ERNST LUDWIG FREIHERR von WOLZOGEN

was born in Breslau, Germany, on April 23rd 1855 and studied in Strassburg and Leipzig, Philosophy, Archaeology, German Literature and Art history. After spending four years at the Court of Weimar, where he came in close contact with Franz Liszt, Freiherr von Wolzogen took up his residence in Berlin, Munich and again in Berlin, from where he moved to Darmstadt in 1905.

Freiherr von Wolzogen has distinguished himself as the author of a great number of novels, comedies, essays, poems and translations, among which his novels "Der Kraftmayer" and "Das dritte Geschlecht" have been translated into nearly all modern languages and have enjoyed more than twenty editions.

In his poetical productions von Wolzogen represents a sound and strongly humorous realism, and during the literary struggles of the eighties he has decidedly fought for the modern course.

At his lecture on December 5th Freiherr von Wolzogen will be assisted by his wife, Baroness Elsa Laura von Wolzogen, who is known as one of the most talented and versatile interpreters of the German Folk-Song.

Honorable Harry Pratt Judson
President of the University of Chicago

Dear Mr. President:

At the conclusion of Professor H. Kraeger's lectures at the University of Chicago I thank you very heartily for the kind support you have shown him on many occasions as well as today by the honorable mention of his work at the Convocation, where your Honor received to my greatest enjoyment a so well deserved ovation.

Your words of recognition of the idea of exchanging Professors between our nations will be a new stimulus for me to continue this endeavor. Therefore it would be of the greatest value to know what special topic would be of interest for the University, that I will try to arouse the interest of my "German" friends, in order to carry out your wishes. There is a movement on the way to found here at Chicago a Germanistic Society like the ones in Boston and New York, where Professor Butler is President. In the moment that there is a probability of success, you will hear from me.

With highest esteem I am, dear Mr. President
sincerely yours

Professor President:

At the conclusion of Professor Knessel's tenure at the University of Chicago, I express my profound gratitude for your kind support. The work of the Committee on the Panorama of the University has been made possible through your generous provision of funds, and the work of the Committee has been greatly facilitated by your cooperation.

I am aware of the importance of the work of the Committee and the need for its continuation. I am also aware of the financial strain that it places on the University, and I am grateful for the assistance that you have given.

Your words of recognition at the close of the semester are a welcome reminder of the importance of the work of the Committee. I am confident that the efforts of the Committee will be rewarded by the establishment of a Panorama of the University.

I am honored to have been associated with the work of the Committee and I look forward to the opportunity of continuing in this capacity.

With highest esteem for your continued support,

Respectfully yours,
April 20, 1907.

Dear Sir:

Your favor of the 17th inst. is received. I shall be glad in a few days to send you a brief statement bearing on the subject of the interchange of professors between Germany and the United States. This is a matter in which I am greatly interested and which has already assumed quite definite shape in the University of Chicago.

I thank you for your suggestion and shall be glad to avail myself of your kind offer.

Very truly yours,

Dear Sir:

The plan of the interchange of professors between Germany and the United States is very interesting in its purpose and in its results thus far. Of course it is not supposed that such interchange takes the place of regular and continuous work of the universities in the two countries. This, however, is true. On each side of the water there is an impression as to the intellectual and social character of the other country which is at considerable variance with truth. Many prejudices are based on national misunderstandings; even scholarship is apt to become narrow by reason of lack of contact with the broad things of the world. Science has no national bounds and the republic of letters includes the people of all lands. The purpose of the interchange of professors is to give to the thoughtful people of each nation an opportunity of understanding the qualities and modes of thought of the other. Incidentally the professor may bring a special message from the scholarship of his own country to the scholarship of the country which he is visiting. In The University of Chicago we have thus far been favored by a professor of history and a professor of the history of art in Germany. Thier

Dear Sir:

The plan of the International of Professors between Germany and the United States is very interesting in its purpose and in its results thus far. Of course it is not surprising that such interests take the place of regular and continuous work of the universities in the two countries. This, however, is true of each city of the water trade as an importation or the free intercourse and social intercourse of the other country. Which is an everlasting advantage with truth. Many institutions are passed on national sentiment and feeling of the people or of the world with the profound feeling of the whole. The purpose of the International or the American is to give to the professorial people of each nation an opportunity of expressing the difficulties and opposition of the other. Importance in the other.

Least may print a special message from the professors of the university of Chicago to the university of Oxford and a professor of the faculty of art in Germany.
lectures have been exceedingly interesting and their personality highly appreciated. Our own professor and head of the department of Political Economy gave lectures in Berlin and elsewhere in Germany a year ago which, I think, were calculated to give the people of Germany a clearer understanding of some economic and industrial matters and ideas of our own country.

The whole plan is in the line of closer international intercourse. Everything is done to this end and must make our knowledge more exact and must broaden our sympathies and will tend to make the world what it ought to be,—a fellowship of free nations.

Dear Sir:—

The question of exchanging professors between German and American universities has become a vital one. Also is the public, especially the German-American public, taking much interest in the many visiting scholars from Germany. We think the time has come to give this question a thorough discussion in order to make the public realize the benefits it can derive by it and also appreciate the whole enterprise more fully. We therefore, wish to offer our journal as a medium for that discussion, and we invite your kind contribution in the same. Whatever you have to say about the principles of this educational movement and of the intellectual and cultural results that ought to be realized for the benefit of the country at large, and especially for the educated class of Americans, we would be glad to have you express your thoughts upon this subject for the public, through "DIE GLOCKE" of which we have mailed you a copy.

We are addressing all the gentlemen who are supposedly interested on account of their university connection as well as those gentlemen who have acted as visiting or exchange professors, and we hope it be of valuable service to the growing circle of our readers if we can encourage a fair and broad discussion of this subject.

Thanking you in advance, we remain,

To All Members of the Faculties:

In accordance with the plan of exchange of professors between the Prussian Government and the University of Chicago, Professor John M. Manly will lecture during the winter quarter in the University of Göttingen, and Professor Ernst Daenell of the University of Kiel will lecture during the current quarter at the University of Chicago. Professor Daenell's subject is, "The Commercial and Colonial Policy of the European Powers from the Sixteenth Century until the Present." The first lecture will be held in Cobb Lecture Hall Tuesday, October 6th, at twelve o'clock.

As an expression of courtesy on the part of the University it is expressly desirable that as many as possible of the Faculty should be present on that occasion.

Very truly yours,

HARRY PRATT JUDSON,

Dear Dr. Wever:

Your favor of April 1st with enclosures was duly received. I have examined carefully your draft and that I think covers the ground completely. I have sent Professor Cutting his copy and will retain my own. It will be desirable soon I think to have a conference on this subject. Perhaps we can arrange it some day next week. I shall be out of the city on Thursday and Friday of this week and on my return, with your consent, will try to arrange for a date.

With regard to Professor Chamberlin, I am sorry to say that he does not feel able to use the German language sufficiently well for the purpose. I must make another study of the situation. I will try to be prepared with a suggestion when we confer.

In the month of June you send me a suggestion of invi-

Mr. F. W. Parker called with force right a very important

On account of this fact I postponed Schultze. Imlay is extraordinary but I think, he will not have to wait long for the dedication.

I hope that I will meet Prof. Mainly at the Reception of the Commencement.

My dear Dr. Weaver:

I was called from the city for several days to attend a funeral in the east, and have just returned, finding your favor of the 15th inst. The cable seems to make the arrangements with Mr. Manly satisfactory. I note what you say about Professor von Schultze. Of course we can hold that matter in reserve. It's a little disappointing that Duvall is only Professor extraordinarius. It had not occurred to me at the time of our first conversation, as I assumed of course he would be what we call a full professor. Otherwise I might have hesitated about making the arrangement with Manly, who is one of our professors of the highest rank. Dr. Clemens has been invited on recommendation of our Theological Faculty.

Looking forward to seeing you next week, I am,

Very truly yours,

Dr. Walther Weaver,

Mr. Captain Wood:

I have called from the city for repairs.

I have to make a remark to the point and have just returned to the apartment at the Institute where I keep the papers for you. I hope your letter of the 12th instant will have arrived with Mr. Gehrla's assistance by the steamer from New York. Of course, we can only guess what you will say to this. It is a little disappointing for me to know that the only proposition of acceptance was not accepted. I am anxious to come to an understanding as I am sure of coming to an understanding of the terms of contract, the whole being a matter of negotiation. Otherwise I might have been able to make the arrangement with Gehrla and to one of our propositions of the highest rank. I hope I can be of any assistance on the matter.

I am looking forward to seeing you next week.

Dear President Judson,

The Germanic Society of Chicago wishes to meet its obligation in the matter of Professor Muhl's salary. May it not deal directly with the University of Chicago in this matter, asking the University to adjust the relationship with Mr. Muhl? I have suggested this to our Secretary Mr. Gruezel, and should greatly appreciate a word from you that I may report to him.

Yours very truly,

essor Henry.

With faith and love,
My dear President Judson:

Acknowledging the receipt of your letters of November the tenth and accompanying correspondence, I beg to state that they have been attended to as requested. In answer to Mr. Karpinski's letter referring to Dr. Bard, I have informed him that the Germanistic Society has completed all its arrangements for lectures up to February 1910, and that for this reason it will be impossible to accommodate Dr. Bard. I believe that the Germanistic Society should not be made an experimental field for unknown lecturers, but that only the very best of talent, recommended by people whose judgement can be relied upon, should be invited. Hoping that my view in this matter may meet with your approval, I remain.

Yours very truly,

Dear President Johnson:

Returning the copy of the Germania letter which I sent the other day, I have been requested to call your attention to the fact that the Germania Society cannot be held responsible for the contents of the letter. I have no reason to believe that the statements referred to in the letter are true. I am afraid that the statements refer to matters of no importance to the Germania Society.

I believe that the Germania Society should not be made a party to such a statement of fact. I write only to call your attention to the possibility of the matter being brought to your notice. I am sure that you will act wisely in this matter. With your approval, I remain,

My dear President JUDSON.

Since months I had the intention to tell you and Mr. Judson about Naples, our life here and how we miss Chicago—but why always complain and why not observe the good American sentence: Make the best of it. Our life here is quite different from that in Chicago: first because here is a great German Colony, whose leader I am through position. But these social functions are not of great interest—on the other side have many good side because here are many cultured Germans, very nice German ladies and specially delightful young girls. My real work does not appeal to me very much, at least no until to-day.

To-morrow is American day: "Colonel" Roosevelt will

Hon. Harry Pratt Judson
Chicago
arrive - if it is possible, I will see my colleague of
L L D Chicago. When Mrs Roosevelt passed we had a very
good day with her.

The news of my daughter - your pupil - are very sa-
tisfactory, we hope very much to have her here in July-
especially Mrs Wever enjoys the idea to have our children
soon with us. Our suffering daughter will arrive next
week and our boy, who did not agree with the German school
goes here to a German School since to-day.
The German school brings my thoughts to the German Univer-
sities. It is a pity that you never went to Berlin and
Geheimrat Schmid from the Kulturministerium never came to
Chicago. I believe you two had only to see each other to
find a way of communicating your ideas which would make
far better and far more reaching plans and projects I ever
made and will certainly make now. But if I can be of any
use in receiving and sending of projects I would be very
glad, until you two come to a direct correspondence. How
was Prof. Manly pleased in Goettingen and is there any
outlook for continuing the relations between U. of C
and Goettingen?
I personally have the feeling that the nearer relations between these two Universities would be of value to the two—and what I can do to foster these relations I would do only with too great pleasure, being an old schoolfriend of Schmidt and an old admirer of you. I could imagine that without personal acquaintance it would be rather inconvenient for everyone of you two to write to the other, not knowing his ideas and not wishing a refusal. Let me be the Schadchen the Jews always have to arrange a good marriage—till you two fall in love with each other. Naples is not so far out of the way that my interference would be an obstacle.

With all my respect to Mrs. Jacob,
and greetings from house to house.

I remain sincerely your obedient friend

My dear Dr. Weber:

Your kind favor of the 1st of April was duly received. I intended to answer it long since, and with my own pen, but a multiplicity of engagements have intervened and caused it to be laid aside on my desk. I am much interested in your account of the life in Naples. Wish you could be with us a fortnight hence when the daughter will take her bachelor's degree. Germanistic Society matters are getting in shape and I think things will go on. Professor Manly had a very pleasant time in Göttingen and we are hoping to be able to have one of the Göttingen professors with us next year. I wish I could meet Geheimrat Schmidt. I do not know now when I shall find myself abroad, but when I do I shall hope to take up some of these matters in quite a definite way. As soon as things are settled as to the Germanistic Society, and particularly as to the exchange, I will write again and give you details.

Your kind letter of the 1st of April was duly received, and I intended to answer it long since, and with my own hand, but a multiplicity of engagements have interposed and caused me to fall silent on my part. I am much interested in your account of the life in its relative worth, and your conduct is worthy of a note.

Next home, when the summer was past, the peculier will care for people's gardens and treasures in society with a pleasant smile and I think generous in spirit. Mr. Henry had a very pleasant time in Cahirwood and we were hoping to do more to cause one of the Germanic Societies to meet with us next year. I hope I shall meet your dear friend. As soon as possible I shall write again and give you my best regards and the best regards to Mr. Warren.

My dear Mr. President:

I have just received a letter from Professor Morsbach inquiring in regard to the arrangements for the exchange professorship. The Cultus Ministerium is ready to give him leave of absence for the winter semester (October till April) of the coming year, in case we are ready to extend an invitation to him. I sincerely hope that this can be done and that it will be done at once. It is very necessary, of course, that we should give timely notice to any German professor whom we wish to invite, in order that he may be able to make arrangements for the conduct of his work during his absence.

It would be especially desirable and beneficial to the University if Professor Morsbach could be invited for the autumn or autumn and winter quarters. I have been teaching continuously since the beginning of the summer quarter and shall be in residence during the coming summer also. I had intended to go on without a vacation until April of next year, but the work this year has been very heavy and it does not seem to me wise to postpone my vacation so long. I have therefore proposed to take a vacation during the coming autumn quarter. Professor Morsbach's courses in Middle English and the History of the English Language would be valuable at any time but would be of especial importance to us to fill in the gap occasioned by my absence during the autumn. If, therefore, it is at all possible to do so, I hope that arrangements will be made for sending an early invitation to Professor Morsbach through the Cultus Ministerium.

Sincerely yours,

I have your letter with an enclosure from Mr. Manly concerning the possibility of securing the presence of Professor Morsbach in the English department for the coming Autumn Quarter. I shall be glad to discuss the matter with you at almost any time you may designate. I am sure, however, that the Germanistic Society will not be ready to join in calling an exchange professor from Germany for the year 1910--11. We hope to be able to do that the following year. My dear Mr. President:-

As I understand the matter, the only expense on our part connected with the exchange of professors is the provision of $500. for the traveling expenses of the man who goes as our representative. You are right in your understanding that I received no stipend from the University of Göttingen; and as I understand the matter, no payment was made by the University of Chicago to Professor Daenell. All that is involved, therefore, is that we shall pay the expenses of our representative and send the invitation to the Cultus Ministerium. I greatly hope that provision can be made for the coming of Professor Morsbach and that I may have an early reply. As I stated in my previous letter, it is absolutely necessary that he should know at once whether he is to come or not in order that provision may be made for carrying on his work during his absence. No professor in a German university can leave his work without a much longer notice than is necessary with us. If we are to get good men, we must act early. Morsbach is one of the best & is really desirous to come if the matter can be arranged. Sincerely yours,

Dear Sir:—

In connection with arranging our foreign lectures for next year, I would be exceedingly glad to know of any lecturers whom you are expecting from abroad and who might be available if desired for one or two lectures at Yale.

It may be of some service to you to know that we are expecting Professor Verworn of Göttingen and Dr. Arrhenius of Stockholm as Silliman lecturers next winter.

Very truly yours,

Dear Sir:

In connection with preparing our together lecture for next year, I would be exceedingly glad to know of any requests you will make to me of the type of lecture you expect to give from 7 to 8 o'clock in the evening for one of two functions at Yale.

I may be of some service to you to know that we expect the President's Weekly or University cars, and Professor of Sociology, as still in reserve for next year.

Very truly yours,

Dear Mr. Stokes:-

Your favor of the 31st of May is received. The only plans as yet practically completed are with Professor Horsbach of Göttingen. The details are not wholly in hand. I shall be glad if Professor Horsbach might be invited to give a lecture or two at Yale while he is in this country. As you of course know, he is a very eminent English scholar, and speaks English quite fluently.

Very truly yours,

Dear Mr. Spencer:

Your favor of June 9th of May is received. The only plans as yet practicably considered were with Professor I. W. Gropper of Chattanooga. The latter was not worthy to hear of until after he had been here. It is possible that Professor Gropper might be invited to give a lecture at two or three times to the same period of the academic year. As soon as something know to be a very eminent English scholar and able speaker is known.

The Department of Education,

Berlin, Germany.

During the winter semester last the University of Chicago sent to the University of Göttingen on request of that institution Professor John H. Manly, Head of the Department of English in the University of Chicago, as Exchange Professor. Professor Manly lectured during that semester, and I understand that his lectures were received with satisfaction. He met with great courtesy, and found his winter in Göttingen very interesting. The University of Chicago would be greatly pleased if the Cultus Ministerium should approve in return the sending of Professor Dr. Lorenz Morsbach of the University of Göttingen to lecture at the University of Chicago during the coming autumn quarter. I understand that this would be agreeable to Professor Morsbach, and that arrangements would be practicable on the part of the University of Göttingen. May I add personally

that as President of the University, and also as President of the
Germanistic Society of Chicago, I take great interest in this
exchange, which now for several years has been carried on as between
the University of Chicago and various German institutions. The
mutual understanding of the two countries, so much desired by all
here who are interested in Germany, has been fostered in a marked
degree. The Germanistic Society, comprising equal numbers of those
of American and of German birth, has been an influential factor in
producing these results, and bids fair, I am sure, to be of further
service to this excellent cause.

Trusting that the Ministry may accord with the suggestion
which on behalf of the University I take the liberty of making, I am,

Very truly yours,

President.
I am pleased to report to the University and also the Germanic Society of Chicago. I take great interest in the work of the University of Chicago and admire German institutions. I am much impressed with the two countries as much Germany as the United States and have been fortunate in being able to travel in America and Germany prior to my arrival in this country. The Germanic Society, containing some parts of those who are interested in Germanic studies, has been an influential factor in promoting these interests and more than I am aware to do so.

Sincerely yours,

To the President of the University of Chicago,

My dear Sir:—

You are undoubtedly familiar with the fact that the German Government has opened an Institut devoted to the furthering of the cultural relations between Germany and the United States. The Institut, which is situated in the new building of the Royal Library, is called the Amerika-Institut; it is under the control of the Ministry of Public Instruction. I have been invited to organize the Institut, and in honorary capacity to be the Director of it during its first year, during which I am to stay as Harvard Exchange Professor at the University of Berlin.

The work has just been started, and you will soon receive documents which give full account of its various plans and purposes.

You will see from them that a large part of the functions of the Institut refer to education and scholarship, and it is essential for the usefulness of the Institut, that it enter into intimate contact with the American universities. In this preparatory stage of the work, I therefore beg you to furnish the Amerika-Institut
To the President of the University of Chicago:

My dear Sir,—

You are, no doubt, apprised of the fact that the German Government has opened an Institute of German-American Studies in Berlin, a most important step in the development of the dull and the United States. The Institute, which is attached to the German-American Institute, is under the control of the Ministry of Public Instruction. I have been informed by Mr. A., president of the Institute, and in honor of this country to be represented by that able scholar, that it is the object of the Institute to carry on the work of the first Berlin school, and you will soon receive an exchange of notes of the various branches of science, and the humanities.

I am pleased to learn that a large part of the funds have been raised by the students and the faculty of the University. The Institute is to be under the control of the German-American Institute, and it is expected that the students will be able to make frequent visits to the different branches of the American Institute. To this end, I am sure you will do your best to promote the work.
of the German Government with the fullest possible material of printed documents referring to the activities of the University of Chicago. In the first place, of course we need last year's catalogue and presidential reports, with the departmental pamphlets and their announcements. But any other publications which refer to the development of the institution, and to its opportunities, or which indicate the educational or scholarly work, would be of great assistance in the official library of the Institut.

As a matter of course, the Institut hopes soon to be serviceable to the American institutions and to the American students and scholars themselves, but we can enter into definite propositions only after completing the foundations, which may still take some weeks. Our address is the Amerika-Institut, Universitätstrasse 7, Berlin N. W.

My dear Mr. Guenzel:—

I do not know what progress you have made in planning for lectures of the Society. We have with us at present the exchange professor, Prof. Dr. Lovenz Morsbach of the University of Göttingen. He is a very charming man, and I am sure would be glad to give one or more lectures in the course downtown. He has his son with him, who is entered as a student at the University.

We have also on another arrangement Prof. Dr. Eugen Oberhummer, of the University of Vienna, who will be with us until early in November. If you are planning to begin the series before that time it might be well to have him give one of the lectures.

My dear Mr. General:

I do not know what programme you have made to plan for or lecture at the Society. We have work at present for exchange professor, Prof. Dr. Karasek, who is a very competent man and I am sure would be glad to give one or more lectures to the course government. He has been with him who is entering as a student at the University of Prague, who will go with us until early in November. If you are planning to begin the course before that time it might be well to have me give one of the lectures.

His Excellency the Minister of Education,

Berlin, Germany.

Your esteemed favor of the 17th of August last has been received. It gives the University of Chicago great pleasure to learn of the action of the Department in Berlin, in permitting Professor Morabach to accept the invitation of the University. He has arrived, and is giving lectures acceptably during the present autumn in the Department of the English Language and Literature.

Your very interesting recommendation, on behalf of the University of Göttingen, of a visit in 1911-12 by our Professor Michelson will be considered carefully. If the arrangement proves practicable I am sure that the University of Chicago will be glad to give leave of absence to our distinguished Professor Michelson.
The exchange which for some years past has been carried on between the University of Chicago and the Germanistic Society of Chicago on the one hand, and the field of German scholarship on the other, has, I believe, been of decided advantage in this country to the better understanding of German achievements and character, especially in the field of education and science. The Society is an active force in this city, comprising in its membership those of American and of German birth, and continuing a series of important lectures throughout the winter, part in the English language, and part in German. In this work the University cordially sympathizes, and we wish to do all in our power toward the better knowledge, reciprocally, of the two countries.

With high esteem, I am,

Very truly yours,

President.
The experience which you have recently passed has been curiously
on between the University of Chicago and the Germanic Society
of Chicago on the one hand and the faculty of Germanic languages
on the other, and I believe it to have been a happy moment in this
connection to the better understanding of Germanic sciences and
languages, especially in the field of philology and science.

The Society is an active force in this city, combining in its
membership those of America and of German birth, and continuing
a series of important lectures throughout the winter, part in the
British Library, and part in Germany. In this work the University
considers itself to be in, and we wish to get as far in our power towards
the better knowledge, acquaintance, of the two countries.

President Harry Pratt Judson,
University of Chicago.

Dear Mr. President:

In order to confirm the impression which I had in regard to the exchange professorship, I examined my correspondence with Professor Morsbach and find unmistakable evidence that his understanding of the matter is the same as ours, namely, that we have no financial obligations towards the man who comes to us but are concerned financially only with the representative who goes from us.

I have thought a good deal in regard to the invitation to Professor Michelson of which you spoke and it seems to me very desirable for many reasons that the invitation should be accepted and that Professor Michelson should go to Göttingen. The reasons are so numerous and some of them so much involved with German educational politics that I hesitate to undertake to put them in a letter; but I feel they are valid and I should be glad to talk with you about them upon my return to Chicago. Our interview the other day was so hasty that I did not feel like entering upon these matters.

Yours very truly,

Dear Mr. Guenzel:

Would April 7th and 14th - two dates - be advisable for lectures by Professor Bezold, as in accordance with our previous correspondence? Your note of the 11th of September spoke about one lecture. The subject, you will remember, is "The Art of the Ancient Orient." He is a very well known Oriental scholar, and I am sure that his lectures will be extremely interesting. He speaks English fluently, and of course, therefore, could give the lectures either in English or German, as might seem most desirable.

Auf das gefällige Schreiben vom 8. Juni d. Js., das mir durch Vermittlung des Kaiserlichen Herrn Konsuls in Chicago zugegangen ist, verfehle ich nicht, meinem verbindlichen Dank für die freundliche Einladung Ausdruck zu geben, welche die Universität Chicago durch Sie an Professor Morris hat gelangen lassen. Wie Ihnen bereits bekannt geworden sein wird, habe ich es dem Professor Morris ermöglicht, dieser Einladung Folge zu leisten und in der ersten Hälfte des kommenden Wintersemesters an Ihrer Universität Vorlesungen zu halten. Es ist mir eine besondere Freude, Ihrem Wunsche damit entsprechen zu können, weil ich die durch Professor Manly in so glücklicher Weise begonnenen näheren persönlichen Beziehungen zwischen den Universitäten Chicago und Göttingen für die Pflege der traditionellen Beziehungen der Universität Göttingen zu Ihrem Lande für außerordentlich bedeutsam halte, wie es mir auch

auch andererseits von großem Interesse ist, die von Ihnen in so wirksamer Weise unterstützten Bestrebungen der Germanistic Society in Chicago nach Möglichkeit zu fördern.

Aus diesem Grunde bin ich auch erfreut durch den Kaiserlichen Herrn Konsul zu erfahren, daß es Ihren Wünschen entspricht, im Wintersemester 1911/12 einen Professor Ihrer Universität erneut an eine deutsche Hochschule zu entsenden. Die Universität Göttingen hat mir berichtet, daß ihr die Entsendung eines Professors der Universität Chicago für jenes Wintersemester hochwillkommen sein und daß es von ihr besonders begrüßt werden würde, wenn Ihre Wahl auf Professor M ich e l s o n fallen könnte. Ich würde mich freuen, wenn Sie diesem Wunsch der Universität Göttingen zu entsprechen vermöchten.

Will Mr. Cutting kindly make for the President the very best rendering of the title of the enclosed?

Minister of Religious, Educational, and Medical Affairs
The Germanistic Society of Chicago, a society organized in 1907 for the purpose of promoting the knowledge and study of German civilization in America and of American civilization in Germany by supporting University instruction on these subjects, by arranging public lectures, etc., desires to send a Professor of the University of Chicago to Germany for the "Winter Semester" 1908/09. The University of Chicago will be pleased to render its assistance in this matter providing the German government should be willing to extend to the Chicago Professor the same courtesies and privileges generally extended to the exchange professors of the Universities of Harvard and Columbia. In this respect it may, however, be stated that it would not be considered necessary to place such a Professor at the University of Berlin but that it would rather seem advisable to bring him in contact with several German Universities.

The University of Chicago will give leave to its professor for six months, continuing his salary, whilst the Germanistic Society will pay an additional sum of 500 Dollars.

The Germanistic Society furthermore desires to invite one of the foremost German scholars to America for the months of March and April, the time of the German Easter vacation. This Gentleman would be expected to deliver from about 24 to 30 lectures at different Universities and places, 12 of these lectures to be delivered at Chicago before the Germanistic Society and at the Chicago University during the time of March 1 - 14 and April 1 - 14. All arrangements as to these lectures would be made by the Germanistic Society of Chicago which will also settle all money matters connected with such invitation by private agreement with the invited professor, whilst the University of Chicago, being in favor of such a plan, would officially invite said professor to the University of Chicago.

The University of Chicago also invited Professor Dr. Daenell of Kiel to the University of Chicago for a term of one or two regular University quarters. Final arrangements as to number and subject of lectures
to be left to special agreement. The English language is to be used by Dr. Daenell. All expenses connected with such invitation to be borne by the German Government. The Germanistic Society, however, will interest itself in making arrangements for lectures in Chicago and other places and in that way assist in contributing to the expenses by such invitation.

In case of a desire of the German Government to acquaint the German professors sent to Harvard and Columbia with conditions in the West, the University of Chicago would be pleased to extend invitations to those Gentlemen and in that way provide for them a working basis. Funds for covering expenses connected with such trips, however, are not on hand, but the Germanistic Society would also in these cases render assistance by arranging lectures for a reasonable compensation to the professor.

According to special arrangements over a thousand High School teachers usually assemble for summer courses at the University of Chicago every year during the months of August and September, and the University would consider this a good opportunity for German professors to reach a very desirable class of people with their lectures.

It is the intention of the Germanistic Society of Chicago to again make arrangements for single lectures during next winter from about November to April.
The British Government to be need to be told to expect arrangements. The British Government, however, with reference to the German Government, the German Government's proposal is to make arrangements for reception in Chicago and other places and to give any assistance to the German Government to facilitate the transfer of the German Government's funds to the German Government's account in the United States of America. In case of a failure of the German Government to make arrangements for the transfer of the German Government's funds to the United States of America, the German Government's funds may be placed in a working fund for the German Government. The German Government has no need for conscious experience connected with such operations. Moreover, the German Government has no need to take any action, but the German Government's proposal is to make arrangements for the German Government's funds to be transferred to the United States of America. In case of a failure of the German Government to make arrangements for the transfer of the German Government's funds to the United States of America, the German Government's funds may be placed in a working fund for the German Government. The German Government has no need for conscious experience connected with such operations. Moreover, the German Government has no need to take any action, but the German Government's proposal is to make arrangements for the German Government's funds to be transferred to the United States of America.
