December 5, 1902.

My dear Mr. Vincent:

I am in receipt of your letter of December 2nd concerning Mr. Perlstein, and feel that you have done exactly the right thing.

Yours very truly,

Mr. Kerr & Mr. Vincent:

I am I'mreceipt of your Letter of December 8th, concerning the participation and feel that you have gone exactly the right

Yours very truly,

W.T. Mercer
President Harper,

My Dear President Harper:-

I have informed Mr. Benjamin Perlstein that his connection with the University has ceased.

Mr. Perlstein's case is this. He has never done thoroughly satisfactory work during his connection with the University. Last Spring he was guilty of questionable methods in one of his courses. This was submitted to the Committee on Discipline, before whom an appeal was made on the plea of extenuating circumstances. Mr. Perlstein's father has made a personal plea in his behalf, and has shown the greatest anxiety to have his son continue his University work. The Committee, however, agreed to recommend that unless Perlstein could do satisfactory work for the first three weeks of the Autumn Quarter, that his connection with the University should cease. At the end of three weeks, Perlstein was reported as doing unsatisfactory work, but the time was extended for another three weeks, with the understanding that if he failed then to maintain his courses, he would withdraw. At the end of six weeks, he was again reported deficient. One instructor reported that Perlstein was evidently doing his best, but was quite hopeless.

In view of these circumstances, it has seemed best to carry out the arrangement made last Summer Quarter.

I think it has been demonstrated that Perlstein is incapable of doing really successful University work. I think it would be an injustice to him, a waste of his time, and a permanent injury to his career in life, to keep on in a sort of work for which he has no
Dear President Harner:

I have informed Dr. Perryman that the University has ceased cooperation with the University Press. He had never come to my office, and since his retirement, work with the University Press has been suspended. I regret to inform you of Dr. Perryman's passing recently to his family and former colleagues. I am informed that he passed away peacefully and that a memorial service will be held at a later date.

The Committee, however, is eager to recommend that this letter of cooperation with the University Press be终止ed. If we meet the request for work during the year, our best wishes to complete the remaining work as efficiently as possible. At the end of this week, I propose to report the pending work, and I will submit a report to the President for his consideration.

At the end of six weeks, I hope we will be in a position to submit the manuscript for publication. It is important to note that our work will be completed in a timely manner. I hope this letter is to your satisfaction.

In view of these circumstances, it is my recommendation that the University Press be terminated at the earliest convenience.

I think it is best to keep this communication confidential, and I hope you agree with this approach.

Sincerely,
[Signature]
real capacity and aptitude. He has doubtless ability in some direction, and it should be his business and that of his father to discover what sort of services he is capable of rendering, and to put himself as soon as possible in the way of getting at such work. I think that Mr. Perlstein's withdrawal from the University should not be regarded as a dishonor. The simple facts should be faced, and the wisdom of his undertaking some other sort of work should be recognized.

Yours sincerely,

[Signature]

Dean.

CHICAGO

Dear colleagues and participants,

We hope you are finding the time to some

rest and relaxation during this conference and are enjoying the
city that is home to one of the most prestigious universities in the

world. I hope you are able to make the most of your stay and

enjoy the beautiful weather.

In the meantime, I look forward to seeing you at the upcoming

research sessions.

Sincerely,

[Signature]

Dean
My dear Mr. Vincent:

Please notify Benjamin Perlstein that his connection with the University is terminated. Write his father as nice a letter as you can, or perhaps better, write a letter which I can send to his father. This will save a little time for his father will probably write to me.

Yours very truly,
Mr. Judson,

My Dear Mr. Judson:-

The inclosed letter from Professor Coulter bears upon the case of Benj. Perlstein. The understanding was that unless he brought his work up to grade at the end of six weeks, he would withdraw from the University. I think it has been clearly demonstrated that he should not make any further attempt to continue his University course. He has been given more than the promised opportunity to show what he can do. His father feels badly, and is most anxious that he be permitted to continue, but there can be no permanent good to the boy or to the University from any further relaxation of the stipulated arrangement.

Yours sincerely,

George E. Vincent.
Dean.

---

Also, I inc. Mail. Please recommend that the action of the Junior College faculty must take effect, and that Perlstein be notified that he shall withdraw.
CHICAGO
Nov. 18, 1906.

Mr. President:

The faculty letter from Professor Cooper
prescribes the case of Prof. Perkett's. The recommendation was that
we recommend to the President, and to the Faculty, that he be allowed to
continue his work as a member of the faculty, with the proviso that
he must leave the University. I think it has been carefully
established that this provision not make any further attempts to continue
the University course. He has been given more than the possibility
of the University course. He has been given more than the possibility
of an opportunity to show what he can do. The President feels that it
may be best to continue as before, not to permit to continue, but there can be no
permanent record of the University course.

Yours sincerely,

Dean.
November 14, 1902.

Dear Mr. Vincent:-

Benjamin Perlstein, a junior student in Botany, has been reported twice as unsatisfactory. I write to say that he has improved decidedly in his work, but there is little hope of his being able to complete it this quarter. I am confident he is doing his best, but his best is very poor.

Yours truly,

John M. Coulter

Dean Vincent,
The University.
Dear Mr. Vincent:

Benjamin Perles, a junior student in Botany, has been required to come to an understand of the material. I write to say that he has improved considerably in his work, but there is still a little hope of the patient's recovery to complete all his studies. I am confident in his ability to complete his course.

Yours truly,

[Signature]

Dear Vincent,

The University
June 26th, 1905.

Mr. William P. Lord,

Salem, Oregon.

My dear Sir:--

It is due to your son to make a statement in regard to the circumstances of his dismissal from the University Academy at Morgan Park. We cannot clear him of all blame because there are many points in his record that are not satisfactory. His standing in his studies was very low, so low that it was altogether proper to infer that he was deriving no benefit from his course. At the same time I am quite willing to admit that it was premature on the part of the officers of the Academy to dismiss him in the midst of his examinations for the Winter Quarter when his standing for the second term could not be known. If action had been deferred until reports from the examinations had come in, the same course would probably have been necessary, but the boy would have had the chance which they offered.

Probably now, under all the circumstances, it will not be best for him to return to Morgan Park.
June 29th, 1909

Mr. William J. Ford,

State, Oregon

My dear Sirs:

It is due to your own zeal to make a statement in

regard to the circumstances of the dismissal from the
University Academy at Woman Park. We cannot offer him
of all things because there are many points in his lea-
ning that are not satisfactory. His attachment to the

mission was very firm, so far as it was together

brother to him, that he was endeavoring to perfect him-

some. At the same time I am quite willing to assist

that it was premature on the part of the authorities of the
Academy to dismiss him in the midst of the examination
for the Winter Quarter, when he remaining for the second
term cannot be known. It cannot be known until reports from the examination have come in.

the same course would properly have been necessary, but the

for would have had the chance which they offered,

It will not be past for him to return to Woman Park.

If in the fall he desires to take up his studies we shall be very glad to have him enter the University High School which is situated near the University and offers, in every respect, facilities equal to those at Morgan Park. Mr. Owen, the Dean, is a man who takes a keen interest in boys and will, I am sure, give your son every chance to set himself right. We want to see him make a good name for himself and the conditions at the University High School will be as favorable as any that could be found anywhere.

Yours very truly,

H. P. Judson
Dear Editor of Rocky or What Ever Be Your Name:

I appreciate your offer to come and see you, but at the moment I cannot make the trip. I am writing to express my concern about the recent events in our community. I have been following the developments closely and am disturbed by what I have read and heard.

I cannot speak for others, but I am committed to doing my part to promote peace and understanding among all of us. I believe that education is key to achieving this goal, and I urge our leaders to prioritize investment in our schools and universities. Only through learning and dialogue can we hope to bridge the gaps that divide us.

I would welcome the opportunity to discuss these matters with you further. Please let me know if you are available for a meeting.

Sincerely,

[Signature]
Sept. 12, 1916

President Judson

Dear Sir:

I have been informed from the medical school that I will be refused further registration in the medical courses due to my not making high enough grades during the past year. I have been an A-student during my first two years of premedical work, and due to unusual hardships during the past year, my work has not kept up to the standard. Inasmuch as I am now in better financial
Conditions I am certain that if I am given the opportunity to continue next year I will again reach my standard.

I have been recommended to another school by Dean Godson, but to make this change would mean the loss of time to me, and I am desirous of continuing at Rush.

Therefore, in view of the above facts, I appeal to you to use your influence in giving me another trial at the university.
where I have for three years honestly pursued my studies, both evidently during the past year with out success. Let me promise the medical faculty to whom I wish you would submit this letter, that I will without fail reach my standard again. I know that the medical school is overcrowded and the best ones only are kept, but I am sure if given another chance I will be one of the few, whom will be ranked as the highest.
Kindly give this matter your early attention, and thanking you in advance for this favor, remain
Yours very sincerely
Elmer H. Aschenbren
1647 N. California
September 23, 1916

My dear President Judson:

The case of Mr. Ascherman, whose letter I am returning, is one of a delinquent but not very capable student—at least in the medical courses,—and one which has been very carefully considered by the Committee on Promotions.

It was voted in April that he be refused further registration at the end of the Spring Quarter and in July, with his record for the Spring Quarter before the Committee, this action was confirmed.

Mr. Ascherman and his father have been very persistent in their determination to secure his readmission, but I have explained to them very fully that the action was taken after very careful deliberation by the full Committee and that it is useless for them to seek reconsideration.

I would suggest that you reply to Mr. Ascherman that you have inquired into his status and that no reconsideration of the action taken can be had.

Yours truly,

Dean
September 30, 1918

The Dean of the University:

I am writing to request an appointment, if not an interview, to discuss the matter of my application for a position as an instructor in the Department of Sociology and one which has been very interesting to me-

It has been my desire to apply for a position in the Department of Sociology, and I have been on the committee for the past year. My application did not receive the attention it deserves, but I have asked the Committee to reconsider the matter, and I am now asking for another appointment to discuss the situation.

I have had experience in the field of sociology and I feel very strongly about the necessity for the position. I am ready to explain to you the reasons for my application and I am willing to answer any questions you may have. I am looking forward to the opportunity to discuss this matter with you.

Yours truly,
