My dear Dr. Harry Pratt,

Thank you very much for the nice letter which told of your most interesting trip to the South. I hope to be in Chicago early in June and go on to Buffalo to the wedding of my niece who has made her home here with me since Harper's marriage. So I may have the joy of seeing you and dear Rebecca before you sail. A letter has come from Mr. Edward Lord of Charles Scribner's Sons in connection with the regular report of the sale of the Ancient World. You will be greatly pleased to hear
not remember me at all.

Still I realize how important it is to have the book in the Chicago schools from every point of view and, of course, financially it would mean so much to us that I must make an effort.

I have a curious half dazed idea that Mrs. Young is not very friendly toward the University people. Is that correct? Mr. Lord also writes of Mrs. O'Keefe "who has very much to say in this matter. I do not know Mrs. O'Keefe in any way. He also writes that "any direct attempt to communicate or influence either of these ladies without first having led up to it in the proper way, would be disastrous." What is the proper way?

That is putting a heavy burden of responsibility upon me.
I am enclosing a copy of a letter I will send to Mrs. Young if you think wise for me to write directly to her. Please make any changes you see fit in the letter and I will follow your suggestions most gladly.

I am so sorry to trouble you with this matter but you are so kind and I am so much at a loss what to do that I turn to you for help at once.

As I read the enclosed letter over I find many things to change - please feel free to suggest. Harper and I cannot decide whether a short business letter giving facts would be better than this sort of a letter. What do you think? Is there any special hurry in this matter, when do they vote on adoptions? With much love to both you and Rebecca. Ever gratefully yours,

Florence M. Goodspeed

My dear Mrs. Florence:—

Your good letter of the 13th inst. received. We shall be very glad to see you in June when you are here. We are ourselves planning to spend the summer in England, leaving Chicago about the last week in June. I hope this time Mr. Lord will not be mistaken, and that the income from the book will be all that he anticipates. With regard to the matter of the Chicago School Board I must say that it is rather a puzzling question. Your

letter to Mrs. Young I am herewith returning to you, as in my judgment at would not be advisable for you to send it to her. I do not believe any letter from you to her would be of value. All the essential facts which you have could be put before her by the representatives of the firm. I am sure that any attempt to reach Mrs. Young on personal grounds would react distinctly against the book. My advice to Mr. Lord would be to take up the book with the authorities solely on its merits. Of course you know that I should be glad to be of any service in the matter, and if anything comes to my knowledge where I can be of service it will give me more than pleasure. I think it would be wise for the firm to take up the matter
immediately, as I think the Board votes on adoption somewhat late in the spring.

My dear Florence:—

Thank you very much for the paper-weight and more for the thought of the day. We were both very glad to receive news from you and to know that you are well and prospering. I hope that you will not have any recurrence of your former troubles of any moment. Rebecca and I spent last week in Alabama, looking over the Tuskegee Institute, which is extremely interesting.

My dear friend -

Thank you very much for the paper-scale map and note for the purpose of the 4th week. We were very much glad to receive them from you and to know that you are well and prospering. I hope that you will not have any recurrence of your former trouble.

I was at any moment. Repossess my about last week in Albuquerque, took the required examination on 19th May.
Of course I was interested in what Mr. Krehbiel had to say, and hope that even in a small degree his opinion may be warranted. Your uncle writes me from Florida where he seems to be having a happy time. I think that the change in his relations will be interesting to himself and useful to the University as well as to him in the new things which he will be able to do.

With cordial regards, I am,

Dear Mrs. Goodspeed:

Yours of the 14th instant was received yesterday and I telegraphed at once. I think it extremely inadvisable for you to come back until you are in proper physical condition. It would be a mistake for you and a mistake for us. Stay there, then, until you feel sure that you are ready to return.

I telegraphed you also as to the successor to Mrs. Speer. Whether we can make the arrangement with Miss Thompson I do not certainly know, but I, of course, do want to know whether she is the one that meets with your approval.

I certainly hope that you will regain complete health.

Mr. Stagg was troubled with sciatica as you know. He spent a few weeks in Florida, and the treatments he received there seem to have restored him completely. He came back full of vigor.

With all best wishes and regards to the household,

My dear Dr. Judson—

I am taking the liberty of writing you concerning certain matters connected with Mother's taking up the position which you have made it possible for her to accept. May I assure you at the start that I appreciate more than I can tell the unique opportunity for service to the University which is always first in our affections, which you have offered Mother. Further, I have no fears that your plans for her involve the expenditure of more strength than she should be called upon to give. I am anxious, however, that you should know of certain conditions which, in my opinion, may affect her present efficiency and continued usefulness as well as her general happiness.

First, perhaps, is the effect of seven years sojourn in California and the fact that my family and I will, for a time at least, remain in Berkeley. In this connection I know that you will be glad to hear of my advancement from the Instructor to the Assistant Professorship. Mother will miss many of the things which make living in California so delightful and which rapidly come to seem almost indispensable. She will further be drawn toward us in affection and especially toward the young member of our family.

In the second place, Mother's physical condition was originally one of the determining factors in our coming to California. Her health has, apparently, been completely restored but she has continued to find it of advantage to be away from Berkeley now and then for short periods. Indeed our life here and especially the nature of my work has involved many trips and vacations.

My dear Dr. Judgment—

I am taking the liberty of writing you concerning certain matters connected with mother's taking up the position which you have made it possible for her to accept. May I assure you at this start that I appreciate more than I can tell you the unique opportunity which you have offered her. Mother further has no reason that your plans for her minimize the expenditure of more strength than she should be called upon to give. I am anxious, however, that you should know of certain conditions which, in my opinion, may affect her present efficiency and continued usefulness as well as her general happiness.

First perhaps is the effect of seven years sojourn in California and the fact that my family and I will for a time at least remain in Berkeley. In this connection I know that you will be glad to hear of my advancement from instructor to the assistant professorship. Mother will miss many of the things which make living in California so delightful and which rapidly come to seem almost indispensable. She will further be drawn toward us in affection and especially toward the young member of our family.

In the second place, mother's physical condition was originally one of the determining factors in our coming to Cali—

Orina. Her health has apparently been completely restored but she has continued to find it of advantage to be away from Berkeley now and then for short periods. Under our life here and especially the nature of my work, has involved many trips and vacations.
I am not certain as to the conditions governing the position which Mother has accepted. I should, personally, doubt the wisdom of her attempting at the start what is here spoken of as an "administrative appointment."—i.e. eleven months of service and one month of vacation. I have attempted above to outline my reasons for this opinion. It would seem that Mother's efficiency and happiness will be increased if she continues to feel a certain measure of independence if her health and interests elsewhere seem to demand a change at times. She has advanced in health and strength by alternating periods of great activity and enforced rest; the latter becoming steadily more infrequent. It is, in other words, difficult for me to feel that she may find herself in a situation where her pride in carrying out the duties of her position without any failure or what may appear to her as shirking will cause an overtaxing of her strength. Mother is capable of doing a great deal and of doing it all very well, I think, but she has never attempted to continue a series of regular duties for an indefinite period.

I am sure that you will understand that in writing to you thus frankly I am attempting neither to suggest that Mother is unable to do what will be expected of her nor to make any requests of you in her favor. Needless to say I am not writing at her request. It simply occurred to me that you would prefer to know exactly my feeling in this matter. It is a very important step for Mother to take and we have been thinking very seriously of all that is involved, not only of what concerns her happiness but also as to how best she may carry out the plans you have for her.

We all join in affectionate remembrances to yourself and
Mrs. Judson—

Sincerely,
T. H. Goodspeed
I AM NOT CERTAIN AS TO THE CONDITION GOVERNING THE
POSITION WHICH MOTHER HAS ACCEPTED. I SHOULD PERSONALLY DOUBT THE
WISDOM OF HER ATTENDING AT THE START WHAT IS HERE SPOKEN OF AS AN
ADMINISTRATIVE APPOINTMENT - I.E. ELEVEN MONTHS OF SERVICE AND ONE
MONTH OF VACATION. I HAVE ATTEMPTED ABOVE TO OUTLINE MY REASONS FOR
THIS OPINION. IT WOULD SEEM THAT MOTHER'S EFFICIENCY AND HAPPINESS
WILL BE INCREASING IF SHE CONTINUES TO FEEL A CERTAIN MEASURE OF IN-
DEPENDENCE IN HER HEALTH AND INTERESTS ELSEWHERE, SEEM TO DEMAND A
CHANGE AT TIMES. SHE HAS ADVANCED IN HEALTH AND STRENGTH BY ALTER-
NATING PERIODS OF GREAT ACTIVITY AND ENFORCED REST. THE LATTER BECOMING
STEADILY MORE IMPORTANT. IT IS IN OTHER WAYS DIFFICULT FOR ME TO
FEEL THAT SHE MAY FIND HERSELF IN A SITUATION WHERE HER PRIOR IN CARRY-
ING OUT THE DUTIES OF HER POSITION WITHOUT AN INCREASE OF WHAT MAY
APPEAR TO HER AS SHRINKING WILL CAUSE AN OVERESTIMATION OF HER STRENGTH.
MOTHER IS CAPABLE OF DOING A GREAT DEAL AND OF DOING IT ALL VERY WELL.
I THINK BUT SHE HAS NEVER ATTEMPTED TO CONTINUE A SERIES OF REGULAR
DUTIES FOR AN INFINITE PERIOD.
Chicago, April 24, 1916

My dear Harper:—

Your favor of the 15th inst. is received.

We are expecting your mother to-morrow, and she will have a warm welcome here. So far as the details of which you write are concerned, you may be very sure that your mother's interests will be cared for quite as thoughtfully by those concerned here as if you were managing matters yourself. I am sure that she will enjoy her life here, and that her physical condition will not suffer. I cordially congratulate you on your promotion, and have no doubt that it is the beginning of an honorable career in your chosen department. Please give my cordial greeting to Florencette and the Junior.

Cordially yours,

Tuesday morning

My dear Dr. Harper,

My Uncle has told me of the very generous decision of the Board of Trustees at the meeting of yesterday. I want to thank you for both Harper and myself for doing such a kind thing for us. We appreciate that the suggestion came from you and that the Board voted it because of your wish but back of that we feel that it is another
proof of your regard for George, and that it comes to us from him as well.

Very gratefully yours,

Florence M. Goodspeed.
