PROVISION FOR CHINESE STUDENTS IN AMERICAN UNIVERSITIES.

2. Would proof of equivalent attainments, including a preliminary knowledge of English, be accepted in the case of such students, in lieu of the usual admission requirements or examinations? Yes. There has been liberal in interpreting adm. reg. for all foreign citizens. Some of the adm. reg. are prerequisite to further study not all can be replaced by equivalent attainments elsewhere. I beg to point out that math should be considered as an integral part of the curriculum.

3. What special inducements does your institution offer in the way of scholarships available for Chinese students, or fraternities or societies open to them?

   Chinese students, or fraternities or societies open to them:
   "Respectable Clubs are open to all. University of Chicago has a Chinese Club, and the Chinese students are affiliated with the Chinese Nationalist League. The Chinese students are open to Chinese students and are now open in total at the University of Chicago." The Chinese students are also affiliated with the Student Christian Association. The Chinese students are further open to the Chinese students in the University of Chicago, Chinese Nationalist League.

   Faculties in the way of summer sessions or special courses of study for such students are possible under your plan of organization. The summer quarter in a regular course of study is open to those courses in Chinese. There have been several in many of the courses in Chinese. It is open to any student who wishes to attend any of the regular courses in Chinese. The summer quarter is open for the large number of Japanese and Chinese students and is open for the Chinese. The summer quarter is also open to the Chinese. The summer quarter is open for the Chinese. The summer quarter is open for the Chinese.

4. What would be approximately the annual expense to each student—for tuition? Enter quarter for living expenses? Enter quarter.
6. What residence accommodations could be secured by Chinese students during the terms and during vacation? How are arrangements made for such accommodations? Do the Chinese students receive any special treatment in connection with such arrangements?

7. What special care would be exercised over the welfare of such students? The presence of the Chinese students at your university is a great asset to the American students. How is their welfare provided for? How are Chinese students treated in the dormitories and classrooms? What is the attitude of the students towards Chinese students?

8. Other information that may occur to you bearing upon the subject, including the title of any handbook issued by your institution giving fuller details of interest to Chinese students. The title of this handbook is "The Chinese Student Guide". It is a valuable resource for understanding the Chinese student experience and provides guidance on the cultural and academic aspects of being a Chinese student in the United States.
Department of the Interior,
Bureau of Education, Washington, D. C.

Gentlemen:

In answer to your questionnaire concerning the provision for Chinese students in American Universities, I am able to report the following for the University of Chicago:

I. So far as I have been able to discover from our records of attendance, Chinese students have been in residence at the University as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Students</th>
</tr>
</thead>
<tbody>
<tr>
<td>1892-93</td>

II. In reply to the second question the Examiner for the Colleges makes this statement:—"The University has been liberal in interpreting admission requirements for all foreign students. Since some of the admission requirements are prerequisite to further study, not all can be replaced by "equivalent" attainments in other lines. English, at least one European language, History (English and United States), Mathematics (Algebra and Geometry) should be considered as necessary."

III. The Reynolds Club, an organization like the Houston Club or Pennsylvania and the Harvard Union, is open to Chinese students as to all other members of the University. No Greek letter fraternity has
Dear Mr. Tjokro,

I am writing to convey the following information regarding Chinese students who have attended the University of California during the last seven years.

<table>

I hope this information is of interest to you.

Best regards,

[Signature]
as yet admitted Chinese or Japanese students. Phi Beta Kappa, to which admission is strictly on the basis of scholarship, has included in its membership Mr. John Yinbong Lee. Departmental clubs, such as the Philosophy Club and the English Club, are, of course, open to Chinese as to all other members of the University. Recently a favorite in the chorus of the comic opera produced by the Blackfriars was a young Japanese student. The faculty of the Physics Department included a young Chinese student who took his preparatory work at a University secondary school, Morgan Park Academy, and his college work here at the University. Mr. Y. T. Wang is a docent in Chinese, offering certain elementary courses in that language. All of the Chinese students in the University seem to belong to the Chinese Student Alliance of the Middle West.

IV. The summer quarter is a regular part of the Academic year in our institution. No special provision has been necessary for the large number of Filipino and Japanese who attend during the summer; neither has any special provision been necessary for the Chinese students. When these students have not been prepared in studies prerequisite to college work, they have been able to make up this work in the University High School.

V. Tuition amounts to $40 per quarter; in the Law School, the tuition is $50 per quarter, and in the Medical School it is $60. The estimate of living expenses has given in the various college catalogues, seems to me to be too low. Many difficulties have arisen from students
an act enacting a Chinese or Japanese student's right to enter university by virtue of services rendered or by entrance examination, and providing for the establishment of the Chinese or Japanese student's right to enter university by virtue of services rendered or by entrance examination.

In the opinion of the faculty of the University, the entrance examination for Chinese and Japanese students is not advantageous to the students. Therefore, it is recommended that the entrance examination be abolished and the entrance examination for Chinese and Japanese students be abolished.

In the University, the faculty of the University is very much impressed with the ability of Chinese and Japanese students. Therefore, it is recommended that the entrance examination for Chinese and Japanese students be abolished and the entrance examination for Chinese and Japanese students be abolished.

not being able to keep within bounds of the estimates of these catalogues; this has happened very often not only here, but at other institutions as well. Parents cannot understand why the University allowance when labeled "liberal" is not liberal at all, and very often the student is placed in a very embarrassing situation. This would be particularly true of all foreign students. On the basis of reports to me from some of our Chinese students, I suggest that $500 be allowed for living expenses for the year. A man living carefully can keep within this sum. The Circular entitled "Assistance to Students" explains certain ways in which our Chinese students like others have earned their way through the University.

VI. The dormitories of the University are open to Chinese students. At the present time Middle Divinity House and Charles Hitchcock House have Chinese residents. Some five or six Chinese students attempted to live together in a flat. Because each was too busy, however, to keep house the venture failed. There is no reason why such a scheme cannot be practicable. I know of no prejudice against Chinese students in the neighborhood. I have not investigated the attitude of boarding-house keepers, however, and am not able to give a definite statement. One of the Chinese students reports "No prejudice".

VII. The Chinese students have been assign to a Dean who has oversight of them. Of course, like all other members of the University, they are assigned to a Dean who has oversight of them. The presence of Mr. Lee and Mr. Wang, both above mentioned, will insure proper care of Chi-
not paid price to keep anyone bound to the services of those castles for

ence of this line proceeded with action not only size but action of the

facilities of the West. Parcels cannot be brought with the University

ence more latent importance to the Internat, at all, and many other

the student toypress an added importance of the place to reports of

participate in a way unnecessary. On the point of reports to

me from some or our Chinese students. I suggest that $500 be allowed for

ing experience for the year. A man living entirely can keep with-

in the same way. The Director must be "absence on business" explain the

certainty that we will get our Chinese students. The students have carried

way through the University.

IV. The contribution of the University to the Chinese era

sense. At the present time the Chinese Divinity House and Chinese Museum

essence have Chinese architecture. Some lives of our Chinese students

attending to live together to a life. Becomes even more to pour on

ever, to keep pace to our terms let. There is no reason why such

a Chinese cannot be transported. I know of no picturesque image or

stantly to the watertown. I have not transported the state of

porting Providence. Providence, and we are not able to give a catapult

statement. One of the Chinese students wrote "no preface."

The Chinese students have transportation more of them

ence. Of course, the Wll other measure of the rain, it is very

seating to a Dean and the residence of them. The presence of all. The

say it. And you are going somewhere. Will include proper care of Cattle
nese students in the University of Chicago.

VIII. The Annual Register of the University and various official publications bear on the admission of students. These I am forwarding to you. The Illustrated Bulletin of Information should be of particular interest to prospective students. I am sending also a sketch of the University by Mr. Nott Flint, an alumnus of the University.

An item of interest to those conducting this investigation will be the notice of the Oriental Investigation of the University. Our commissioners are Professor Ernest DeWitt Burton, D. D., Head of the Department of New Testament Literature and Interpretation, a man of unusually broad sympathies and in every way qualified for the important work which he has in hand; the other is Professor Thomas Chowder Chamberlin, Ph. D., LL. D.? S. C. D., Head of the Department of Geology, and President of the American Association for the Advancement of Science. These gentlemen are charged with the investigation of educational, social, political, religious and economic conditions of Oriental countries, with the view of determining how far these countries or the United States may be mutually helpful. Particular attention will be given to the study of China. Professor Burton's itinerary I am enclosing. Professor Chamberlin will leave America about January first and meet Mr. Burton in China.

Sincerely yours,

D. A. Robertson
Secretary to the President

Secretary to the President.
The present Registrar of the University and various authorities, concerned with the development of scholarship, have been approached in order to ascertain the feasibility of introducing a bulletin of information which would be of particular interest to prospective students. As a matter of fact, a section of the University of the North China, as an auxiliary to the University, is not likely to remain an anomaly of the University.
