Granville, Ohio, Oct. 7th, 1884.

Prof. W. R. Harper, Ph.D.

My dear Sir,

Yours of the 5th inst. is at hand. I am glad to receive your congratulations on my intended move to Morgan Park. You can appreciate, as no one else outside of Granville, my situation here. How conservative things are here, i.e. how slow they are! Moreover, the health of my daughter has never been good here, and different physicians have assured me that they ought not to be kept here. I yield to these circumstances with mingled feelings of regret and pleasure. I am strongly attached to the College boys here, and dislike to turn my back on them, but I rejoice in the prospect of getting back to my old home, and into broader, more liberal associations. Thanking you for your word of cheer, believe me,

Yours fraternally,

Galusha Anderson.

Dr. Harper,

I wrote you on Tuesday in reply to your note of the 8th inst. I have heard nothing from you, nor have I received any official communication from the Board of Trustees. I should be glad to have my matter straightened up in a business-like way. In the mean time, if I am to retire from the active duties of my professorship, I do not wish to receive the designation of Emeritus.

Very truly yours,

Kalnsha Anderson.
Dear Dr. Harper:—

Do you wish me to write an official letter to Dr. Anderson, or will you first confer with him? The following is the action:

"President Harper made a report on his negotiation with Dr. Galusha Anderson as to the proposed retirement of the latter from active duty, and it was after consideration voted that after January 1, 1904, Dr. Anderson be excused from the regular official duties of his position and receive instead of the usual salary of $3500, a year, a salary during his incumbency of the chair of Homiletics of $1500., and that during this period he shall enjoy the usual privileges in the University of his position, and may at any time resume such of the duties of his position as shall be approved by the President."

Yours truly,

My dear Dr. Anderson:-

Dr. Halbert showed me this (Tuesday) afternoon your letter to him which he had received. I am leaving Chicago to be gone two or three days, but immediately upon my return I should like to talk with you. I understood that the arrangement which we were to carry through involved your not working in the summer. This was to me mind perfectly clear. The responsibility for not including your name in the Summer Quarter circular is wholly mine and not Halbert's.

It was after this had been settled, as I understood it, and because I felt that it would be a good idea to have English considered for the chair, that I telegraphed him asking him if he would consent to come and be with us a part of the summer. I shall be glad to take up the matter with you in detail Friday or Saturday.

Yours very truly,

W. R. Harper

Your letter to him which I have received. I am leaving Chicago to be gone two or three days, but immediately upon my return I should like to call with you. I understand that the arrangements which we made to carry forward involving your not working in the summer. The matter of my holding a position is very important to me, and particularly so. The responsibility for not informing you of mine was without mine and not important.

I am glad I have had an opportunity to have English conversation for the past few weeks, but I feel I have not been speaking English sufficiently, and I shall do my best to take up the matter with him in German. I am very gratified.

Yours very truly,

My dear Dr. Anderson:—

I am enclosing herewith the official action of the Board of Trustees as reported by the Secretary. I recall that this matter was taken up at your suggestion, and I wish to express my great appreciation of the spirit with which the negotiations have been conducted on your part. I think I appreciate more than I can tell you the splendid service you have rendered the cause of education in the West through these many years. I wish also to testify to the cordial spirit with which you have worked these last ten years in the University. I trust that your life may be spared many years and that during these years, while relieved of regular official duties, you will be able to finish important work which certainly ought to be completed during your lifetime.

I understand that the official arrangement indicated in this action of the trustees is one which will continue as long as you live. I further understand that you are free to make your residence at any point which may be most suitable to yourself.

Trusting that we may have the continuation of your help and service as far as possible in the affairs of the University, I remain

President—William B. Harper,

My dear Sir,

Yours of Nov. 14th came to hand on the 28th inst.

As to your second question, concerning the distribution of vacations, I shall be under the necessity of taking my vacation during the summer quarter.

There should be in my department a teacher of elocution, whose principal work should be to drill the students in the reading of the Scripture and hymns. He should also be capable of helping me in the criticism of plans and of sermons. If it were possible to give me such a helper, it would greatly assist me in my department, and it would make the young men more effective preachers.

If I can have a fair share of the money now appropriated for the purpose of books, purchasing books, I can get

along tolerably well, so far as books are concerned. I want printing done, but on talking the matter over with Mr. Chase, I find that I can get the work done more cheaply in the City. So I hardly know what to do. Moreover the cost of printing is beyond my purse. If I would print my Notes on the History of Preaching—a topic which I am to teach during the Winter quarter, it would greatly facilitate my work, but I do not feel financially able to have the work done.

This is all that is urgent just at the present time. With best wishes, believe me,

Yours very truly,

Dear President Harper,

Several of the faculty, who have the religious interests of the University at heart, fear that the discussion of Immortality at the Harper Service, for an entire quarter, will be detrimental to the devotional character of those meetings. The subject, outside of the Scriptures, is a purely speculative one, and as there are to be many speakers, there will undoubtedly be a variety of views which may lead to much confusion of thought, especially in the minds of immature

student. One of the gentlemen, who is anxious about the issue of these contemplated services, wished me to see you and to ask if the plan could not be abandoned? As I am compelled to leave the city this morning, instead of seeing you, I write this hurried note. Hoping that the wisest thing may be done, whatever that may be, believe me,

Most faithfully yours,

Galusha Anderson.
