To the President

of the Chicago University,

Chicago, Ill.

My dear Sir:-

At the present moment we have an old genuine copy of
the Koran (written) for sale. The price is five thousand dollars.
The owner is a German Count and this copy is a part of the "Majorat."
It is owing to some exceptional circumstances that he is now allowed
to sell it. Kindly let us know whether this interest you and we
shall send you all further details.

Yours very truly,

My dear Sir:-

I very much fear that the University of Chicago does not have funds available for the purchase of the copy of the Koran which you describe in your letter of the 25th ultimo. I am referring your letter, however, to Mr. Hulbert of the Divinity School within whose province the question naturally falls. If his judgment differs from mine he doubtless will communicate with you.

Yours very truly,

Secretary to the President.

Mr. Wm. Harper,

President Chicago University,

Chicago, Ill.

My Dear Mr. Harper:

While on a long trip through Texas, I met an old friend of my boyhood days, Mr. Weaver, who had in his possession a very strange book. It was written during the years 1653-54 by a Minister in Honoton, Eng. It contains 1375 pages and the writing is as legible as when first written. It is a very remarkable book, and was written with great care.

Mr. Weaver purchased this book from a Jewish Rabbi many years ago. The Rabbi secured it from a very ancient Catholic Priest whom the Rabbi said had been excommunicated. To give you an idea of the subjects contained in the book. One letter on Justification covers 117 pages. It would be valuable to some Theological Institute and I thought it would probably interest you.

If you would like to see it, I have it in my office and if you are down in the City Monday or Tuesday, 29th or 30th, if you will drop into my office at #99 Dearborn St., I believe you would enjoy looking over it.

Yours truly,

old and at the British Museum it (i.e., the parchment portion) was pronounced to be of the eleventh or twelfth century. You are doubtless aware of the great rarity of Samaritan manuscripts of any kind in the United States. There is in all probability not another Biblical codex similar to mine in America.

If you would like to secure this one for the University of Chicago, I will be pleased to receive an offer. It will be well to let me hear from you without delay as I am in communication with other parties.

Yours respectfully,

Townshill, S. P., Nov. 17th, 1908

Dear Dr. Harper,

Last spring I purchased in Palestine a copy of the whole Pentateuch written in the Samaritan character on 270 leaves of parchment and 5 leaves of vellum; each page being about 12 1/2 x 10 1/2 inches. It contains the Hebrew text of the Book of Moses, not the versions or Targum. The priest of the Samaritans, in Tiberius Syria, told me that he considered it to be about six hundred years.

To the Librarian of the Univ. of Chicago:

Dear Sir,

I have in my possession an original indenture between Hon. Penn and Joseph Hall, whereby Penn transfers to the said Hall five hundred acres of land in consideration of five shillings. This document is in fine condition and nicely engrossed. The instrument is dated 1682.

Another indenture records the transfer of a parcel of land owned by Abel Jenney to Mahlon Stacey of the Bar of West Jersey in consideration of "five shillings of lawful money of America."

This instrument is dated 1720. Both of the above instruments are whole and perfect, I hold them in behalf of other parties. Now I am.
willing to sell if you desire to buy. If you wish to have the above instruments, make your bid.

Memorandum for President Judson:—

Among the very important books and manuscripts brought to Chicago by Mr. Wilfrid M. Voynich was a large folio containing three geographical manuscripts independent of each other. This volume was purchased. One portion of this, the Brocardus, F., Descriptio seu declaratio Terre Sancte, has been presented by Dr. Frank W. Gunsaulus to the University of Chicago.

Mr. Voynich's description of the manuscript is as follows:

Elephant folio MS. on fine vellum Second half of the 14th century, written in Paris, on eleven leaves. The first page has a fine border in the lower margin illuminated in gold and colors, representing floral ornaments. The intervening spaces are powdered with burnished gold dots. The large initial at the beginning of the text has a background of very

beautifully burnished gold, and is painted in red, blue and white. The tail of the letter, also in burnished gold, is continued down the whole side of the page. There are six other similarly illuminated letters of a smaller size, throughout the MS. for the sectional headings. The seven chapter headings have beautifully written capitals made with the pen in red and blue, and the caligraphic ornaments for paragraph and chapter finishing are likewise beautifully done.

My opinion about the date and place of origin of this MS. is supported by the director of the Bibliothèque Nationale of Paris, who says that the size of the book, the quality of the vellum, and richness of caligraphy and ornaments suggest that this MS. was either made for some royal prince or for some professor at the Sorbonne for his public demonstrations.

Geographical MSS. of the 14th century of such character are of the utmost rarity.

The first separate printed edition of the
book appeared at Venice 1519, but the work was included in a chronicle entitled "Rudimentum novitarum" published in 1475. The author, F. Brocardus, was a German dominican of the 13th century. He died in 1283. His book on Palestine had a great popularity.

Dear Mr. Judson,

The family of the late Dean Hubert desire to turn over to the University a number of volumes or pamphlets of his library to be found in the office of the Divinity School. They have first, however, requested his colleagues in the Divinity School to take any volumes or sets of volumes that they may desire as
a reminder of an old friend.

I presume that the University will send a label, indicating that they are presented from the library of Dean Hulbert, and be put in each volume.

There are also a number of volumes stored at Morgan Park which we expect to hand over to the Scandinavian Theological School there.

The desire to express to you personally and as representing the University our thanks for your kindness in connection with the funeral of Dean Hulbert and the generous adjustment of his financial relations to the University. Fraternally, A. B. E. Wyant

Dear Dr. Judson

The War Office of France has sent to us as its representative in Washington quite a complete number of books and pamphlets in various languages issued or authorised by it relative to the war.

At present there are but two complete sets of these in this country, the one sent by the writer to the Library of Congress the other in her possession.

It is the desire of the writer to present such duplicate copies of the books as are now in her possession to the library of the University of Chicago as a permanent record of the publications of the French War Office to be supplemented from time to time as new books are received in this country.

Will you indicate if these will be acceptable to the University of Chicago?
