Prof. H. H. Donaldson,
Worcester, Mass.

My dear Sir:-

We desire in the first public announcement of the names of the professors in the University concise information concerning degrees and positions held. Will you do me the personal favor to write on the back of the enclosed slip - which will serve as a model - all academic honors beginning with the bachelor's degree and including in chronological order all offices held, with membership in all prominent learned societies, books written and periodicals edited, giving dates in all cases. Be kind enough to make the statement as full as possible. There will be no danger of indicating too many facts. It will be easy for us to cancel those which need to be omitted in order to bring the list into harmony. I venture to hope that you will do this at the earliest possible minute. The enclosed statement concerning Prof. Gildersleeve will, as suggested above, serve as a model.

Hoping that I may have your answer as promptly as possible,

I remain,

Yours truly,

W. R. Harper

Pres. W. R. Harper:

Dear Sir:

I enclose a document

which will reply to your request.

As I believe the title is now available,
I have labelled myself "Prof. of
Neurology".

Sincerely

in which he is engaged and which, after all, is exactly the work we have been trying to do in the Elementary School, under Mr. Dey's supervision. The question of consolidation of the Blaine Institute with the University of Chicago is at the point of decision. One element has come up which I had not expected, namely, a strong apprehension on the part of Colonel Parker favor and I believe it will have such influence in settling what seems to me to be a most important high position who will be disposed to criticise the consolidation and be entirely devoid of sympathy in the matter. Hoping that you will make the statement as strong as you feel inclined to do, and that I am not asking a service which you would not wish to render, I am writing to ask you to prepare at once
