Dear Sir:

The Bohemian citizens resident in the United States who constitute a population of more than 750,000 persons have invited Dr. Francis Count Lue tzow to visit this country and to give a series of historical lectures here (in English) next February. The committee charged with the arrangement of his tour is now negotiating with the presidents of the foremost Universities and savant societies of the United States with a view of appointing a time for his lectures before these bodies and societies.

Francis Count Luetzow, Ph.D. of the Bohemian University of Prague, Lit.D. Oxon., member of the Royal Society of Sciences and of the Imp. Roy. Bohemian Academy of Sciences, Literature and Arts in Prague, former Secretary of Austro-Hungarian Embassy in London, is well known as the author of many English books and articles about Bohemia. The following are some of his books:

The following is a letter to the United States President

Dear Mr. President,

I am writing to draw your attention to a matter that has come to my notice. As you are aware, the United States government has a responsibility to ensure the safety and security of its citizens. In this regard, I have been informed that there has been an increase in the number of cyber attacks on our country's infrastructure. These attacks have the potential to cause significant damage to our economy and threaten our national security.

I urge you to take immediate action to address this issue. We must work together to strengthen our cybersecurity measures and prevent further attacks. I am confident that with your leadership, we can protect our country and ensure the safety of our citizens.

Sincerely,
