My dear President Burton:

Your wise reply to the American Legion committee commends itself greatly to me and to all people who believe it to be the safest way to deal with radicalism. As you say our young people must hear all sides of the industrial and social and political questions and it is much better to allow each side to state itself in quietness and dignity.

The Communists are really trying to make in the DAILY WORKER a dignified and accurate sheet. If it fails occasionally it does not do worse nor so badly as the TRIBUNE and so I want to ask you if the DAILY WORKER is sent to the University library if it will be kept on file with the other dailies.

I inclose several copies of the DAILY
We join President Bolton
You were right to go ahead on the American Legion
committee, committee, I think, exactly as you may to
all people who believe it to be the simplest way
to deal with registration. You can see it, you people
be the worst part of those at the intersection and
society and political decision, and it to whom
pertain to allow every side to assert itself in
determination and grief.

The Committee and Assembly
were in the DAILY MONDAY a meeting and screening
vote sheet. It fails economically I do not.

I am so sorry not to speak or the THING may go I
want to talk now. To the DAILY even if want to
the University today. It will be kept on
life with the other gathered.

I propose several actions of the DAILY
for you to see for yourself.

I have been thinking of quoting your speech to the American Legion and asking the heads of many of the universities if they would accept the Daily. It would help if I could say the University of Chicago keeps it on file.

Chicago, its government now and its University are certainly to be highly commended these days and the discussions going on all over the city about how to make a better and safer world are going on in an intelligent spirit unafraid of molestation. That is as it should be in a democracy, isn't it?
for you if you see for yourself.

I have been thinking of taking your speech

to the American Legion and asking the help of

the Government of the United States to

make it a matter of the Department of the

Interior. I'm sure they will be happy to do it.

At Chicago, you have been a

great leader to the young, and the

University of Chicago is proud of you. We

are certain to do things of importance here.

And the American Legion, 1 say, will
take the work and make a speech and

get the word out. Isn't it an interesting

story, and am I to manage the

promotion? That is as it should be in a

generation.
MEMORANDUM TO THE PRESIDENT'S OFFICE
IN REGARD TO LETTER OF MAY 27TH FROM MRS. F.C. LILLIE.

The Departments of Sociology, Political Economy, and History are anxious to secure source material for the study of social and economic problems. The DAILY WORKER is undoubtedly to be classed with material of this sort. The University Libraries will therefore be glad to receive a copy of the above publication and will bind and preserve it for present and future use as far as space will permit. The present congestion in the General Library does not permit the filing of any daily papers on open desks or racks. They are kept by the Periodical Department until a volume is complete for binding. This is then sent to the University Press to be bound, later to be catalogued and placed on shelves of the General Library. If Mrs. Lillie decides to send a copy of the DAILY WORKER to the University Libraries, it will be best to address it to Room 21, Harper Library, University of Chicago.

Recommendation to the President, Office

In regard to return of May 24th from WRS' E. O. Tilley

The Department of Sociology, Political Economy, and History

aree e to arrange some necessary for the study of social and economic

programs. The initial program is incomplete and to be completed with further

questions. The University presses will require a large number of press to

complete the above program and will print any materials if you require it.

General information seems to point to the filling of a gap in the field of open

questions and the University is preparing to fill this gap in the near future.

If necessary, please forward a copy of the Daily Worker to

Herman Binning, University of Chicago.

My dear Mrs. Lillie:

I have not been able until now to reply to your kind note of May 27th, and I am now writing to say that we shall appreciate it very much if the University Library may receive the regular issues of the Daily Worker.

I ought to explain that the present congestion in the general library does not permit the filing of any daily papers on open desks or racks. The library will, however, be glad to receive the issues of the Daily Worker, and will bind and preserve them for present and future use. They would be made known and accessible especially to the departments of Sociology, Political Economy, and History, since these departments are anxious to secure source material for the study of social and economic problems.

If you are disposed to carry out your generous suggestion to send us the issues of the paper, please cause them to be directed to Room 21, Harper Library, The University of Chicago.

Very truly yours,

Mrs. Frances C. Lillie
5801 Kenwood Avenue
Chicago, Illinois

President.
As you have seen,
