Mt. Carroll, Ill., Dec 12, 02

Dear Dr. Harper:

In my letter of Dec 5, I intended to ask whether you could offer me a position of any kind at the University, or rather in Scholastic or Administrative work. I did not mean study. And of so what.

Sincerely,

Dear Dr. Harper:

A negro woman of Memphis, Tenn., who has a son, as I understand from Mr. Goodspeed, in Morgan Park, wishes to enter her daughter here at the opening of the new year. I assume that it is our duty to receive such girl, but I feel it necessary to have your written statement before doing so. Please send to me from you right away.

Mr. Carroll, Ill., from you right away.

My dear Mr. McKeen:

I have discussed the case of the student from Memphis, Tenn., and while I do not wish to pass upon the matter authoritatively, I would suggest that you go slow—in other words, I doubt very much the wisdom of this step.

Yours very truly,

Dear Dr. Hitherto:

I am not a man who speaks to move others. As you may know, I have not been well lately and have been unable to think clearly or to express my thoughts as I would like. However, I feel compelled to write to you because I have a matter of importance to discuss. I have been considering the possibility of retiring from my position at the University of Chicago, and I would like to hear your thoughts on the matter. I believe it is in my best interest to move forward with this decision, and I would be grateful for your advice.

My dear Mr. McKee:—

A Committee has been appointed on the Presidency, and the Committee has been waiting for me to come back from New York, and I think they want you to take hold. I think, however, that your plan for a Doctor's degree is a good one and only second to the Des Moines Presidency. Both points are well taken and worthy of consideration. Let us see what is best to be done.

Yours very truly,
My dear Mr. Mckerrow:

I am about to do now.

Mt. Carroll, Ill., Dec 30, 02

Dear Dr. Harper:  

I have decided, in case nothing comes of the Des Moines business, to enter the University to work for the Doctor's degree, if I can get your approval and the consent of the trustees of the Academy. My wife can do my teaching and I can keep up the business by being here a part of the week. I had hoped to have the Des Moines business brought to a focus before this in order that if I should enter the University I might do it for the Winter quarter, but I have heard nothing.

Dear Friend:

You will be interested in the statement up to date with regard to fuel this year on account of the new arrangement, using the steam heat in all the buildings. The statement is as follows:

Cost of Coal, July 1-Your letter of January 30th in reference to the financial condition of the Academy is excellent. I cannot think of anything better. This means great progress and am I the year, the wondering whether it is right for you to leave.

I note what you say concerning the fiftieth anniversary and think that we ought to take that matter up at our earliest convenience.

Saying $417.00.

Yours very truly,

$75.00, of this would be due to free wood from the Shimer estate, and the balance absolutely due to steam heat plant.

Another item of interest is in receipts on account of school bills:

up to Rev. W. P. McKee,

Land at Mount Carroll, Ill. $7706.00.

This year to Feb. 1, $6549.00.

Besides standing unexpected and disappointing loss in pupils, new ones have been made so that it is still probable that the outcome for the year will be about as was predicted in the budget adopted last June.

What are we going to do to celebrate the fiftieth anniversary next commencement? I think you will all agree that something beyond the ordinary might be attempted, and if so, we must get at it right away.

Yours truly,

P.S. The entire allowed $1.50, you wish for each member of the household for provisions. The bill in name for the first half of the school year is less than 80.00, and there may be a balance to be present at Fiftieth Anniversary June 9, 1903. Would you but do it?
Dear Friend:-

You will be interested in the statement up to date with regard to fuel this year on account of the new arrangement, using the steam heat in all the buildings. The statement is as follows:-

Cost of fuel July 1, 1901, to Feb. 1, 1902, $550.00.
Cost of fuel July 1, 1902, to Feb. 1, 1903, $333.62.

If this proportion should hold good for the rest of the year, the total would be as follows:-

Expense for fuel last year $1049.00.
Expense for fuel this year $632.00
Saving $417.00.
$75.00, of this would be due to free wood from the Shimer estate, and the balance absolutely due to steam heat plant.

Another item of interest is in receipts on account of school bills up to date.

Last year to February 1, $7708.00.
This year to Feb. 1, $8549.00.

Notwithstanding unexpected and disappointing loss in pupils, new ones have kept coming so that it is still probable that the outcome for the year will be about as was predicted in the budget adopted last June.

What are we going to do to celebrate the fiftieth anniversary next commencement? I think you will all agree that something beyond the ordinary should be attempted, and if so, we must get at it right away.

P.S. The budget allowed $1.30, per week for each member of the household for provisions. The outlay in cash for the first half of the school year is less than $1.15, each.

D. Harper: The people here want you not to fail to be present at Fiftieth Anniversary June 9, 1903. Will you kindly do it?
Dear Friend:

You will be interested in the statement we have received from the firm of

The firm has prepared an estimate of the cost of the following:

1. Roll of 100 feet, 100% for Rep. i, 100% for Rep. ii, 100% for Rep. iii, 100% for Rep. iv, 100% for Rep. v.
2. Roll of 100 feet, 100% for Rep. i, 100% for Rep. ii, 100% for Rep. iii, 100% for Rep. iv, 100% for Rep. v.
3. Roll of 100 feet, 100% for Rep. i, 100% for Rep. ii, 100% for Rep. iii, 100% for Rep. iv, 100% for Rep. v.

The total cost will be as follows:

Expenses for first year $650.00
Expenses for first year $650.00
Expenses for first year $650.00

$650.00 of these would be for the purchase of the equipment.

The balance represents the cost of labor and material.

Another item of interest is the receipt of a statement of accounts of the following:

1. Cost of repairs to property $1,500.00
2. Cost of repairs to property $1,500.00
3. Cost of repairs to property $1,500.00

I think you will find these figures of importance and tell me how we may help you further.

P.S. The budget figures for 1990 are now available to the management for the period ending March 31, 1990. The figures show a decrease in costs compared to the previous year. The management is pleased with the results and is confident that the company will continue to achieve its goals.

Dear Dr. Harper:

I gather from yours of February 2nd, that the Des Moines business is off, and unless you write me to the contrary, I shall proceed on that basis. I will not say that I am pleased with the prospect of no change at all for another year, but I would prefer things as they are rather than the Des Moines arrangement.

I expect to be in Chicago next week at the Sunday School meeting, and if you are ready to take up further plans for Mt. Carroll, I want to see you five minutes with regard to some of them, if I may.

I received from your office of Thursday week, the draft for the stock certificate and for the mortgage on the property. I am sorry that I did not receive the mortgage with the draft of stock certificate, but I will take care to have the balance of the mortgage sent to you.

I expect to be in Chicago next week at the Senate School meeting, if you are there, I would like to take advantage of the opportunity to discuss your plans for the Senate School. I would be most interested in any information you have on this subject.

Dear Dr. Harper:

The Trustees here are inclined to think that it would be an economical arrangement for us to put in a little electric dynamo and make our own electric light. The big boiler we put in last summer would furnish power nicely. I talked to Mr. Wright, your engineer, about the matter, and he suggested that he might come out and look the situation over and give us some counsel in the matter. Would you approve of his coming? we, of course, to provide for his expenses.

The Trustees have been interested to think that it might be of economic advantage for us to buy a little electric glaze and make our own electric light. The pig pottery we put in last summer was our own pigment, not our engineer's point. Would you like to have it? We'll give you some for your use and look for some that might come out and look the subject.

The matter, and the suggestions that are made, seem to me to be right come out and look the subject. Would you approve of them coming as a matter of course, to provide for the expenses.

Your feedback on the initial design is greatly appreciated. I have incorporated your suggestions and am currently working on refining the plans. I plan to present the updated design to the stakeholders next week.

Please let me know if you have any further questions or concerns. I look forward to your continued support.

Dear Dr. Harper:

Will it not be better after all for you to come out here Tuesday evening June 10th, and call the trip a vacation? We could then have the Trustees meeting Tuesday evening and Wednesday afternoon the session of the Senior Class give you a little tour of the town. In that case you could see what you please of the plan, and attend the reception a little while Tuesday evening, and we would have time for a buggy ride Wednesday afternoon, and you would get a real breathing time out of it.

I am so near the point of desperation (and you must have noticed this at our last interview), that I hardly know what to say. I should not be surprised if a break were to come before the date of your commencement. It seems to me that the pressure is harder every day. I think, however, that it is better to do what you suggest.

Yours truly,

My dear Mr. McKee:

Twenty years ago, when three or four thousand dollars seemed as much as three or four hundred thousand seems to-day, you helped me get that amount in an important crisis. I find that I must raise about $5,000 or $6,000 within the next week. I can pay it back in the course of two years. I do not of course wish to pay a high rate of interest, but I wish to pay what it is worth. There are good reasons, as you can see, why it is not best for me to borrow from a Chicago bank. Do you see any way to help me?

There are so many common issues, as you can see, why it is not best for me to follow them.

Dear Dr. Goodspeed:

As I understand it, in response to my suggestion, Dr Harper has changed the plan for the visit to Mt. Carroll. He now says that he will come out Tuesday evening, June 9th, reaching here at 8:40 P.M. In that case, the Trustee Meeting will occur at nine o'clock Wednesday morning, June 10th. Please let me hear from you at once about this, as we are just about to issue some detailed announcements for Commencement, and wish to get the hour of this meeting correctly stated.

I will call attention to the fact that the train that stops here for Chicago in the early morning, leaves here at exactly 4 o'clock, reaching Chicago at 7:55. Another train leaves here at 6:20 and gets to Chicago at 9:30, but it does not stop. It occurs to me that Dr. Harper and you would like to ask to have that train stop, in order that you can have 2 1/2 hours more sleep. There is another train also, at 5:20 in the morning which does not stop, but the 6:20 train is the Limited, the best on the road.
