To Officers of Administration:

In accordance with the action of the Board of Trustees, the work of distributing documents of the University on and after Thursday, September 20th, will be placed in the hands of the University Press Division. A Mailing Department has been organized. It is understood that all official circulars of the University, including Programmes, Circulars of Information, Calendars, Registers, etc., will pass through this Mailing Agency. The Mailing Agency will preserve a record of the material distributed, and the postage will be charged to the proper department. Circulars which may be inclosed in envelopes do not fall under this rule.

It is understood that the wrappers for these official circulars will be addressed in the various offices, in connection with the correspondence; that on the inside of each wrapper there will be indicated the particular document for which the wrapper is intended, with the number of copies indicated if more than one is to be included.

A representative of the Mailing Agency will call at each office of the University for such wrappers twice a day; namely, at 11 A.M. and 5 P.M. It is hoped by this arrangement (1) to systematize the distribution of official matter, (2) to preserve a better record of what is distributed, and (3) to secure more regular service. It is important that all the assistants in the various offices be informed of this arrangement.

TO THE HEADS AND ACTING HEADS OF DEPARTMENTS OF INSTRUCTION:

Attention is called to the recent action of the Board of Trustees in reference to the method of conducting the departmental libraries.

The Board of Libraries, Laboratories, and Museums, has recommended, and the Trustees have adopted the following principles as a basis for administration of these libraries.

1. The departmental libraries shall be regarded as an organic part of the University library and therefore under the direction of the University librarian.

2. The departmental libraries shall be regarded as reference libraries, and books may be withdrawn from them only under special conditions.

3. There shall be the same general plan for the administration of all departmental libraries and for the use of books in these libraries.

Upon the recommendation of the Board of Libraries, Laboratories, and Museums, the Trustees of the University have enacted as follows:

1. That as soon as practicable, an appropriation shall be made to the library department to increase the salaries of the staff and to permit the employment of additional trained assistants.

2. That (a) An appropriation shall be granted to the general library, the amount to be evenly divided between books for reference and the circulating department of the general library; and (b) that the library fees of the undergraduate students shall ultimately constitute this appropriation.

3. That the library administration shall henceforth be relieved from police duty in connection with department libraries.

Upon the recommendation of the Board of Libraries, Laboratories, and Museums, the Trustees have enacted the following provisions, in accordance with which, on and after October 1, the departmental libraries shall be conducted:

1. One person from the teaching staff of each department shall be selected by the head or acting-head of that department and by the president, who shall serve as departmental adviser in all matters pertaining to the management of the library in that department.

2. Each departmental library shall have two attendants who shall be selected from the scholars and fellows of the department, each of whom shall serve the library two hours a day in arranging and cataloguing old and new books and in doing other necessary work under the direction of the University librarian.

3. An Inspector from the library staff shall be chosen whose duty it shall be to inspect each departmental library and to make regularly written reports upon the needs of departments.

The following special regulations have been established:

1. Departmental Libraries shall be closed at 6 o'clock P.M. and shall not be open during the evening, except to those to whom special permission has been granted by the Departmental Adviser.

2. Books may be drawn from a departmental library with the approval of the Head or acting Head of the department interested, provided the request for withdrawal be presented to the attendant in charge during the hours of 4:30 to 6 P.M., and provided the book be returned promptly the following morning before 9:30 A.M. Books may not be drawn or returned at hours other than those specified. A fine of twenty-five cents will be imposed for each failure to return books at the hour designated.

4. These regulations shall govern officers of instruction in the University as well as students.

5. Officers of instruction are requested to make their suggestions and desires with reference to the library through the departmental adviser appointed under these regulations.

NUMBER IV.

TO THE HEADS AND ACTING HEADS OF DEPARTMENTS OF INSTRUCTION:

Attention is called to the recent action of the Board of Libraries, Laboratories, and Museums, ratified by the Board of Trustees, in reference to the relation between the General Library and Departmental Libraries.

The Board of Libraries, Laboratories, and Museums has recommended and the Trustees have adopted the following statement of the relation existing between the General Library and all Departmental Libraries.

It is ordained that the relation between the General Library and Departmental Libraries is identical with that between the several Departmental Libraries.

In accordance with this principle the following regulations are established.

A. OWNERSHIP OF BOOKS.

1. All books now in possession of the General Library are recognized as belonging to that Library. But it is understood that the books of the Berlin collection, and of the Morgan Park collection not yet distributed, are held in trust for the advantage of all divisions of the Library, without preference of one over another. All other books in the General Library are regarded as belonging to it for the purposes of a general reference or circulating library.

2. All books now in possession of the several Departmental Libraries are recognized as belonging to these several Departmental Libraries, except such books as have been loaned to any Departmental Library by the General Library, either from the collection of the Old University of Chicago, or from those purchased by funds specially appropriated to the General Library.

B. LOAN OF BOOKS.

3. Books belonging to the General Library shall be loaned to any Departmental Library on request of the Departmental Adviser, when in the judgment of the Librarian of the General Library they are not needed for the purposes of the General Library.

4. Books thus loaned shall be returned on demand of the General Librarian.

5. Departmental Libraries may deposit with the General Library books temporarily not in use in these libraries to be held in trust for them. Such books will be put into circulation as other books in the General Library unless the Departmental Adviser shall request to the contrary.

6. Books thus held in trust shall be returned to the Departmental Library from which they came on demand of the Departmental Adviser.

C. EXCHANGE AND TRANSFER OF BOOKS.

7. Books belonging to the Berlin collection or to the Morgan Park collection and not already distributed shall be permanently assigned by the General Librarian to any Departmental Library on application of the Departmental Adviser; provided, that if in the judgment of the General Librarian any such application ought not to be granted, the books may be withheld till the next meeting of the Board of Libraries, Laboratories and Museums, and the request be referred to the decision of that Board.

8. The Board of Libraries, Laboratories and Museums shall have the right to recall to the General Library any books granted by the General Librarian to any Departmental Library from the Berlin or Morgan Park collections.

9. Exchange of other books between two Departmental Libraries, or between the General Library and any Departmental Library or transfer of books from one Library to another may be arranged between the representatives of the libraries concerned on such terms as they may agree upon, the General Library being duly informed and recording the transfer.

10. When any Departmental Library presents an order for a large collection of books already owned by another Departmental Library or by the General Library, it shall be the duty of the Librarian to submit the order to the Board of Libraries, Laboratories and Museums for approval.

BY ORDER OF THE PRESIDENT,
Howard B. Grosse,

5. Failure of an instructor to continue the work to the last day of the Quarter, as prescribed by the statutes.

6. Failure of an instructor to secure from undergraduate classes a sufficient amount of work to occupy the time of the student.

1. Instructors are expected to be in their department rooms on the first day of each quarter in order to consult with students during the consultation hours arranged with the Dean. 3. At the opening of the quarter an "Official Class List" will be sent to each instructor from the office of the Dean. This list contains the names of all students who are properly registered for the course. It should be remembered that no student's registration is complete until University fees for the quarter are paid. Students whose names are not on the Official List should not be permitted to attend the class, and their names should be sent to the Dean for investigation. Students whose names are on the list but who do not appear, should be reported promptly to the Dean.

4. All undergraduate classes are examined at the close of each quarter. The last three days of the quarter are assigned for examinations. Examinations for morning classes will be held on three successive mornings; for afternoon classes on three successive afternoons according to the schedule published quarterly in the University Record. These hours may not be changed by the instructor. Requests on the part of students for special examinations out of regular time should be denied, unless written permission has been secured from the Examiner's office.

5. Graduate students may or may not have examinations at the option of the instructor; but when examinations are not offered, instruction will continue to be given until the last day of the quarter. In such cases, the class may be held for its usual exercises during the two hours assigned for the quarterly examination, instead of meeting for one hour on each of the three days. But graduate students attending undergraduate courses must take the regular examinations in these courses, unless excused by the instructor. Students who are to receive Certificates of Graduation or the Bachelor's Degree, may be excused from examination in their final Quarter on the subjects which complete their curriculum, if the classwork in these subjects is of satisfactory grade. Notice will be sent by the University Examiner. If present, classes are taken in the last Quarter before the completion of the work of the Junior or Senior Colleges, no excuse from examination will be granted.

6. Instructors are requested (1) to keep an accurate record of the absences of undergraduate students, commencing with the second day of each course, and to report the same weekly to the Dean; (2) to keep a record of each student's work in each course so that the proper report may be made at its close, and (3) to report to the Dean any unsatisfactory work on the part of undergraduate students. But as a report of unsatisfactory work is acted upon at once by the Deans and Division Officers, it is important that the instructor should call the student's attention to his status before making such reports. (4) Reports of courses must be rendered to the University Examiner on blanks provided for the purpose not later than three days after the close of the Quarter.

7. Instructors are not authorized to grant excuses for absence from class exercises or from examination.

8. In accordance with the vote of each Faculty in the University, instructors are expected to be present at the weekly Chapel Assembly (10:30 A.M.) of that School or College with which their work is connected. If one's work is connected with more than one School or College, he will exercise his choice.

9. The regular meeting of each Faculty is held once a month. It is important that every member attend the meeting of the Faculty to which he belongs. The right of discussion is given every officer of instruction. The right to vote is limited by statute to those who are on appointment of two or more years. The day and hour of meetings of Faculties are announced eight days in advance in the University Record.

10. The last Sunday of each quarter is Baccalaureate Sunday. Instructors are invited to be present in cap and gown at the Baccalaureate prayer service and to join in the procession to the hall in which the Baccalaureate address is to be given.

11. Convocation occurs quarterly on the first day of the quarter. Instructors are expected to be present in cap and gown and to join the Convocation procession and sit upon the platform.

12. The University Congregation meets each quarter at a time announced three weeks beforehand. Officers of instruction, of the rank of instructor and above, are members of the Congregation and are expected to be present. This body is made up of members of all the Faculties and representatives of the alumni, and reviews in detail the actions of the various Faculties.

13. The salaries of instructors are paid, unless otherwise arranged, in twelve payments on the first of the month following the beginning of service. A check for the amount due is sent through the Faculty Exchange.

14. The attention of instructors is invited to the Statutes of the University, established by the Board of Trustees and printed on pages six to ten of the Annual Register.
