JAN 14 1920

The President,
The University of Chicago,
Chicago, Ills.

Dear Sir:

During the month of December, Prof. Anton J. Carlson was good enough to assist the Department of Agriculture in a trial of a manufacturer of saccharin at St. Louis. Prof. Carlson performed a most valuable and important public service. It isn't possible to over-estimate the value of his testimony and I wish to take this opportunity to express to you and to the University the Bureau's appreciation of the help it received from Prof. Carlson.

Respectfully,

Chief, Bureau of Chemistry
Department of Agriculture
Washington, D. C.

W. H. H. H.
Chief.
