FINANCES, Conference on
Dear Dr. Harper,

Your cheerful letter of Oct. 1st came yesterday and was much enjoyed. I was very glad to have you authorize us to close arrangements with the Social Union. They will probably fix upon Thursday, Nov. 5th.

We hear now of constant storms on the Atlantic. I trust you will survive them 2 reach in safety your desired haven. We have this morning we think got on the track of something good. We dare not be certain, but a few days will decide.

I am having some illustrations of the group of buildings made. I sent a specimen. This in one of the pictures for the state must & approval of which expect States yesterday.

I beg much hope we shall see the plans & specifications of the buildings in complete state tomorrow. Our crew we shall not before Saturday. Mr. Blake you can tomorrow for a few days. I hope to see him back about the time you return. We shall hope by that time have the bids in on the buildings.
Friday. Before Mr. Blake left yesterday I saw the plans. They will really stand in need of tomorrow. They have been sent into the hands of Biddles. The bids will be in by the time you get here.

If you can, if Dr. Bright would care to put this in the Examenence I will have a plate made about him — & to the other papers also — not a brief description. If you can to see the Editors do so. I am going to send it to the Watchman & Ensign etc.

I am troubled over the terrific storms of which you read. Mrs. E. E. sailed for Antwerp on the Westphal last night of 30. just in time. I hear to have been into the great storm that began in western Europe on the 12th 13th. You also must have had almost continuous storms of some kinds. I have noted the passages carefully till I assure that you can arrive.

As ever yours,

T. W. Goodwin.

My Dear Doctor,

I looked in town yesterday, paper pro
nuns of the arrival of the Normanna. Further
morning I heard it & on reaching the office
found your telegram. This relieves my fears
as I am only troubled over the reports of
storms of almost unprecedented violence.

Please note the invitation to Commercial Club Ban-
gquet & send answer.

Mr. Eyerman returned Saturday evening
and took the management of affairs in charge.

Hope you have found time to ask the Eyerman &
Ingraham if they have the plans of the Car of our Building,
on it is likely to appear in several of our denom-
national papers next week and in the Christian Union.

An extended article will appear in this latter paper
with the University & a very admirable one. The Editor
want a photograph if you can put in the cover. But
it is hard to find. I am going once to see if there

Dr. W. R. Harper,

"My Dear Friend:

There is due on your University subscription $800.

principal and $ interest.

The time has now come when we cannot go forward without the prompt payment of our subscriptions. Contracts have been let for the erection of buildings involving the expenditure of $325,000, and work on them has already begun. The whole of this sum must be paid during the coming year. For one building costing $100,000 Mr. Rockefeller has furnished the money. We cannot use a dollar of it for any other building. To meet the $225,000 that we must pay we have not a dollar in the treasury. We must receive from our subscribers or secure from new helpers this entire sum.

We therefore entreat you most earnestly and urgently to let us have at once the amount due from you. We shall be called upon for large sums immediately and every month these calls will be repeated. To enable us to meet these demands we must have the most generous help from our subscribers. Those who can now pay their subscriptions in full will do the University the greatest service. If you can anticipate your payments in any measure it will greatly oblige us. This however we cannot and do not demand. But we feel that we have the right to expect that you will now come to our help with the full amount that is due. We need it imperatively. From this date, in order to meet its obligations, the University must receive the payments due from subscribers regularly and promptly as they mature.

I state the case thus fully that you may realize just how we are situated and how imperative it is that we receive what is due from our subscribers. Kindly respond with the amount due from you and very greatly oblige.

Yours truly,

Encouraging letter from Terry Judge
the new figures were having tow.

J. W. Goodafter
My Dear Dr. Harper,

"The most encouraging things I have come to day to say that she had seen Mr. Keely & that Mr. K. wished you to see Mr. Whitcomb, his lawyer, as I tried you to day. Judge Stuyvesant in a few minutes after she left & said that Whitcomb went with him in College, that they had always been intimate & that W. was a warm friend of his. I therefore accounted for it that it might be the very thing for Judge Stuyvesant to go & see Whitcomb for the sake of his health & the world is in your judgment.

intensions for able to use.

I am very glad to see by the morning papers that the "City of Chicago" had arrived. The Tribune this morning had a most appreciative editorial I learned to Mr. R. The Post-late-clip had a very fine one on "to beugs must take the next step." There has been joined an amount in a $50,000. I was pleased. The Finance Committee must Monday to pass it.

I should not know the Building Committee a meeting is called on Monday.

Hope you cleaner home found some encouragement in the ocean breeze.

I trust your home found your family well & am having a good time.

Yours truly,

T.M. Coakley
My Dear Dr. Harper,

Your letter written on the train came today. Let once more the letter to Mr. Kenilworth be written to Mr. Rockefeller & Mr. Gates. Judge Story has visited Mr. Whitcomb and finds him not to disposed toward us or his wife id his Kelleys daughter by a former marriage which would naturally dispose them not to form Mr. K's giving away her property. He says that Mr. K. will soon decide the matter. He will say what further steps can be taken. Mr. Kahler has to day authorized to receive $30,000 or 6 per cent in a first claim mortgage.

Mr. Cobb has prepared an elevation of the laboratory and has made further changes in it which were imperfect. Mr. Kenilworth will remember to come to the Board meeting at 8, 8th St., Jan. 19th.

Dear Dr. Harper,

Your letter from New York is just at hand. I judge from it that you were not able to do anything on the Agden business.

Yesterday twenty young men arrived at my office at 11:30 a.m. I will be more than twenty.

Yesterday I inspected the buildings. I was much impressed by their immensity. They will be very handsome too, I am sure. The work is going forward rapidly.

J. T. Rance came in Tuesday with two representatives of the London Polytechnic School. They wish to make an arrangement for 200 students from their school each for space on our grounds. They will come again after you return. They bring over 8,000 pupils in companies of 200 and wish to occupy about one fifth of our site for six months. The Park Commissioners & Fair Directors would give them space in the park on the Pleasance, but their
Now it is moved open the flood gates 2 an an胸怀.

I told the parties that Barnum seemed afraid to be hos-
pitable to the Polytechnic, that there were two difficulties
first that a considerable part of our land was too low
in such a camp. I seemed that we were likely to try
to begin a building at every place in the grounds
but that if a place could be found for them we
would be glad to accommodate them. 

Considering the necessity for providing for boarding the
students as also for providing very cheap rooms where
have been looking for a piece of ground. Mr. Dibblee has let us
have a building on the corner of Greenwood and 56th South
east front for 80 per foot. This is on Block north of
the north entrance to our grounds. On this last we can
erect a building that will furnish boarding accommo-
dations for 400 students & dormitory accommodations
for 190, at a total expense for land & building
of $60000. This would enable us to rent rooms for 35
cents & 70 cents per week, & more the instructors re-
quirements for cheap rooms. At these rates the dining
Association, faying its position, after paying all fixed
charges, & a 5% interest on the investment,
we could put a small sum of money in.

$70,000. 3% pay 6 times in 30 1/40 years pay the debt from the income. Mr. Bost is preparing plans to be presented Saturday. The cost of our regular dormitories is increasing every day. Instead of $150,000, they will cost at least $160,000. They will be palaces. We have a number of students who can pay the rent, but there is already a loud cry for cheap rooms. Your friend's 50 cents. Let us furnish them in this way. How does this strike you?

I have taken shape in my mind, because on Saturday Judge Strong came in to say that he could get lots in the corner of Ellis Ave. 2 1/2 ft. from Ellis by 130 on 3 1/2 ft. for $110 per foot. The East & West fronts in a block front on an alley suggested to me a building like the Summerville Dormitory at Morgan Park. That building cost $17,000, 8 rooms, 25 students. If each floor had 3 rooms, $17,000. = $7,000. I must see Mr. Diller & he said he would give me 100 feet front on Eversholt
running about 170 feet on 56th to a 20 foot alley for $8,000.
This is more land for $8,000, than money than in Ellis.
If you should meet people and would buy on the corner
of 10th and 57th, right across the street from the
north central entrance. Think this all over and let me
know if it strikes you. As I look at it, we can find a
very pleasant actual investment of cash from boarding
accommodations, very cheap rooms for poor stu-
dents. Other solve a problem that otherwise would trouble
us. Then organize the boarding club
on the campus. This can continue as a
one of Hopkins—cheap—very cheap boarding club.

We must take up on once the question of the-
stitution for poor students. Mrs. Morris of the Training School
came in. She wants her boy to get his. But she cannot pay the tuition
fees. Am I to insist that she send him in short order? She
wants to send him here, but can he bear the expenses? I think
a policy adopted here and adopted elsewhere must enable us to say
something to these people. I told Mrs. Morris to come in and
to see you. I thought the matter could be arranged.

But this is mention enough. Replied: 'I am
a telegram from Baltimore saying that Rev. Mr. considering
a call here. I told him it was

Dear Dr. Harper,

Judge Strong's letter deserves very serious consideration. Mr. Kelly's lawyer will be very hard to satisfy.

Of course, the bond of the University and pledge on our part to turn over the rents of the building should be considered ample security. But we must give more than this or we shall lose the $30,000.

Mr. Hutchinson's suggestion is that we will pay $50,000 in cash to the bank the interest to go to her during her life. In this case we do not in any way risk the securities nor do we lose the interest on them, as we receive the income from the building instead of the interest on the securities. We wish you to talk the whole subject over with him. Perhaps some other method may be found to satisfy the lawyer.

Hutchinson's objection to formally guaranteeing the interest is that he might then lose a guarantee of the latter. Judge Strong made it in regard to Mr. Hutchinson's building $100,000. A $200,000. more on the same.
terms was a gratification of Mr. H's own state-
ment made to him. Mr. H. professed
that he desired under $50,000. If Mr. Fields
subscription on certain terms be further
in excess to provide for the payment of the
interest. I objected that we shall be
compelled to use Mr. Fields' 100,000. at me
in paying for the Reitation building.

My Dear Doctor Harper,

If the J.R.M. article is any likely to harm us on the latter point, I can offer no indication here. Castle was a unique man who made a tremendous impression. I moved to see your answer to Dr. Woods if you will prefer mine. He refers to a great question.

I must confess that while I appreciate the moderate voice and sympathetic view Dr. Woods advocates making him also the greatest undergraduate scholar in the world as can easily be done. Only yesterday Judge Story was speaking on this subject to the Fellows in the usual round table. I am sure you will make a magnificent undergraduado.
School. You can't keep it. You are to be unjustly assassinated about. Why is not this a good time to say that we are going to do a good work. In underground ways they can get anywhere in the world.

You ought to have the Dispinner in the library. You can't assist in arranging the library until then. These students are continuing to refer to references that the Brothers rooms are being taken. Do not hold them too long for students. I want some of the professors in. Some one should begin to select books in the library to be left with the Academy.

My Dear Dr. Harper,

In regard to the Home Memorial,

1. The naming of the Mathematical Library would probably be most gratifying to the faculty. The objection to this is that the fund $1000 is insufficient. Probably hence Prof. Holmes library might be in fact at least donated to the family and the family might add possibly another $1000 to the fund.

2. Then might be established the Home Mathematical Prize.

3. A Home Scholarship might be founded. This would give some deserving student every year $50.

In regard to the Olsen Fund we ought to establish the Olsen Professorship. It should be an Assistant Professorship. The fund will not or the outset exceed $10,000, but it is to be considered that the subscriptions of the Alumni have approximated $30,000, so all purposes will be much increased.
The subscriber can scarcely impatiently wait to see the pledge made carried out if I hope the matter can be attended to soon.

Dear Mr. Harper, President of the University:

My dear Sir: --

At the last meeting of the Board of Trustees, I am informed that the Board has been engaged in the examination of the grounds and is of the opinion that the University grounds would be improved by the addition of a large body of land.

I am of the opinion that the University should not undertake the purchase of this land without the advice of a committee of experts. It is therefore recommended that a committee be appointed to consider the matter of the purchase of the land.

My Dear Mrs.炎

During the last unincorporated financial year, we received the following sums for special fellowships. Can you tell me which of these should be credited to the "Brooke Women's Fellowship." I am uncertain, so I appeal to you as the one most likely to know.

July 16, 1893  Mrs. H. B. Brown  $150
... J. J. Herrick  $30
Oct. 6, 1893  P. D. Armour  $30
... Various persons  $100
Dec. 18, 1893  Mrs. C. D. Hamele  From Mrs. C. B.  $50

Please send your regrets because Mrs. C. D. Price asks us to send her a statement as to what is due on the Women's Fellowship for this year. We received on Sept. 4 last, $80 on this Fellowship, and are not certain whether it was a payment last year or not in this year. In addition to the above amount, there was credited to the Women's Fellowship on July 6, 1894, $125. Which is the amount was a payment on the Fellowship in last year 1893-4.

For Your Notice

My dear Doctor Harper,

I yesterday saw Mr. Dickey.

He was very cordial and said that up to this time they had been spending great sums to make the property productive. This work has now been substantially completed & Mr. Dickey assured me that the University may be assured that it will require in about two years at least two hundred thousand dollars.

I go this morning to attend a meeting of the committee on the Roman Hall.

I have written Mrs. White that she may expect us at 5 P.M. Tuesday.

President Wm. R. Harper,

My dear Sir:

In answer to your request of Sept. 20th, at the meeting of the Board of Trustees held Sept. 25, 1894 the following recommendation of the President was adopted; namely, 'that the President be authorized to issue a special permit to the wives of the members of the Faculty of the University, who desire regularly to attend courses of lectures given in the University Proper.'

Yours truly,

Secretary.
My Dear Bro. Gates,

I wish to express my conviction that your present visit is the most important you have ever made to us and will prove the most fruitful in healthful influence. I sympathize with its objects perfectly. You know well what my wishes and hopes have always been in regard to the Christian character of the University. During our joint labors we were in perfect accord. No matter to whom we made our appeals we always distinctly stated that we were building a Christian institution.

I have now been associated for two years with Dr. Harper, and if one man can know another's mind on any subject, I ought to know his on this. My appreciation of his unequalled gifts for organizing and administering this great work has constantly increased, as well as my assurance that he is simple, sincere and honest through and through. He has always and in every way indicated an unwavering purpose to give the institution a positive Christian character, and I am certain that Mr. Rockefeller may feel assured that his aims are all that he himself could wish and will control the policy and shape the character of the University.

Dr. Harper has illustrated the sincerity of his purposes in every step he has taken in the preliminary organization.

1. By the patience with which he conducted to a successful issue through a labyrinth of difficulties the negotiations for the union between the Seminary and the University.

2. By giving to biblical studies an incomparably more prominent place than they occupy in any other University in the land. He has given N. T. studies the same prominence as old in the appointment of no less than four N. T. instructors in the University proper.

3. By securing the most devout man he knew for the avowed purpose of caring for the spiritual interests of the students. As you know there is no other University in which this has been done, or in which the man selected for the work has been given a place of such dignity and importance.

4. By the care I know he has taken in the selection of the faculties, the great majority of the professors being devout Christian men.

Beyond any question the University has been organized on a distinctly Christian basis more unequivocally than any other institution in the country.

Before your coming I had in the Standard spoken of the direction the internal religious life and work had taken. I enclose the article that you may see how gratifying and promising the outlook is. I think there is no other example, in which, by their free action the professors and students have organized a University as a University on so decided a Christian basis. There
My dear Dr. Gates,

I wish to express my conviction that you have every right to be proud of the work you have done and that you will be proud of the work you will do. You know very well what you have accomplished.

You have devoted your life to the advancement of science. You have been a guiding light for those who have followed in your footsteps. You have made contributions that will be forever remembered.

I hope that you will continue to work towards the betterment of our society. Your contributions have been invaluable and will continue to be so.

was, naturally, at the outset some uncertainty as to the form this organization should take. There was no precedent to follow. In other institutions the students had been left to form Christian associations without the fellowship or encouragement of their professors.

Here the theory is that the professors and students are one body, all students together. They were therefore associated in the work of religious organization. There was a desire to find some method by which to include the entire University so far as all would allow themselves to be included. Just at this point there was a danger that an organization would be formed so broad that it would not be Christian. This peril was happily escaped and the organization made by unanimous action on a distinctly Christian basis. Other more purely evangelistic associations have followed with surprisingly large numbers of charter members and the most happy and promising direction has been given to the internal religious life.

Let me give you an illustration of the way the gospel pervades the athletics. The President of the Y. M. C. A. is Stegg. The Secretary is Knapp, the best man on the football team, the Treasurer is Raycroft, Assistant in Physical Culture, and Wyant, Captain of the football team is a student in the Divinity School.

While all the above is true and is to me full of assurance, I consider your visit to be one of the wisest steps that has yet been taken. It will tone us all up. It will strengthen our best purposes. It will stimulate us to new watchfulness and fidelity. We have been reminded, in a way forceable beyond precedent, that the founder and greatest patron of the University in giving it great sums of money is doing this as a steward of God and a servant of Christ. To know so unequivocally that he stands behind us in our efforts to nourish theChristian life and establish the Christian character of the University will give us more perfect confidence and courage. It ought to awaken a revival of religion in our own hearts as well as stimulate our zeal to make the University all that Mr. Rockefeller can wish. We shall make mistakes, for we are fallible men. But you must judge from your knowledge of us whether we are true and sincere. I think you know that I sympathize perfectly with the high Christian purposes and wishes and hopes of Mr. Rockefeller in founding this University. So far as I have any influence it will be the supreme aim of my life to see that his purposes and hopes are realized in its conduct and in its future character.

Very truly yours,

T. W. GOODSPEED (signed)
President Harper,

My dear Sir:

At the meeting of the Board of Trustees held yesterday your salary was restored to $8,000. per year from July 1, 1895.

Together with the Comptroller and the Secretary you were appointed to prepare and present to the Board a Budget calling for an expenditure for the year 1896-97 not to exceed $625,000. one of the items to be "For Contingencies $15,000."

You were requested to communicate with Mr. Rockefeller asking him to advance on his $2,000,000. subscription $100,000. toward the current expenses for the year 1896-97.

My dear Dr. Harper:

Mr. Arnold tells me that he has been directed to send all programmes before they are sent to the press to Mr. Salisbury. I wonder what is the reason of this, and I wonder why I was not directed to do this rather than Mr. Arnold. Is it that Mr. Salisbury is chairman of the committee on improvements in the Calendar? I did not understand that this extended to the Register also. Perhaps you can enlighten me on this point. Of course, I am perfectly willing to do this, only I think that it would be better for the heads of departments to be directed to do it, and any suggestions that are made should be communicated to the heads of the departments.

I think you said that you would lay upon the Pedagogical Department the responsibility of filling up the educational department in the Record. Perhaps it would be well for you to write Mr. Dewey to this effect.

Yours very truly,
I thrust myself meekly into your presence, and I'll be as good as your wishes are. But it is not so simple. I have duties elsewhere, and I must attend to them. I cannot be away for long.

I wish to assure you that I am here solely to do what is necessary. I am not here for pleasure or relaxation. I have important tasks to attend to.

I hope you will understand my position. I cannot stay for long, but I will do my best to assist you.

Deficit 31650.00

The appropriations made to date are $598000.00. I estimate that the expenses will fall below the appropriations about $25000.00.

The expenditures will be $573000.00.

The income will be 571000.00

Deficit 2000.00
No2

The receipts from Tuition and Room rents are more and more dis-
appointing.

The Press has considerable sums owing to it which it does not col-
lect; it reports nothing from advertising or book sales.

The result of all is then a bare possibility that we shall get
through without a deficit, but it is also possible that the deficit
may be $6000.00 or $7000.00. If there is any way to economize, we
ought to find it.

One further point should be mentioned: A large balance on the de-
partmental appropriation for books was brought over from last year.
The above estimate is based on the supposition that about the same
balance will be carried over to next year. If this does not prove
to be the case it is not possible to tell where we may come out. We
might be $25000.00 in arrears.

Yours truly,

Secretary
My dear Dr. Harper,

In response to your request that I make suggestions as to the fees of various sorts, I venture to offer the following for your consideration.

1. Since the Board makes an appropriation for fellowships which the trustees suppose covers cash payments and fees for three quarters only, the granting of a fourth quarter free tuition as a fellowship courtesy is—

   a. Unauthorized by trustees
   b. an addition to the total fellowship appropriation
   c. not in conformity with our theory, which is that the fellows are paid in cash the full appropriation and are then expected to pay their fees.
   d. Constantly giving rise to mistakes and disputes.
   e. One of the unnecessary causes of budget miscalculation and deficits.

2. The Library fee should be paid by every student without any exception. It is like the Laboratory fee. Every student who does Laboratory work should pay that fee and as every student is supposed to use the libraries, he should pay that fee.

   I am not so clear about the incidental fee; that may perhaps be merged in the tuition fee.

Yours truly,

**Statement of those occupying dormitory rooms who are not registered for Autumn Quarter, 1930**

No. 7, 1930

The University of Chicago
The University of Chicago
FOUNDED BY JOHN D. ROCKEFELLER

CHICAGO, Nov. 28, 1896.

Maj. H. A. Rusg,
Acting Registrar.

My dear sir:

The special committee appointed to investigate the cases of non-payment of diploma fee by students who have received the Master's or the Doctor's degrees made a report including certain recommendations to the Faculty of the Graduate Schools which was adopted by them. The following portion of the report concerns the Registrar's office, but if you desire the whole report I shall be pleased to send it to you:

"Several of the persons in this list of delinquents are now connected with the University, and it is probable that a note from the Registrar would be sufficient to secure the fee. In the case of the others, or some of them, it is possible that there may be circumstances that would render it improper for the University to resort at once to coercion. Your Committee recommends that the President, with the help of the heads of departments in which the various degrees were taken, decide whether there are any such cases, and that the Registrar be requested to notify all others that unless the fee is paid the Graduate Faculty will request the Board of Trustees to rescind the action by which the diploma was conferred."

The Board of Trustees of the University of California at Berkeley has appointed me to the position of Secretary of the Graduate Council, which I hereby accept, and I assume my duties immediately.

The scope of my duties includes the preparation and dissemination of reports, the coordination of graduate programs, and the promotion of academic excellence. I will work closely with the faculty and the administration to ensure the success of our graduate students.

I am confident that with your support, we can achieve our goals and make a significant impact on the academic community.

Dear Dr. Harper,

Mr. Zueblin is paid regularly in his monthly salary of $208.33.

He became an Associate Professor Oct 1, 1894.

Mr. Davidson has been paid for work in Examiners Office $135.67.

I have informed Mr. Fleming that only $150.00 in cash is available in his office.

In regard to Mr. Walker, foreman, it is evident that he was engaged for $24.00 per week & that my letter to Mr. Chase mis-timing $25. was a mistake.

CHICAGO Feb. 17 1897
The Board of Trustees

WILLIAM N. HARPER, President

Chicago, Ill. 1883

Mr. President,

The 5th of September, 1883, I was privileged to address, in the presence of the Governor, Lieutenant Governor, members of the Legislature, the University faculty, and a large throng of citizens, the Quadrennial Address of the University of Chicago.

At that time, the University had been in existence for two and a half years. It was now a part of the educational system of the State, the house of higher education, the third in order of seniority.

We were then only in the second year of our second biennial session. The University had already proved itself to be a powerful factor in the educational progress of the State. It had established a high reputation for efficiency and honor.

There is much to learn from the experiences of these early years. The University has grown and prospered, and has become a strong and influential institution.

Sincerely yours,

[Signature]
My dear Swartwout:--

Your favor is at hand. I will speak to you as frankly as you do to me. I was never more surprised than to receive such a letter from you. It surprises me in two respects: 1st, - It is incoherent, wild, disconnected. If it were from a stranger, I should set the writer down as mentally off his balance. And I know you and have supposed you to be of a well balanced mind and also to be fair minded and considerate and just. None of these qualities appear in this letter.

2nd, - You speak in general terms of wild accusation, but there is not a definite statement in the whole letter. What do you mean by a Worldly University? How is God dishonored? What do you mean by the whole thing being more and more hollow? What do you mean by a vaunting of the flesh? The pleasing of the Devil? Against all true Godliness? Now all this is as unlike the Swartwout I once knew as night from day.

What have Drs. Harper and Hulbert done that you condemn them so utterly? What has the University done that you cast it out? There is one grain of comfort in your letter. You cast out the entire Christian Church with us. Well, I am content to take my place with the Church, which, imperfect as it is, is yet the purest, most evangelical in spirit and doctrine, most missionary, most benevolent, most like Christ of any church that has yet existed.

So, if you and a few others have become so much holier and more sincere and humble and loyal to Christ than your brethren, that you cast the Church of today out of your fellowship and us along with it, I have nothing to say. I go with the church. Only if this is the case, you are not the Swartwout I once knew, for he was no Pharisee. He was modest and charitable. There did not seem to be any egotism in him, nor any "I am holier than thou" air.

My dear Swartwout, what is the matter with you? Or what is the matter with us? What have we done? I regard you so highly that I should esteem it a favor if you would write out carefully the points in which you judge the University to have gone wrong. Make the charges as definite and distinct as possible, and I will either try to meet them or confess them to be true.

No doubt things have been done and said here that cannot be defended. Things are said and done in every institution and in every church and in every family and by every man that cannot be defended. But to all general charges against the University, I enter the plea of not guilty, and I am ready to defend it against all comers.

What distinctive Baptist doctrine has it denied?

What doctrine of the Gospel has it denied?

I undertake to say that there is no more Christian University in the world than this. The Scriptures are studied here as in no other great University. The Christian life is encouraged and nurtured as in few institutions of learning. The Gospel is constantly and ear

Dear Professor:

Thank you for your letter. I am very much interested in your proposal. It is a matter of great importance to me and I will be glad to hear from you again.

I enclose a copy of a recent article that I wrote on the topic of your interest. I believe it will be of interest to you.

Yours sincerely,

[Signature]
estly preached.

The nearest approach you make to any definite statement is your mention of Dr. Hulitt. I can only suppose you refer to his recent article. I regard that as the ablest and most important article that ever appeared in the Standard. What do you find wrong in it? Please be definite in pointing out the defects and errors. But be sure you are just to Dr. Hulitt and understand him. There is no more loyal Baptist or more deeply evangelical Christian than he.

The answer in the Standard to his article had several radical defects. The writer did not understand him or purposely misinterpreted and misrepresented him. Every line was a misrepresentation. Let me specify. Dr. Hulitt did not say or intimate as this writer represents.

1st, That newness is a passport to an idea.
2nd, That an idea is irrational and absurd merely because it is old.
3rd, That the past should be despised.
4th, That the past is to be abruptly broken with.
5th, That it is a fault that anything has the sanction of the ages.

The suggestion that Dr. Hulitt said or thought any of these things is utterly and absurdly false.

I could go on and show to any fair minded man that every paragraph is just as misleading. There is throughout a radical misconception of Dr. Hulitt's language and purpose.

Doctor Hulitt had in mind one single purpose, viz. - to indicate that as we are entering on a conflict it should be waged in a tolerant instead of an exterminating spirit. In this he represented, as I believe, the mind of Christ and pointed out the path of wisdom.

You refer to the graduates of the Divinity School being made more and more like itself. Well, I have one in mind, the Pastor at Morgan Park, who during the past year has seen more souls converted and more persons added to his church than any other young pastor I know of.

I am here in the University Church where a revival of religion is in progress, during which Pres. Harper's son, Prof. Burton's daughter, Prof. Terry's son, etc., etc. have been converted and baptised. By their fruits ye shall know them. I fear you have listened to the falsehoods that are being circulated. Do not believe them. Why should you believe what you hear to our detriment? If you heard your mother slandered you would not listen to the slanderer. Why should you believe what you hear against your Alma Mater? You ought to know that these things are not true.

The Divinity School and University are not departing from the faith. They are in no danger of doing so. They are loyal to Christ and His Word and will remain so. Give your brethren here the credit of being sincere and honest men. They are also humble and devout Christians.

I do not know of any one here who is uplifted by the temporal prosperity of the University. We have enough troubles and difficulties to keep us humble. The world sees the prosperity. It does not see the great and sore trials we pass through. We cannot speak of these things. But no men are carrying heavier burdens. No men have been more tried. No men have done more hard work. We are
Dear President: In my capacity as the President of The University of Chicago, I am writing to express my strong support for the action you have taken to prohibit the use of photographic equipment and other recording devices on campus.

As someone who has dedicated my career to the advancement of knowledge and the preservation of intellectual freedom, I believe that protecting the integrity of academic discourse is of utmost importance. The use of recording devices can disrupt the flow of ideas and reduce the willingness of faculty and students to engage in open and honest discussions.

In addition, I am concerned about the potential for such devices to be used in ways that violate the privacy and confidentiality of members of the community. The University has a responsibility to create an environment in which all individuals feel safe and secure.

I urge you to continue to take strong measures to ensure the integrity of the academic environment and to protect the rights and privacy of all members of the University community.

trying in the Fear of God to give to the Baptists as great and influential an institution of learning as exists. We are doing this with a sincere and honest purpose to honor God and help the denomination and bless mankind.

But many of our brethren have for us nothing but suspicion, doubt and detraction.

We endure it without reply or accusation in return, because we are acting in the Fear of God and are confident we shall be justified in the end.

Yours sincerely,

Secretary
President Harper,

My dear sir:

You ask me whether it is right to rule that a student who has taken our Doctor's degree and is a member of the Congregation is therefore to be considered an officer of the University and to be permitted to take work in the University without paying fees.

I am not able to see the justice or propriety of this. It would seem to me just as proper to rule that a student that had graduated and taken the Bachelor's degree should have the privilege of taking work for an indefinite period in the University. The Doctor does not seem to me to be an officer of the University in the sense in which that term is used when giving the privileges of free tuition.

Yours truly,

My dear Dr. Goodspeed: 

The Divinity Faculty, with the approval of Mr. Gates and Mr. Rockefeller, Jr., wish to adopt the plan of tuition fees for divinity students. This involves the use of such fees for students. The committee, Dr. Hulbert and Dr. Burton have prepared the printed statement which would be necessary in case this is done. The order of procedure from this time forward is (1) your examination of this as Registrar to see whether it is consistent throughout; (2) a consultation with the students to secure their co-operation; (3) a meeting of the Board of Trustees of the Theological Union. I send the material to you and upon your statement that the material is satisfactory from the Registrar's point of view, we will take it up with the students. Please return this circular which I herewith send you.

Yours very truly,

William Harper

Mr. President and Members of the Board:

I write to ask for your assistance in the matter of the Board's participation in the development of the University's financial policies. The Board has been asked to consider and approve the University's financial policies and procedures, which are necessary to ensure the University's ongoing viability. It is my belief that the Board's involvement in these matters is crucial to the University's success.

I have prepared a report outlining the current financial situation and the proposed policies. This report includes suggestions for improvement and recommendations for action. I would be grateful for your review and feedback on this report.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

My dear Dr. Harper,

Send you pp 138 & 141 to complete your budget.

I have made a new summary of decreases & increases, having discovered by Mr. Walker, that we had omitted among the decreases $1,520 in Pol. Economy, publishing & having also found that the recommended increase had been more $1,000, too great in the final additions.

I have had the sheets of the budget prepared for Mr. Gates & Mr. Rockefeller have gone over every figure with great care. I have added up the figures of the new budget & compared them with those of the current one, thus proving our work correct. As we had reached our results by subtracting decreases & adding increases, I wished to test them.

Send also the arrangement for Professors & Deans.

Offices. Putting figures 20,300,000, added the income compared to previous budget & the several copies of "Estimating Receipts".

With regards to Mr. Rockefeller & Mr. Gates & many hopes that this meeting of the Trustees in New York may be happy & useful. Sincerely yours truly, T. M. Hitchcock.

My dear Dr. Goodspeed:

I hope that you are having a good time and that the month is proving to be all that you expected both in the matter of weather and in the matter of fish.

You will be pleased to know

1) that the money for the power plant $60,000. and the money for the water plant, $10,000., has been given us.

2. That in the interview this week which Mr. Heckman and I had with Miss Culver at the University, she being my guest at the Quadrangle Club, she consented to sell the west side property at 50% of her valuation if necessary in order that the whole matter might be cleaned up and indicated her desire to bring the fund to the sum originally planned, namely, $1,000,000.

3. That we have arranged for $2,000. more of stacks for the Law building in view of the transfer of the historical library.

4. That several new scholarships have been received which are to be placed to the credit of the appropriation already made for scholarships.

5. That Mr. Heckman says at least $15,000. additional receipts from income that were not counted in the estimate for the present year.

6. That the Clyde A. Blair to whom we sent the appointment of storekeeper in the Physics department, at $600., was the wrong Blair and
Chicago

on giving up a position in Omaha and coming to us he found the right man doing the work, namely, William R. Blair, (a mistake in initials,) and that consequently we have Blair on our hands for two months to be disposed of as Providence will suggest.

7. That Mr. Ryerson has returned and has gone over the University and the details of things in his absence and seems to be well satisfied.

8. That Mr. Walker has made an exhaustive study of the financial situation with a view to the need of money as capital and will report next Tuesday that no additional money is called for, the money already furnished by Mr. Rockefeller for the two deficits being sufficient, this allowing $17,000. more to be given to the Press, making the total capital of the Press $140,000. instead of $150,000. proposed, and that he takes a very rosy view of the financial situation as a whole.

9. That the numbers of the second term of the Summer Quarter will be about 25 less than last year and the receipts up to date $2,000. less.

10. That the plan of living at Williams Bay and spending two days in the city has thus far worked out more satisfactorily than I had anticipated, and the family seem to be fairly well reconciled to the situation.

My dear Mr. Vanderbilt,

Referring to your request of Jan. 20. I can I cannot comply with it. My son & myself are in the picture & I moved to impropriety to have a third published & send coming in 12 to prevent it.

I have been out of active connection with the University for twelve years & would be unrecognized by half the Alumni who are the pictures. I am merely a survivor from a past generation that one of the Alumni in ten would know who I was.

I am 82 years old. I retain only a few reminiscences of my former merely of phenomena. I am too vain to allow my photograph to be taken in my old age

There are only a few of the reasons why I cannot comply with your request. Please hear me agreed.

Very truly yours,

My dear President Burton,

It is my desire to do what I can to help the University carry forward its program of advance. I wish to give much more than I am able to give outright. I hereby propose to pay the University $5,000 in cash, at this time, this contribution to be devoted, preferably, but leaving the board of trustees within discretion, to the endowment of the department of New Testament and Early Christian Literature, or to the endowment of the department of New Testament and Early Christian Literature, on the understanding that the University shall pay me 5% of interest per year in four quarterly installments of $62.50 each during my life, from and after December 15, 1924. As I am just 82 years of age I may reasonably hope to relieve the University from this interest charge at a not very distant date.

With the warmest wishes for the Abilene Christian University from this interest charge at a not very distant date.

Dear Sir:-

The Board of Trustees of the University of Chicago beg to acknowledge your generous gift of a portrait of your brother, Dr. T. W. Goodspeed. The portrait has been formally accepted by the Board, and ordered placed in Hutchinson Commons, where it now hangs. We all regard the presence of the portrait there as eminently appropriate, Dr. Goodspeed having been concerned from the outset in the formation of the University, and having been and still being an active and valued member of its staff.
