My dear President Harper:—

I had a conference with Miss Dudley in reference to the swimming matter and I think we can arrange it very nicely so that the women can use the tank on Monday afternoons. I presume that Miss Dudley has written you already in reference to getting some screens made for the girls to use as dressing rooms. She thought that she would need six large screens, simply made and covered with rough material. It would seem to me advisable that the women not use the tank later than 4:30 or 4:45, so that the members of the faculty and the student body could have a late swim in the afternoon. By the arrangement which we talked over the members of the faculty would not be interfered with in any way as to exercising in their gymnasium or in the use of their locker room. I do not favor using the faculty gymnasium or dressing rooms for dressing rooms for the women, as was originally proposed in Dr. Raycroft’s letter.

I had a conference with Miss Dugley in reference to some recent matters and I think we can arrange it very nicely to have the woman come in the morning at 10. I notice the custom you have in reference to the service. The woman who makes up the fireplace to use as a greaseless room.

I therefore think the woman would fix the fireplace for the evening, simply make and serve the burning that is warm. I would mom fix the kitchen.

It would seem to me convenient that the woman not use the small room 1:00 or 2:00 to start the fire in the afternoon. By the arrangement with which we talked over the

I note your letter of May 12th and appreciate the situation. I propose that we try to get in $100 on the winter and $100 on the spring. I think this would come out first rate.

I also note what you say concerning Monday afternoon. I am inclined to think that we would better not limit the women to 4:30 or 4:45. We can afford to let them have the tank one entire afternoon. I am inclined to think that we ought to do this.

It would seem to me that we could very properly plan on helping the band out to the amount of two or three hundred dollars every year, but I do not feel that we are in a position to contribute anything like that amount at the present time. We shall most certainly want all the money we now have and more too to get through our spring expenses. I am willing to embody that amount in the budget of our next years expenses.

My dear President Harper:

As to the result of the adoption of the year rule by the West before it is adopted by the East, I agree with you that temporarily it is likely to give the East an advantage so far as successful teams are concerned; but in the long run I believe that teams will be stronger upon a pure amateur basis. If students, who come primarily for work other than athletic, have a fair chance to get upon the teams, many will compete. Under the present conditions, there is no real competition upon such men. The teams are made up in advance largely of men who have been in one way or other induced to some to the institution upon the basis of their athletic ability. That this last proposition is true, I think a fair investigation will show beyond doubt.

For my own part, I would vastly sooner see the Western teams made up of the best amateur players, and be on a different class from the Eastern teams, made up on the basis of induced athletes. The public will quickly recognize the difference between the two classes. Among ourselves, competition will be fair, and in my opinion this is all the competition that is necessary or reasonable. Although others disagree with me, I never have favored Western teams taking long journeys which keep them away from their work for a considerable time, in order to meet Eastern teams.

It seems to me that there is a great opportunity for the West to become a leader rather than a trailer in athletic affairs. Heretofore it has been the latter. If we have the courage to adopt rules which we believe to be for the good of pure amateur athletics, it seems to me that this will gain us great credit and that very shortly the East will be obliged to follow and thus become the trailer.

It seems as if you're trying to help me by offering a letter to your teacher, which is a letter to them. However, it seems that the letter you're referring to may not be the one I need. What I'm looking for is a letter that I can send to the teacher about my experience in the classroom. The letter should highlight the positives and the negatives, and it should be written in a formal tone. Please ensure that the letter is well-written and clear.

Pres. William R. Harper,
University of Chicago.

My dear President Harper:

I have had an interview with Mr. Schlesinger which amounted in substance to the following:

Before the meeting of the Board of Physical Culture several students, who were not reporters, as he thinks, asked him whether at the approaching meeting of the Board the question of the relation between Michigan, Wisconsin and Chicago would be raised, and asking him further whether he thought anything would arise interfering with the game between Chicago and Michigan. He was quite surprised at the amount of information in the possession of these students with whom he talked -- their knowledge quite exceeding his own. He was not able to give them any information on any of the points raised, but expressed the opinion that nothing would be done to interfere with the Chicago-Michigan game.

Since the meeting of the Board he has not divulged its proceedings to anyone, and was quite surprised at the detailed information found in the newspapers.

Very truly yours,

E.B.R.

E.R. Hulbert.
My dear President Heber:

My name, as you know, is J. P. Weatman, with whom you will be meeting with Dr. E. B. Childs, the President of the University of Chicago.

In reference to the following:

Before the meeting of the Board of Trustees, we will be able to report our findings to you. We have had several discussions, and we are not prepared to go into detail. We understand that the Board has decided to investigate the relation between the University of Chicago and Princeton University.

We have not been able to secure any definite information from either side. We are not able to give you any information on any of the points raised. We will try to present the situation as clearly as possible.

Since the meeting of the Board we have not discussed the suggestions, and we have not reviewed the materials we have in the possession of the University.

Very truly yours,
Mr. R. M. Strong,
Hutchinson Commons,
The University of Chicago.

My dear Mr. Strong:

Will you kindly convey to the football team and the men of the University my congratulations on the splendid showing of our representatives against Michigan last Saturday?

We won something better than victory. We won the reputation of playing the game fair and playing it with all our might to the very end. Furthermore, from all that I can learn we manifested a degree of enthusiasm and College spirit that we have never equaled before. I can see only the brightest promise for the future. To Mr. Stagg, Captain Speik, and all the team therefore, I convey my personal thanks as well as the gratitude of the University. Never did an Alma Mater have more reason to be proud of its sons.

Mr. Haycroft (acting for Mr. Stagg) and I think that we should be in possession of the correspondence which has passed between Mr. Heckman and the Athletic Association of Michigan and Wisconsin, including the legal opinion given by Judge Gray, of the Michigan Law Faculty, before making the final draft of our letter. If you agree, will you not secure them for us from Mr. Heckman?

Our idea is to draw up our statement of the facts, following the line of Mr. Heckman's resolutions, but putting the clauses in the less formidable and more conciliatory form of statements, with a preamble, and a proposal for arbitration at the end. Of course the letter will be submitted to you as soon as we have been able to complete the final draft. With the support of President Van Hise we think that the chances of a favorable reception on the part of Michigan of such a proposal will be better if the facts are put forward in a little less formal way.

Hoping that we may soon have all the material before us, I am

President Harper asks me to say, in response to your inquiry of November 21st, that he considers football not on the whole detrimental to the University as an institution. He realizes that the question as to the effect of football upon the students who participate in it, is somewhat more difficult to answer. It is undeniable that so absorbing an interesting the game is, must withdraw the attention of men to some degree from their studies, but it is the function of the University to develop character as well as learning, and if the sport is properly regulated, it is altogether possible that the gain in manliness, loyalty to one's fellows and to a leader, subordination of self for the success of the group, may compensate and probably do for a loss of scholastic attainment.

In the third place, students are obliged to maintain a passing grade in their work, in order to play upon the team.

My dear Sir:

President Herber asks me to say in response to your inquiry of November 3rd, that the committee appointed to conduct an investigation into the condition of the University does not propose to make its report to the Board of Regents. He realizes that the disposition of such an important matter must be left to the students who participate in it, to come together on their own initiative, and to report to the Board of Regents, by a definite date, as to the results of their own investigation.

Dear Sir:

I have been asked to read a paper upon the subject of Athletics with especial reference to Foot-ball, before the General Faculty of the University of Buffalo, and wish to obtain the opinions of prominent educators upon the following questions:

1 - Do you consider Foot-ball beneficial or detrimental to the University as an institution?

2 - Do you consider Foot-ball detrimental to the students who participate in the games?

3 - Are students required to obtain a certain percentage in their work in order to play upon the team?

4 - Are you personally in favor of Foot-ball as a University athletic game?

An affirmative or negative reply to these questions is all that is asked, but further remarks would be greatly appreciated. Any information that you may give will be considered strictly confidential.

President James B. Angell,
The University of Michigan,
Ann Arbor, Michigan.

My dear President Angell:

The proposal has recently been made that the Universities of Michigan, Wisconsin, and Chicago submit to arbitration the matters of dispute growing out of the collapse of the grand stand in Chicago two years ago, in order that the troublesome case may be brought to a final settlement. I have laid this proposal before our Board of Physical Culture and Athletics, and find its members unanimously in favor of some such procedure. They prefer, however, that an attempt at settlement should first be made by faculty representatives of the three boards of control, believing that in this way, in personal conference, we are most likely to reach an amicable agreement. In case these representatives cannot agree, the conference will be of value in bringing about a formulation, on the part of the representatives of the three institutions, of the points at issue between them, so that the work of a board of arbitration consisting of outsiders or of legal counsel would be facilitated not a little.

Dear President Angell,

Chairman of the Board of Directors,

The University of Michigan

Dear President Angell,

I write to you to express my gratitude for the timely manner in which the Board of Directors has acted upon the suggestions made by me in my letter to you of December 22.

I understand that the University of Michigan has decided to establish a chair of Political Science and Ethics, and I am happy to know that this decision has been made. I hope that the University will be able to attract the best available scholars to fill this position.

I am also pleased to learn that the University will be able to offer a degree in Political Science and Ethics. I believe that this degree will be of great value to the students who wish to pursue careers in politics and government.

I am looking forward to seeing the results of this decision, and I am confident that it will be a great benefit to the University and to the students who will study under the new chair.

Sincerely yours,

[Signature]
I confess that I share the belief that a personal conference of members of the boards which control our athletic relations and are familiar at first hand with such matters is more likely than the other methods to result in an acceptable arrangement. I accordingly make to you the formal proposal that two members of the boards of each institution shall be selected and instructed to meet early in January either at Madison, Ann Arbor, or Chicago; that they shall have authority to enter into an agreement for a settlement of all matters connected with the collapse of seats at the Michigan-Wisconsin game of 1902, such arrangement to be final only when ratified by the appropriate authorities of each institution. I would propose, therefore, as the time of meeting Saturday, January 7th or 14th, and that the place of meeting be determined by Presidents Angell and Van Hise without reference to the University of Chicago.

Yours very truly,

W. R. Harper
I cordially invite you to a meeting of the members of the faculty and the administration to discuss the issues raised in the letter and to take any necessary steps to ensure the best interests of the institution.

I propose that two members of the faculty or some representative of the faculty, together with the chairman of the committee, be requested to meet early in the new year and to report to the Board of Directors on the progress made in the matter of the proposed movement to establish a new institution.

The meeting is scheduled for next week and will be held at 10:00 AM in the board room. All members of the faculty are requested to attend.

My dear President Van Hise:

The proposals for recent years have been that the University of Michigan, Wisconsin, and Chicago support to a appropriation of the University of Chicago two years in order that the contributions of these universities may be of assistance to a full statement of the funds needed in Chicago two years ago, I have long the University of Michigan and the contributions under a plan that would develop the of the University of Michigan and the University of Chicago, and the same procedure. However, however, it is not to be thought of as an attempt to settle any points of controversy but rather to represent the three points of contact between the University of Michigan, the University of Chicago, and the University of Wisconsin. In case these representatives cannot agree, the conference will be of value in providing a report of the recommendations of the three institutions to the points of issue between them. So that the work of a board of appreciation committee of four meetings of the University committee would be facilitated for a little.
I confess that I share the belief that a personal conference of members of the boards which control our athletic relations and are familiar at first hand with such matters is more likely than the other methods to result in an acceptable arrangement. For an Act entitled an act to modify and regulate the game of football in South Dakota.

Be it enacted by the Legislature of the State of South Dakota:

SECTION 1.

Any player in any game of football in South Dakota, whether playing for practice, or in a match game, who shall injure another player, either intentionally or by accident, shall instantly be suspended from playing in that game and shall not again play football either for practice, nor in a match game, for the period of ten days from the date of inflicting such injury upon another player, and any player who shall violate the provisions of this section shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in a sum not exceeding fifty dollars nor less than ten dollars and the costs of the
SECTION 3.

1. Any captain, coach or manager of a football team who shall knowingly permit any player, under suspension, under the provisions of section one of this act, to play in any game of football, or for practice, in any game or practice under the direction or management of such captain, coach or manager, shall be guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not greater than fifty dollars nor less than ten dollars and the costs of the proceedings.

SECTION 4.

1. Any person who shall enter or register in any school, academy or college or university in South Dakota, not in good faith, intending to take the regular course of study in said institution, but for the purpose of taking a part in the football team, or other athletic team of said school, academy or college or university, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not greater than one hundred dollars nor less than fifty dollars.

SECTION 5.

1. Any superintendent, or principal, of any school, or academy in South Dakota, or any president of any college or university who shall permit any person to enter such school, academy, college or university, not in good faith and for the purpose of taking the regular course of study in such school, academy, college or university, but for the purpose of taking part in the football team, or other athletic team of such institution, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in the sum of one hundred dollars.
