located more of our graduates than any other agency. If I could speak stronger than this in your behalf, I would be pleased to do so.

J. R. FLICKENGER,
Principal State Normal School,
Lock Haven, Pa.

PERSONAL ATTENTION.

The success of the Thurston Teachers' Agency is due to personal attention to the interests of teacher and school. We do not seek a large enrollment of candidates. We desire the personal acquaintance of our patrons, and invite them all to visit our centrally located office in the Studebaker Building, 378 Wabash avenue, the home of many book firms and the headquarters for school men when in Chicago. One of our patrons writes:

"During my last year at the University of Michigan, I joined several prominent teachers' agencies, and wrote many applications for positions as notices of vacancies came. I finally secured a position, but not by reason of assistance from any of them. The following year I secured a better position, but again without assistance from the agencies, though still retaining membership and writing many letters in response to their notices."
THE THURSTON TEACHERS' AGENCY,

"Being still anxious for advancement, but now somewhat skeptical as to the helpfulness of agencies, I was induced by a friend to try Miss Thurston's. In a short time I was elected to a position at a larger salary than I had ever before drawn in the teaching profession.

"If you want a position, join Miss Thurston's Agency; if you enjoy an extended correspondence, join the others."

A SUGGESTION.

Members are requested to report vacancies and to give all possible data concerning them. They thus help their own cause. Teachers ought to realize that our interests are identical; that their success is our success. We will at all times do our best for our members, and shall expect them to do the same for us. Our list of worthy members has been largely increased because those who have secured positions through us, have informed their friends of this Agency.

KINDergarten, Primary, Intermediate and Grammar Grade

Teachers are always in demand. We are throughout the year in need of good candidates for this line of work. We have lost opportunities of placing teachers because we have not had suitable candidates enrolled. We have calls, salaries ranging from $45 to $80 per month. Why allow them to pass by when you are doubtless worthy of promotion?

A FEW OF THE MANY TYPES OF POSITIONS FILLED.

The Thurston Teachers' Agency has been extremely fortunate in its relations with teachers and school officials during the past year. We filled positions in universities, colleges, State normal schools, academies, seminaries, high schools and graded schools. These positions represent every possible subject taught.

GRADE TEACHERS.

Each year the demand for grade teachers is far greater than we are able to supply. Many teachers who have been receiving but $45 or $50 a month, have been appointed through our efforts to positions paying $70 and $80 a month. We have positions in all States, east, west, north and south, and calls for teachers throughout the year, paying from $45 to $80 per month. If you are a successful and deserving teacher we can help you.

Central City, Colo., $700; Hamilton, Mont., $800; Duluth, Minn., $500; Billings, Mont., $700; Miles City, Mont., $700; Idaho Springs, Colo., $650; Laramie, Wyo., $650; Oshkosh, Wis., $500; Seattle, Wash., $750; Calumet, Mich., $550-$600; Casper, Wyo., $600; Cloquet, Minn., $450-$500; Middletown, Ohio, $500; Whiting, Ind., $650; Highland Park, Ill., $650; Grand Rapids, Mich., $700; Prescott, Ariz., $700; Globe, Ariz., $750; Sioux City, Iowa, $550; Webster City, Iowa, $450; Charles City, Iowa, $500; Grammar—Moorhead, Minn.; Marysville, Mont., $80; Missoula, Mont., $75; Minneapolis, Minn., $700; Bismarck, North Dak.; Mandan, No. Dak. Primary,
TOWNS ABOUT CHICAGO.

We locate teachers in the towns about Chicago, and have calls regularly each year. Teachers who have secured positions through this Agency are now teaching at Maywood, Winnetka, Kenilworth, Waukegan, Edgewater, Arlington Heights, Austin, Oak Park, Riverside, Hinsdale, Aurora, Downers Grove, Rockford, Belvidere, Joliet, Highland Park, Berwyn, Oak Park, Ills., High School; E. Chicago, Freeport, Evanston, St. Charles and Racine, Wis. and others.

Many teachers are anxious to locate near Chicago to enjoy the advantages of a great city.

We are confident (in the light of last year's demands), that we shall have vacancies for every teacher who registers, including Specialists in Drawing, Music, Elocution, Physical Culture and Athletics, Penmanship, Commercial Work, Art, Kindergarten, Manual Training, Military Tactics.

SUPERINTENDENTS AND HIGH SCHOOL PRINCIPALS.

We have filled some of the best Superintendencies and High School Principalships, paying from $1,200 to $2,200. School Boards deal with us directly and rely entirely on our judgment in making a choice:

Atlantic, Iowa; Rockwell City, Iowa; Lamar, N. D.; Hoopston, Ill.; Edwardsville, Ill.; Crown Point, Ind.; Pipestone, Minn.; Fulton, Ill.; Atchison, Kans.; Virginia, Minn.; Lewiston, Ill.; Superior, Wis.

HIGH SCHOOL ASSISTANTS APPOINTED.

We have filled a large number at good salaries. We have calls from $700 to $1,800. Notice testimonials relative to appointments: Marshalltown, Ia., English; Miles City, Mont., High School; Milwaukee, Wis., East Division High School. Science—Joliet, Ill., Township High School; LaSalle, III., Township High School; Clinton, Ia., High School; Aspen, Colo.; Bozeman, Mont., County High School; Helena, Mont., English; Helena, Mont., Science; Butte, Mont., Mathematics; Butte, Mont., Science; Fostoria, Ohio, Principal and Assistants; Kansas City, Mo., Central High School, English; Kansas City, Mo., Manual Training High School, Latin and Greek; Kansas City, Mo., Mathematics; Kansas City, Mo., Physics and Chemistry; Ogden City, Utah; Lakewood, Ohio; Mt. Vernon, Ohio; Wellsburg, Ohio; Dillon, Mont.; Miles City, Mont.; Wabash, Ind.; Manistee, Mich.; Davenport, Iowa; Rockford, Ill.; Park City, Utah; Chippewa Falls, Wis.; Appleton, Wis.; La Porte, Ind., Science; Attica, Ind., English; Spokane, Wash., Science; Spokane, Wash., Mathematics; Orange City, Iowa; Ellsworth, Wis.; St. Louis, Mo., several; Fort Scott, Kans.

STATE NORMAL POSITIONS FILLED.

Warrensburg, Mo., Physics, $1,400; Mansfield, Pa., Science, $1,000; Lock Haven, Pa., Elocution, $1,000; Tempe, Ariz., Psychology and Pedagogy, $1,200; St. Cloud, Minn., Geography, $1,200; Weston, Oreg., Science, $1,000; Superior, Wis., Domestic Science, $900; Platteville, Wis., Mathematics, $1,000; Petersburg, Fla., Domestic Science, $800; Valley City, N. D., several, $900 to $1,200; Alva, Okla., several, $900 to $1,200; Cheney, Wash., Mathematics, $1,100; Springfield, S. D., Physics, also Latin, $1,000; River Falls, Wis., Biology, $1,100; Milwaukee, Wis., Latin, $1,000; Emporia, Kans., Oratory, $1,300; Emporia, Kans., Kindergarten, $900; Alva, Okla., $1,200; also Modern Languages, $1,200; Mathematics, $1,200; Edmond, Okla., Normal; Primary Critic, English, $1,200; St. Cloud, Minn., Normal; Elocution, $900; Manual Training, $1,200; Weston, Oregon Preceptress; Ashland, Oregon, Critic; Stevens' Point, Wis., Primary Critic; Oshkosh, Wis., Normal Critic; Moorhead, Minn., Music, $900; English, $800; Dean, $1,000; Critic, $800; St. Cloud, Minn., Latin and Principal of Practice; Warrensburg, Mo.

CRITIC TEACHERS AND SUPERVISORS

OF TRAINING WORK.

Special mention should be made of the demand for critic teachers and supervisors of practice work in normals and city training schools. We have filled positions paying salaries from $1,000 to $1,600. If you are not doing critic work, but know that you are qualified to do it successfully, register here for advance in salary in this line of work.
COLLEGES, UNIVERSITIES, STATE NORMALS, ACADEMIES AND SEMINARIES.

Each year we are asked to fill positions in advanced institutions. We need graduate students, those who have received advanced degrees. College, university and state normal presidents frequently request that candidates be called to our office for interviews.

We were called on last year to fill many positions in State Universities—chairs of Pedagogy, Engineering, Geology, Science, Mathematics, Latin and Greek, English, History, etc. We wish persons who are graduates and post-graduates of our best universities to fill these positions.

Do not conclude that advanced teachers do not enroll; we need every year the best and highest grade talent that can be obtained. It will pay you to keep enrolled.

One writes: "My own experience is that she succeeds when college and university faculties fail."

POSITIONS FILLED, UNIVERSITIES, ACADEMIES, SEMINARIES.

Teachers who are ambitious for positions in private schools should register here. We have an extensive correspondence with the best schools of this kind. We have secured first-class positions for many:

Provo Academy, Provo, Utah; Carleton College, Northfield, Minn., English; Carleton College, Northfield, Minn., Violin and Piano; Woman's College, Itasca, Texas, English, Preceptress; Vashon College, Burton, Wash., Assistant; Nebraska Wesleyan University, University Place, Neb., History; Tabor College, Tabor, Iowa, English; Tabor College, Tabor, Iowa, Science; Shattuck School, Faribault, Minn., Gymnastics, History, Latin; Monmouth College, Monmouth, Ill., Violin; Albany College, Albany, Texas, Principal; State College, Brookings, S. D., Music; State College, Manhattan, Kans., Mathematics, Science, Oratory and others; Clarence College, Hickory, N. C., Music, Elocution; Baptist Female College, Lexington, Mo.; Stanton College, Natchez, Miss., Music; State College, Brookings, S. Testimonials.

From the many hundred testimonials on file in our office we select a few representative ones:

Our files contain many letters from loyal teachers who have secured positions through our efforts. Only a few extracts can be printed here, but we are very glad to be able to answer the question: "Has the Thurston Teachers' Agency succeeded in bringing together good teachers and good places?" by letting our members and patrons testify.

I wish to say, Miss Thurston, that of all the agencies, not one displays the business tact and clearness of statement, relative to the candidates, that you do. Everything is put in such a neat form that it is a pleasure to get a list of the candidates that you recommend.

Geo. B. Swan, Prin., Gallatin Co. High School, Bozeman, Mont.

I am glad to say we are well pleased with the teacher whom we engaged through your agency. We think she is one of the best teachers that we have had in our school.

F. E. George, Supt., Pipestone, Minn., Schools.

The teachers you sent me last spring are proving very successful.

D. D. Mayne, Ex-Supt., Janesville, Wis.

The teachers we have obtained through your agency have been very satisfactory. I know you know how to size up just about what we want, and we shall undoubtedly use you in the future.

C. M. Leib, Supt., Maryville, Mo., Schools.

I wish to commend your reliability. In not one instance have you notified me of a "has been" vacancy.

Frank A. Weld, Pres. State Normal, Moorhead, Minn.

You have rendered most excellent service to us in securing teachers, and I appreciate all the efforts you have made in our behalf.

T. B. Pray, Pres. State Normal, Stevens Point, Wis.

I have found the Thurston Teachers' Agency prompt in bringing to my notice efficient teachers as candidates for such vacancies as have occurred in this school. The service rendered has been discriminating and satisfactory.

Jas. K. Powers, Pres. State University, University P. O., Ala.

I am personally acquainted with Miss Anna M. Thurston, and familiar with her
manner of dealing with school boards of the country. I have always found that what she said of any of her candidates could be relied upon. That is what one desires.

J. F. Saylor, Supt. of Schools, Spokane, Wash.

I have had some correspondence with the Thurston Teachers' Agency, of Chicago, and the thing that has especially pleased me has been its thoroughness and promptness and of the detailed information sent out. We have hired one teacher from the Agency and easily satisfied ourselves without looking for additional information. The Agency is prompt and perfectly fair with its membership.

L. L. Wright, Supt. of Schools, Ironwood, Mich.

I am thoroughly satisfied in all the business I have done with the Thurston Teachers' Agency. So far you have not made a mistake in the teachers you have furnished me.

"Your success is in the fact that you study the needs of the school and community, and get the right person in the right place."

Fred Barber, No. III College, Fulton, Ill.

I consider it a fortunate day for me when I first became acquainted with you and your work.

J. N. Study, Supt. of Schools, Ft. Wayne, Ind.

I take pleasure in saying that our business with your Teachers' Agency has been transacted in a very satisfactory manner, and the teachers obtained through your Agency have been uniformly successful. I have been especially pleased that your knowledge of a vacancy to be filled has not any time brought down upon us a flood of applications without any particular fitness for the position.

Alice M. Osden, Teacher of Expression and Physical Culture, State Normal School, Macomb, Ill.

Having known Anna M. Thurston for the past three years, I take pleasure in recommending her to all teachers and school officers who may need the assistance of an honorable and up-to-date business woman. Miss Thurston's success is due to her large circle of personal acquaintances among school officers throughout the country. Miss Thurston is unerring in her efforts to secure the very best places for her teachers, and what is more, she succeeds.

Emma S. Waite, Supt. of Training Work, State Normal, Athens, Ohio.

I have known Miss Anna M. Thurston in an educational way for several years, and I cannot commend too highly her methods of doing business. She seems to be particularly well fitted for the work of placing teachers. She makes several efforts to locate just the right person in the right place. It gives me great pleasure to recommend Miss Thurston, both to teachers and school officers, feeling confident that she will work to the best interest of all concerned.

Many thanks for your good work in my behalf. I shall be glad to recommend others seeking positions to your agency.

My work here proves to be just the line I have been anxious to get into. I wish especially to commend the hustle which characterizes the Thurston Agency, which brought about my selection for the last two positions I have held. Through it I have also been offered other good positions which circumstances prevented my accepting.

It gives me great pleasure to commend the Thurston Teachers' Agency to the consideration of those desiring positions and equally to those who wish to employ teachers. I regard teachers' agencies as quite indispensable. Much of the improvement in schools is due to the fact through such instrumentalities the school boards are able to avail themselves of the services of people of whom otherwise they would know nothing.

Geo. A. McFarland, Prin. State Normal School, Valley City, N. D.

Having found it necessary frequently to consult your Agency to secure teachers for important positions and uniformly meeting with courteous treatment it gives me pleasure to recommend the Agency on account of its energetic business methods, good judgment in selecting teachers for a given situation, and the uniform pains you take to satisfy both the teacher and the employer. I believe your methods are alike helpful to school boards and teacher. I most cheerfully recommend your Agency from the standpoint of an employer.

Supt. W. H. Stuart, Ottumwa, Iowa.

I wish to state that the teacher obtained through your agency, is doing very satisfactory work for us and is in all respects what you recommended her to be.

I have always found your Agency honorable and reliable.

The teachers supplied to our schools by your agency have been uniformly satisfactory. I have found you frank in statement and direct in your methods, recommending capable and worthy applicants. I cheerfully commend your Agency to the confidence of those seeking teachers, either for the grades or for the high school.

Harriet E. Chamberlain, Prin. High School, Cloquet, Minn.

I have always found your Agency in the past so satisfactory and reliable that I feel disposed to trust to its aid in the future.

J. F. Millspaugh, Pres. State Normal, Winona, Minn.

During the last two or three years I have more than once obtained Miss Thurston's assistance in securing teachers. It is a pleasure to say that in every business relation that I have had with her Agency I have found it reliable and efficient. Miss Thurston's work is characterized by what seems to me unusual pains to get before school officials desiring teachers just the information which they need to enable them to make wise selections. She has carried on very extensive correspondence on our behalf in several instances, and as a result, we have felt that our choice of teachers recommended by her was made with little possibility of mistake. Her large acquaintance with teachers the country over, her good judgment and her enterprising methods commend her agency to school officers.

William A. Schaper, Chair Political Science, Univ. of Minn., Minneapolis, Minn.

I have no hesitancy in saying that your Agency is the most carefully conducted of any I have dealt with.

Supt. Lee Swift, Tracy, Minn.

I wish to say a word in commendation of the work you are doing. You have discriminated finely in selecting the teachers which we have secured through your Agency. We shall continue to use your Agency when in need of teachers.

J. Pike, Supt. Public Schools, Jersyville, III.

Being personally acquainted with Miss Anna M. Thurston, manager of the Thurston
Teachers' Agency, Chicago, and believing her to be thoroughly reliable in business transactions and of most excellent judgment as to the qualifications of teachers, I take pleasure in commending her Agency to teachers and school officers.

J. H. Heil, Principal Morgan Park, Ill.

Several years' acquaintance with your Agency has convinced me of the efficacy of your methods. I am confident that your interest in your candidates is personal and genuine and that you recommend them only for such positions as they are qualified to fill.

A. P. Laughlin, Manual Training, High School, La Grange, Ill.

I am very grateful to Miss Thurston for the help she has rendered me. I am sure that she has the confidence and good will of all who have met or had any dealings with her, and any one who puts his case into her hands may look for results.

George L. Brown, Prof. of Mathematics, S. D., Agricultural College, Brookings, S. D.

I am glad to testify to the business-like and courteous treatment, and the effective service which I have received from the Thurston Teachers' Agency. Miss Thurston obtained for me my former position as teacher of mathematics in the Rock Island, Ill., high school. Her methods of giving aid to those who are enrolled with her can not but be indorsed by teachers who are desirous of bettering themselves and boards of education who wish to avail themselves of the best talent.

B. L. Remick, Chair of Mathematics, State Agricultural College, Manhattan, Kan.

I take pleasure in recommending your Teachers' Agency. I believe it to be prompt, energetic and efficient.

F. T. Oldt, Supt. of Schools, Dubuque, Iowa.

I have known Miss Anna M. Thurston, manager of the Thurston Teachers' Agency for a number of years. She is a woman of good judgment, and manifests rare skill and great energy in working for those who engage her services.

J. A. Stewart, Supt. City Schools, Bay City, Mich.

I am pleased to speak favorably of Miss Anna M. Thurston and to commend her Agency to those in want of a good teacher. My experience has led me to regard her as careful and painstaking in the selection of candidates, and entirely trustworthy in every way.

E. B. Bentley, Supt. of Schools, Clinton, Ill.

It is my opinion no Agency is so careful in its recommendation of teachers as the Thurston. Your carefulness in making recommendations deserves the patronage of all boards of education in search of good teachers.

W. A. Furr, Supt. of Schools, Ottawa, Ill.

Miss Thurston filled three vacancies in our schools at the beginning of this year. She was notified just what kind of teachers were desired. No others were recommended. After a short correspondence the teachers were selected and have proven eminently successful. Certainly common sense and pedagogical insight were used in presenting us this list. We have abundant confidence in the plan and spirit of the Thurston Agency.

J. Stanley Brown, Prin. Township High School, Joliet, Ill.

I take pleasure in stating to you that in all my transactions with the Thurston
Agency I have received fair and courteous treatment and that the several teachers recently employed through your assistance are doing satisfactory work.

J. H. Freeman, Prin. School for the Blind, Jacksonville, Ill.
I have known Miss Anna M. Thurston in the Teachers' Agency work for the past five years. I believe that she possesses the ability, tact and judgment requisite for successful work in conducting and managing an educational bureau, in which enterprise she has engaged.

W. N. Parker, Madison, Wis.
It gives me pleasure to state that I have had some business with the Thurston Teachers' Agency and have been well pleased with its manner of conducting business. I am personally acquainted with Miss Thurston and know her to be an energetic business woman, fully cognizant of the qualifications that go to make up a first-class teacher, and I know that school boards or teachers who have business in her line will be well satisfied with results if they patronize the Thurston Teachers' Agency.

A. W. Burton, Supt. of Schools, Green Bay, Wis.
I thank you for your promptness and helpfulness. We have a very friendly feeling toward you and your agency.

Ada M. Griggs, Ex-Supt. of Schools, Mt. Carroll, Ill.
I consider the Thurston Teachers' Agency of special efficiency for these reasons: It examines carefully the qualifications of its members; it gives notification of only such positions as are desired, and when it has notified of a position it takes more than a pecuniary interest both in the school and in the applicant.

Jane Price, Latin Township High School, Joliet, Ill.
I received my position through the Agency of Miss Anna M. Thurston. She seems to me to keep in touch with the best schools in this part of the country, and shows a personal interest in those for whom she is working.

E. G. Olmstead, Principal Training School, Scranton, Pa.
I have known Miss Anna Thurston personally for several years and feel sure that her ambition and business ability will make her rank among the first in the work. Her time and energy are devoted to the best interests of her patrons.

Minnie E. Swett, Calumet, Mich.
I thoroughly appreciate your excellent service, and shall recommend your Agency to any good teacher whom I find desiring a change.

Carrie Maine, Maywood, Ill.
It is with sincere pleasure that I commend Miss Thurston. She has secured for me two positions and has taken special interest in my advancement. In her business transactions she has been very prompt.

R. W. Sharpe, Dept. of Chemistry and Physics, Township High School, Wilmette, Ill.
I take great pleasure in speaking of my high regard of the Thurston Teachers' Agency. I am not aware of another agency, the patrons of which receive such efficient personal attention.

Adeline Spalding, Cadillac, Mich.
It is a pleasure to me to heartily recommend your Agency to teachers desiring positions. I was thoroughly satisfied with your efforts in my behalf.
"Does not Weary Applicants with Notices of Undesirable Positions."

"My business relations with the Thurston Agency have been so satisfactory that I have been glad to urge any friends to join it. "Its service is prompt, energetic and on a sensible plan, it does not weary the applicant with notices of many undesirable positions, but saves his time and postage, as well as its own, by selecting a position suitable for him and then doing its utmost to secure the same for him. I take pleasure in recommending it."

"It is said by many that not another Agency in Chicago is beginning to do the work that the Thurston Agency is doing."

The Educational Press.

Miss Anna M. Thurston, the manager of the Thurston Teachers' Agency is an accomplished lady of large acquaintance among the educational public of the West. She thoroughly understands, from long experience, the agency work. Her method is to devote her energies to capable, first class candidates rather than to represent great numbers.

Her Agency has the endorsement of leading teachers, superintendents and college presidents, who testify to the high character and business ability of Miss Thurston.

Potsdam, St. Lawrence Co., N. Y.

My dear Sir:—

At the suggestion of your father I am writing to say that we are forwarding to you the circular of the Colleges and one entitled Assistance to Students. You will find on pages 10 and 29 of the first named circular the way of entering the University of Chicago. I am sure that if you will forward an application to the Examiner for Secondary Schools with a statement of your credits from the principal of your high school you will find no difficulty in arranging to come to the University of Chicago although the admission requirements are rather high. Since you probably, however, have had a satisfactory high school preparation this should not be at all a stumbling block. I think it should rather lead you to desire to come into an institution which has the higher requirements and in which your associates will be very well prepared for the work.

To enlarge upon this would be merely to call your attention to the facts already published in the circular of that institution. I should be very glad to send this to you if you desire to look it over. If it is your plan to enter business or some profession like journalism the preparation explained on page 28 of the circular for the Colleges will fit you very well for the kind of life work you anticipate. The second circular I named will suggest to you some of the ways in which students are helping themselves in our institution. Last year the number reported to us, a number much smaller than the actual number assisted through the University Employment Bureau, earned upwards of a total of $50,000 at various kinds of work. Some, of course, earned very little; others earned a great deal. Those who have special equipment, such as good voices, have in the way of training as a violinist or pianist, might be able to secure work in connection with the various little informal parties which are given by the hundreds in a large city like Chicago. At any rate it seems very possible that a large city affords

The life at the University of Chicago you will find altogether to your liking. Although many of our rivals seem to think that there is no college life at the University, those of us who have been here for our undergraduate work are very fond of the place and we find in it a genuine spirit that is far more worth while than the melodramatic performances of rowdyism which some people call college spirit. Do not think that the men here do nothing but work. An examination of the Cap and Gown, the annual publication of the undergraduates, or the Daily Maroon, the student daily paper, will very soon afford you ample evidence to consider.

I might go on without concerning the advantages of the University to a man in your position. The only convincing thing to say is that you should come to see. This I hope you can very soon do.

President William R. Harper,
The University of Chicago.

My dear President Harper:

I have the list of superintendents and influential educators who are in the university this summer and am having copies struck off which I shall give to the Press to-morrow. I do not know just what we can do to entertain these people. We might give a luncheon to the persons included in the list but there would be the danger of overlooking others equally entitled to recognition and the expense would be considerable. Another plan is to hold a meeting for principals and superintendents of schools and college teachers, and provide some sort of stimulating and profitable program. Probably we could not organize a club of educators. There would be nothing in particular to hold a group like that given on the list together, but we might have one meeting that would be spontaneous and interesting. Care would have to be taken in devising a program but if Mr. Small, Mr. Locke, Mr. Miller, and others who are familiar with teachers, should get their heads together something good
Why not combine the reception with the University dinner in the Commons, of which you speak? We could hold the reception in the afternoon in some shady spot on the Quadrangle and follow it with the dinner in the Commons. High school problems might be taken and representatives of high schools in different parts of the country might be asked to present brief statements. The attitude of the University toward high schools and their colleges might be made the subject of the symposium including a statement by somebody representing the University of what our ideals are in connection with outside institutions of learning followed by a statement from a representative student as to ways of increasing the efficiency of the summer quarter and meeting additional wants.

No expense has yet been incurred on the illustrated circular of information beyond the purchase of a few photographs as the basis for cuts. I have copy ready however, and shall be glad to take up the entire scheme with you at your convenience.

Why not combine the reception with the University dinner in the Commons, of which you speak? We could hold the reception in the afternoon in some shady spot on the Quadrangle and follow it with the dinner in the Commons. Or we could hold the reception in the evening and precede it by the dinner, as we did at the German celebration in March, 1904.
We not compete the reception with the university

America to the common of what? You speak?

We come to the reception in the evening to come along about the common. The common might have some programs might be taken and meet the representatives of high schools at different parts of the common.
The city might be eager to present prior representatives of the university toward high schools and their colleges might make the import of the symposium including a state. We've been a year of the university and went by some color representatives the university of what can be in connection with outgoing institution of learning.

We compete the reception with the university.

No experience have you been involved on the it.

I hope the reception of information paying the presence of a representative of the common, I have been reach power and help to give to come to the entire scenario with your commonness.

We not complete the reception with the university

America to the common of what? You speak?
Probably this would be the better plan. I am inclined to think that the price for the dinner should be 50¢. We can do very much more for that than we can for 25¢ and people are so accustomed to the regular 25¢ dinner that it would not seem to accord with the celebration. I am inclined to think the attendance would be almost a large as if the price was charged and that most people would be glad to pay the difference for the sake of a more substantial meal. The reception would be attractive if there were some spot on the Quadrangle light enough so that we could hold it out of doors, provided the evening was pleasant.

The question of the date will be a little difficult to decide upon because the natural evenings for the reception at any time within two weeks are preempted by the Ben Greet Company. Friday and Saturday, July 14th and 15th and 21st and 22nd are thus taken. July 29th, Saturday, is free, but it is rather late in the quarter. Many of the first term people will have left. What should you say to Monday, July 24th? This would take quick work, but that evening is free and almost no others are during next week. Possibly the 24th of July, under all the circumstances, would be better. This would, in a way, mark the close of the
Proprietary firm would be the better plan. I am inclined to
think that the site for the Skinner would be good. We can
afford to pay a little more than we can for Bob, but people are
go very much more for that than we can afford any people are
to do. A new office to the regular office. Shall it be
suggested to the regular office? I am interested to know
the attendance. No money to speak of a large attendance. We
were charmed and most people would be glad to pay the bill.
Therefore if the sake of a more important meet. The new

bringing the earnings satisfactory.

SECRETARY TO THE PRESIDENT
May 10, 1903.

Do you wish to attend, during the coming summer, a great institution of learning where you will be enabled to study, in any department of learning, under professors who are second to none in the United States, and where you will have the privilege of listening to lectures given by the most renowned men of this and other countries?

The University of Chicago is the only great university that continues its regular session during the summer, thus enabling one to do work for a degree as well in summer as in winter or spring. Besides thus offering regular courses all the year, this institution has, during the summer, courses of open lectures on subjects in the fields of Art, Literature, and Science, given by men who have achieved greatness as artists, poets, novelists, critics, musicians, and scientists.

The cost of a course at this institution is so small that almost any teacher, by economy, may attend. The following table shows the actual expenses:

Chicago is a great summer resort where one may pleasantly spend the leisure time in trips on Lake Michigan, visits to the Art Institute, Board of Trade, Stock Yards, Hull House, the beautiful parks, and a hundred other places equally interesting. I have spent four summers at the University of Chicago, thus combining business and pleasure, and feel sure that one could not, during the same time, receive so much help anywhere else on the continent.

As President of the Georgia Club at the University of Chicago, I am anxious to see many of our teachers go, since it will mean much to them and much to our state. I shall personally conduct the party again, and aid teachers in securing comfortable boarding places near the University; I shall have a list of the best places with me.

Let me know if you think of going; ask any questions you wish. If you have not received a copy of the Announcements, let me know.

Yours faithfully,

F. C. Brown.
The University of Chicago and The World’s Fair.

On the Same Ticket and at a Cost Slightly Above Regular World’s Fair Tickets.

To the Teachers of Georgia, South Carolina, Alabama and Florida:

As in other years, I shall again personally conduct the party of teachers to the University of Chicago as that institution’s representative, aiding all members of the party with their baggage, arranging special sleepers, etc., enroute, and seeing that all are comfortably located after reaching Chicago.

The University, with its diversified and splendidly equipped departments, its unparalleled courses of “Open Lectures”, offers to the teachers an opportunity not to be found elsewhere in this country; the regular work goes on the year round, thus enabling one to do work during the summer for which full credit is given, and by which he may, if he likes, come up for a degree: Many teachers have thus taken degrees by doing work during the summer.

The City of Chicago, with its large frontage on Lake Michigan, its extensive and beautiful parks, its many places of interest, such as the art institute, public libraries, stock exchange, great department stores, etc., and its pleasant climate, is an excellent place for one to spend the summer and recuperate.

The railroad fare this year, while a little more than in former years, will include a trip, returning, to St. Louis for a ten days’ stay at the World’s Fair and also a side trip from Chicago to Milwaukee by steamer. The rate will apply from all points in Georgia, South Carolina, Alabama and Florida, and will go on sale June 1st, 1904 and will be good to return until October 31st. While the rate will be good anytime, the party will leave Atlanta Thursday, June 16th at 5:30 a.m., arriving at Chicago Friday, June 17th, 7:00 a.m. The University will begin regular work June 18th, and we shall thus have all day Friday in which to secure boarding places. It will be **much better for all to go with the party**, especially those who have not before been, that I may aid you enroute and also in **securing boarding places**, arranging courses of study and **matriculating** upon arrival.

The rate from Atlanta to Chicago and return via St. Louis, including trip to Milwaukee, will be $32.05, and approximately low rates from other points. If you will write me naming your station, I can tell you exactly the cost. The following rates from the different towns, will give you some idea of what it will be from your station:

The expense in Chicago will be about as follows: Tuition for five weeks, $30.00, for ten $10.00; board, from $3.00 to $4.00 per week; room rent, from $5.00 to $8.00 per month. Thus the expense for five weeks may be as low as $42.00. This, of course, does not include books, laundry, sleepers and little incidentals. Estimating the cost on basis of railroad fare from Atlanta, the total cost need not exceed $100 or $125 for five weeks, $150 to $175 for ten weeks. This does not include hotel bill, etc., while in St. Louis, but does include everything else.

The trip will be made in a Special Coach over the Southern Railway from Atlanta to Chattanooga; thence along the beautiful Emory River through the hemp and blue-grass fields of Kentucky to Lexington and Cincinnati; where we are transferred to special compartment sleepers on the C. H. & D. for Chicago. Returning, we leave Chicago on one of the finest trains in the world via the Chicago & Alton, for St. Louis and the World's Fair; thence over the Southern to Atlanta. No more picturesque or interesting itinerary can be selected—indeed I think none that will suit the teachers so well.

We thus get the advantage of the University of Chicago and also see the World's Fair for a few dollars more than a ticket will cost straight to St. Louis. When you buy tickets, be sure to see that they read via the Southern Railway to Chattanooga; Q. & C. to Cincinnati; C. H. & D. to Indianapolis; Monon to Chicago; Steamer to Milwaukee and return; Chicago & Alton to St. Louis; Southern to Lexington; Q. & C. to Chattanooga, etc.

I shall be in Atlanta Wednesday, June 15th, and meet your train if you will state over what road you will arrive. The party will spend Wednesday night at some hotel (perhaps the Kimball) where special rates will be granted. You will find me all day Wednesday and Wednesday night until 11:30 o'clock, at the Southern Railway Office, Kimball House Corner, just opposite the Car Shed.

Write me for further information.

Hoping to have you join us, I am,

Yours truly,

Dear Sir,

Marshall Field is the athletic field of the University of Chicago where are played the international collegiate football and baseball games, and where the great track meets of the Conference Colleges are often held. The land, ten and a quarter acres in extent, cost $355,000 and is now worth about three times that sum. The seating capacity at the present time is 13,730; standing room is available for 12,000 people; by means of extra bleachers the total capacity can be extended to 22,000 people. The name of course is a student pun. Mr. Marshall Field having been the former owner of this land and having sold it to the University of Chicago at a price much lower than he could have received from other purchasers.

Sincerely yours

DAR.C.

Secretary to the President.

Dear Sir:

We recently made a picture of the Marshall Field and as we have the only camera in the world that will take a straight picture without distorting the lines of a large view like this, we have an unusual fine picture.

We are proposing to use it in our advertising system as a window advertisement and as every time we place it in a store window we will be advertising the Chicago University, we trust that you will aid us in this. We want to attach to each picture a little history or story of the picture. We would therefore like to have a little story of the Marshall Field and the Chicago University, giving the size of the Marshall Field, its purposes and etc., the connection with the University, the number of students that take advantage of it and such other items as would make it interesting to the passer by. We trust that you will see your way clear to write us a little letter or have someone else do so, giving us the statistics we want.

Very truly yours,

Dear Sir:

This morning I went to visit the principal of a school. During the course of our talk a girl passed through the office, and the principal turned to me with a smile:

"There goes a Century girl," she said. "She came to us two years ago, after her parents had written me as a result of my advertisement in The Century. She has been so desirable a pupil that I feel most grateful to your magazine for sending her to me."

"Desirable?" I asked. "In what sense?"

"Well, in the first place, she comes from an excellent family, - one whose culture and traditions are of the finest, and whose name it is an honor for me to mention among the patrons of my school."

"In other words, a Century family" - I could not help breaking in.

"Yes - a Century family, if you will."

- There are thousands of just such families as these reading The Century every month, year after year. Cultured, influential, financially sound - their school-choice frequently determines that of other members of their communities.

It is well worth while putting your message where this class of readers can see it; it is well worth while to realize that The Century's school advertising strength lies in the quality of its results.

Tell us your plans for 1917.

Sincerely yours,

BULLETIN OF THE

AMERICAN BUREAU OF GEOGRAPHY

The Bulletin of the American Bureau of Geography, a hundred-page illustrated journal, goes to five thousand superintendents, principals and progressive teachers. It is used as a reference book by about twenty times that number of mature students in high schools, public and private normal schools, and colleges. Many copies also go to teachers' clubs, institutes, and summer schools. The value of advertising in the Bulletin is increased by the small number of pages open to advertisers, and by the select character of the material advertised.

Each page is 6 by 9 inches, and takes advertising card 4 ¼ by 7 inches. The rates for the June issue, 1900, are as follows:

My Dear Mr. Cheney:

I send you enclosed a copy of the Weekly Calendar issued by the University of Chicago. Would it be possible to arrange for the placing of a frame somewhere in the reading room of the Newbury Library in which this might appear from week to week, the frame being furnished and entire details of posting being done by the University so that there will be no trouble or inconvenience of any kind to the Library staff?

This proposition is based upon the idea that many of the announcements made in the Weekly Calendar are of interest to those who frequent the building in your charge.

Dear Sir:

We write to inquire if we can make an arrangement with you, similar to that we have had previously, viz. to carry a one page advertisement of your summer session in the Journal receiving in payment of some exemption from tuition fees to cover amount of advertising.

The Journal, as you doubtless remember, has a circulation from Virginia to Texas while within its own State it occupies an undisputed field and, as the official organ of the State Educational Department and the Teachers Association, is sent to all school officers and the greater number of Georgia's 10,000 teachers. We believe, therefore, that an advertisement in our pages would largely increase the number of Southern teachers who would attend your University the coming summer.

We enclose card with our advertising rate and mail last issue of Journal under separate cover.

Our March issue is now ready for the press but we will hold our forms open until we hear from you.

I shall appreciate it very much.
Superintendent E. G. Cooley,

Schiller Building, Chicago.

Very truly yours,

My Dear Mr. Cooley:

I send you a copy of our Weekly Calendar, which you perhaps receive regularly. There have been frequent requests from people down town for knowledge of what was going on at the university, and to meet this apparent desire on their part, we are planning to post weekly in about a dozen places in the city copies of these announcements. One of the places suggested was one of the rooms of the Board of Education, or some where in the Schiller Building.

The plan is to have a frame in which the announcements will be placed each week, the entire work of posting being carried on by the University. I can see possible objections to the plan, so, of course, write you perfectly frankly regarding it, and shall expect you to be perfectly frank in reply if you do not think the request a suitable one to grant. If your answer is favorable, or if you can suggest another place where we can reach teachers,

My dear Madam:

I thank you for your very candid statement of the 20th inst. I am sure your printer intended to do us a favor, but inasmuch as the line which he inserted was one of the items in the advertisement of 1904 that by all means we intended to have stricken out, the result was just the reverse. What we wanted to do was to change the advertisement of 1904, and therefore the mere fact that the line in question occurred in that advertisement is no solace to our feelings. It is the one which I think we were the most anxious should not appear again. At the same time I understand that the point in the long run is not probably of great importance. We appreciate your courtesy and assure you of our best wishes. The present matter can be dropped and there is no reason why we should not work together very amicably.

Yours very truly,

Answered FEB 22 1905

Henry P. Chandler,
Secretary to the President,

I regret exceedingly that you felt called upon to write me in the severe language of your letter of recent date. The advertisement of the University has been carried in my Annual for several years and the line which you criticize was used each time, the copy being printed by your predecessor, Mr. Shepardson, who always took particular interest in having the display lines properly printed.

As the matter you sent was insufficient to make the page come out just right, my printer thought it would be entirely proper, evidently, to use the line previously approved. I should have called your attention to this addition when I sent you the complete copy of the book had I thought for a moment that you would take exception to it or would describe it as "savoring of cheapness, or lack of dignity," words prepared in the President's office and previously used in the advertisement of the University. In support of my statement I send you enclosed a copy of my last year's book with the advertisement as prepared by him and read in proof by him. Regretting sincerely your displeasure and assuring you that future copies will be printed precisely as you suggest and only after your inspection, I am,

Yours very truly,

Anna M. Thursday.

Dear Mr. Vincent:

I think will need following up a little. We don't want the name of the University used without warrant.

Enclosed is a letter which represents several coming to me from a variety of people. On inquiry I find that students are apt to devise a number of schemes, and that they are constantly soliciting advertising. I have sent out, therefore, a letter of which the second enclosure is a copy. Of course if merchants care to undertake these things without the note of introduction they do it at their own responsibility. At the same time I think these matters ought to be hooked into a little sharply, and that no scheme should be authorized unless it seems one worthy of the University, and unless there is sufficient reason to believe that contracts made by students will be carried out. The representatives of the Magazine, Cap and Gown, and the daily of course should be authorized. There is a blotter scheme which I have approved conditionally; that is, provided a suitable guaranty be furnished to the Auditor that the blotter itself will actually be delivered. There is various advertising connected with the football games to which I have called Mr. Stagg's attention, and which

My dear Mr. Judson:

Inclosed you will find a clipping from the "Daily Maroon". This is a sample of the kind of advertising that I have found in some of the big university daily papers. I do not wish to appear prudish about such matters but I think that you will agree with me that it makes the problem especially hard for the teachers in secondary schools to stamp out the bad habits when they find the daily exponent of a big institution like The University of Chicago soliciting ads from tobacco concerns. I must say that the "Daily Maroon" is not as serious an offender as one other university paper from whose columns I clipped several advertisements calling attention to the superior quality of wines and liquors of various sorts in addition to Fatima Cigarettes and Velvet Tobacco.

We maintain a monthly paper in our high school and the boys are continually wanting to solicit cigar stores and such concerns for advertising matter. We have refused to allow it but they come back with the statement that the college and university papers do it, why should not we.

It seems to me that we need the help of all men engaged in education and especially the university and college men if we are going to make much progress in such matters.

I trust that this will be taken in the right spirit.

Yours truly,

Dear Mr. Briggs:—

Your favor of the 29th of October was duly received. We are always reluctant to interfere with our students in such matters. Of course there are advertisements which are wholly and only objectionable which we should not permit. The one to which you call my attention is on the border line and those we prefer as a rule not to meddle with. It seems to me the same conditions do not exist in an institution for older people as those which may well exist in an institution of secondary grade, attended therefore by those of earlier years.

Dear Mr. Schaeffer:

President Judson asks me to acknowledge your courteous note with the reprint of the Marshall Field advertisement.

How far we have come since the days when I found it impossible to buy maroon ribbon at Marshall Field's and Carson Pirie Scott's! The colors of Harvard, Yale, Michigan and Northwestern could be bought, but those of the new university on the Midway were unknown.

I once made a calculation for the Association of Commerce which showed the amount of business brought into Chicago by the colleges and universities. Therein may be some hint for Mr. Dorsey's advertising plan.
